RENECKY SELLS THE FAMOUS ELK SKIN SHOES.

KITCHEN SHOWER.

Miss Louise Lynch was tendered a kitchen shower last Friday evening at the Eble home in Constance street. The affair was arranged by friends of Miss Lynch and Mr. Eble in the city and was a big surprise to the young couple. Everything in the line of kitchenware was strung on a line and when the young honoree arrived, she was greeted with music made by beating on pans, pots, etc.

Lower Coast Developments

Only a short time ago the Lower Coast or that portion of Algiers over the viaduct was looked upon as a section quite removed from our district, but conditions have so changed in the past few years with mushroom-like development, that today it is the coming suburban residential section of the Fifth District.

After the completion of the viaduct, which was built at a cost of eighty-eight thousand dollars, the electric car line put that section of the town in as close communication with the city as almost any other section of Algiers. This improvement had much to do with this development.

The Immigration Station, which was talked of for years, is now also an established branch of the Government in operation. The recent telegram from Hon. Josephus Daniels, Secretary of the Navy, to Mr. M. B. Treovant, secretary-manager of the Association of Commerce, spells out in big letters to the Algiers people the real progress and development in this, what we might call the new section of Algiers. Secretary Daniels' telegram states that contracts have been signed for placing some of the buildings in operation for quartering about one thousand marines at the Naval Station, but the best news of all contained in the telegram was the fact that the Station has been ordered to be opened and preparations are now being made for the repair of small vessels, gunboats, etc., and all work formerly done in the Pensacola Navy Yard will be transferred to this Naval Station on account of the Pensacola Yard being made an Aviation Station.

These improvements for which we have waited so many years, are now to become facts. This means employment within the next year of at least from five hundred to one thousand men. There is more activity at the Yard at present than there has been for many years. The big three-hundred-foot steel wireless towers are now being erected, the machinery is being put into order and Naval engineers are on the grounds making such surveys as are necessary for the early opening of the Station as was announced by the Secretary of the Navy.

Another big development and project which will soon be in actual operation is the establishment of the Jefferson-Plaquemines drainage system which will reclaim in the immediate vicinity of the Naval Station and Immigration Station that vast area of swamp that will be turned into fertile fields within the very shortest possible time. The big pumps for this plant, which are now being installed on Bayou Barataria, have the reputation of being the largest in the world. Experts have stated that the soil in these swamps and marshes is more fertile than the farms along the banks of the Nile. Few cities in the United States the size of New Orleans can boast of having at their very "back door" fertile fields which will be converted into the greatest truck producing gardens. So noted is this soil that several rich real estate men in Chicago have had many car loads of it shipped to Chicago and placed upon land there for the purpose of growing high-grade vegetables.

This section is developing so rapidly that provisions are now being made for the erection of an additional school building in the immediate vicinity of the Naval Station. The big things that Algiers has waited on for so many years are now taking place so rapidly that it seems that the entire developments are ripening at the same time. This is the only section in our District where sufficient ground is available for a large park for our District, and unless provisions are made soon for the purchase of ground for these purposes, it will cost the city of New Orleans thousands of dollars more for every year that this most important matter is deferred. We should all of us work together for the purchase of sufficient ground to insure a big park, the continuity of which should not be broken by buildings, etc., but to have a large tract that may in after years be made beautiful.

Services tonight (Thursday) at 7:30 o'clock. Congregational meeting Friday at 7:30 p. m. Helping Hand meets Wednesday, October 7, at 7:30 p. m. Confirmation instruction begins on Monday at 3:15 p. m. President Wilson appointed Sunday, Oct. 4, as a day of prayer for peace in Europe. (He did this at the request of the Christian Herald.) Therefore, the text for Sunday's sermon is "Lord, in trouble have they visited thee; they poured out a prayer when they chastened was upon them." Isaiah 26: 16. Let us prepare our hearts for fervent prayer for Sunday.

With this service holy communion will be celebrated. Therefore, service begins at 7:40 a. m. A special collection will be taken up at the door. Announcements may be made Thursday after service and Saturday morning. The illustrated lecture at the evening service by Mrs. Henry was well attended and thoroughly enjoyed. At the close of the program a mission study class of ten was organized. The text book will be "Daybreak in the Dark Continent," an old book revised. The pastor will act as instructor until a regular teacher is secured. We again call your attention to the conference assessment service, Sunday at 11 a. m. If all who have not made their payments will do so at that time we will have an important matter off our hands and have the remainder of the time for other things. Please make your contributions in cash or subscriptions payable not later than December 1. The meeting of the board of stewards will take place Monday evening at the pastor's study. The midweek prayer meeting will hold its annual rally Thursday evening. Let all who believe in prayer and the mid-week service try to be present. The pastor baptized at the church, Sunday, the infant daughter of Mr. and Mrs. Dan Lee, and also the daughter of Mr. and Mrs. Blakeman, of 612 Elmira street.

On the evening of Tuesday, Oct. 6, at 7:30 o'clock, a rally meeting of the Woman's Missionary Society will be held in the Algiers M. E. Church, South. The meeting will be for women only and the ladies of the sister churches are cordially invited to attend. Mrs. Banerjee, a native of India, will be the speaker of the evening, giving a most interesting and pathetic account of the life of women of her country. Especially interesting is her story of her own life as the daughter of a high caste Hindu—as a child wife of India and as a Christian. Mrs. Banerjee was for a time a student in the school of the world-renowned Pandite Ramabi of India. She has founded a home and school for child widows, thousands of whom she has rescued from lives of deepest degradation and utter hopelessness.

There will be no admission fee or collection taken, but those who are interested in this great work and would like to help, may drop something in the basket at the door as they pass out. Mrs. Banerjee's work is wholly supported by voluntary offerings. The vestry meets to-night at 8 o'clock at the rectory. On next Sunday, October 4, the services will be as follows: 7:30 a. m., Holy Communion; 9:30 a. m., Sunday School; 11 a. m., Litany, Holy Communion and sermon; 7:30 p. m., Evening Prayer and sermon. The confirmation class will meet for organization Sunday afternoon at 4 o'clock. "Peace Day" will be observed on Sunday in compliance with the request and appointment of President Wilson.

No notes were received by us for this week.

KILLED BY TRAIN.

It was indeed a great shock to his many friends to learn of the death of Percy Strehle, the young conductor on the New Orleans, Southern and Grand Isle Railroad, who fell under his engine Wednesday night of last week, and both legs and his left arm were amputated by the wheels. He was also internally injured. The accident occurred near Treadway, twenty-nine miles below the city, at 9 o'clock. Strehle was brought to the city and sent to the Charity Hospital, where he died at 1:25 o'clock a. m. Thursday.

Mr. Strehle was born in McDonoghville twenty-eight years ago and was the son of Mrs. Peter Strehle of McDonoghville. He is survived by his wife, who was Miss Celia Jeffrey, and by three sisters and four brothers.

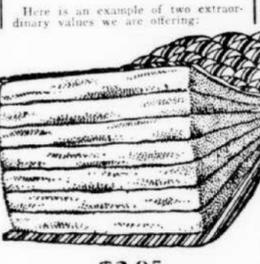

The funeral took place Saturday morning at 11 o'clock, from his late residence, corner River street and Sidel avenue. Interment was in McDonoghville Cemetery.
