INSANE OVER RELIGION; JUMPS INTO THE RIVER.

Mrs. John Henry Vezien, wife of the well-known saloon proprietor of Patterson street, near Verret, committed suicide by jumping into the river from the Third District ferry landing, lying at the ferry landing at the head of Olivier street, at 10:15 o'clock Sunday night. Mr. Vezien had been acting peculiarly and it was necessary to employ a specialist from the city to inquire into her mental capacity. Mr. Vezien stated that his wife had gone insane over religion and was being watched up to the time that she committed suicide. Several people saw her going toward the ferry, but paid no particular attention to her; she was, however, attended in only a night robe, which resembled very much an ordinary dress. Some saw Mrs. Vezien leap into the water except the negro watchman, Ben Adams, who witnessed the act. He declares that the woman sank beneath the water's surface before he could render aid.

Mrs. Vezien was formerly Miss Isabella Kirk and lived with her husband at 110 Olivier street, little more than a block from the ferry landing. Mrs. Vezien left the house in her night robes and walked to the ferry landing, apparently unnoticed until she stepped the boat, on which Rawlins was making his rounds. The watchman called to her, but she paid no heed, moving rapidly towards the outside rail, from which side she sprang into the water. Mrs. Vezien had not been in the best of health for a week or more, and it appeared to be suffering from melancholia. She was 37 years old. Only her husband survives her. One of her sisters was picked up on the boat and she made the fatal plunge. The body has not been recovered. Up to the present time no word has been received as to the findings of the body. At the point where Mrs. Vezien sprang into the water there is a sign eddy, and it is probable that the body will be found above Canal street rather than below the Third District ferry.

MISS DONNER SHOWERED.

The "shower" given Miss Nora Donner on Friday evening proved a veritable "downpour" of innumerable gifts of beauty and usefulness. It was a perfect surprise to Miss Donner, who was brought to the Wilcox house on some pretext. All of the gifts had been lowered and not a word was made by the some fifty guests assembled. The guest of honor unfolded and led, to the strains of a wedding march, to an arch beneath the parlor, where a huge wedding ring was suspended. A given signal this was lowered and she unveiled the fair bride-to-be, who was then allowed to "see and be seen."

Gifts as could be had been with ribbons to the "ring" and the recipient was kept quite busy for some time opening them all and passing them on for inspection. The house decorations were white and apple green. Flowers were everywhere, and on the piano and suspended from the chandeliers were beautiful baskets filled with daisies. Refreshments and fruit punch were served. The party planned affair was a decided success and a credit to Miss Wilcox.

Big Plant Will Start Operations in Sixty Days. Formerly Old Security Brewery Plant

The old plant of the Security Brewing Company, on Brooklyn avenue, is again the scene of great activity, and this time it is very evident that the promotion has been ended and that actual operations will soon be begun. The first organization which took over the building of the Security Brewing Company had in their charter the location of a distilling company here for the manufacture of whiskey and the resale or the use of their by-products in cattle feeding, but it seems that their investigation showed that a sufficient amount of corn could not be had in this near vicinity to make the plant a success; consequently the idea of a whiskey distillery was given up, new capital was brought into the company, and it is now being converted into a distillery for manufacturing denatured alcohol.

Mr. John Deblieux, the secretary of the Levert Lumber and Shingle Company of Plaquemine, La., is the chairman of the board of directors of this new concern and also its treasurer. Mr. L. M. Sonlat is the president, and Mr. F. B. Bernard (one of our townsmen) is the foreman, while Mr. R. E. Grevenburg is the chemist.

The company now is not offering its stock for sale; it represents at the present time an outlay of about one hundred thousand dollars, most of which has been paid in.

The machinery for the production of the alcohol, which will be made from Louisiana molasses, is now on hand and being erected, and the new concern will be ready to turn out its product within the next sixty days. The capacity of the plant will be about four thousand five hundred gallons per day, and will give employment to about twenty men, most of whom will be from our side of the river.

In speaking to Mr. Deblieux regarding the production of alcohol from molasses, he stated that the Louisiana molasses, which they will use, will produce to the gallon eighty per cent of its volume in denatured alcohol, which has a ready sale at about thirty-eight cents a gallon, while the price of molasses used for this purpose runs between three and eight cents per gallon. From this it might be seen that the opportunities for profit are great, and we trust that the new concern will be a big success. Some of our well-known business men are also interested in this new industry.

SIX APPLICANTS AT BONNER HOME.

Haven for Aged Men Dedicated in Algiers; Mayor Behrman Makes An Address.

Six applicants, whose requests had been favorably acted upon, were prepared to enter the John M. Bonner Home for Aged and Infirm Men when the institution was opened for their reception last week. One of the first to reach the Home was Edward Johnson, formerly an engineer on river boats of the seventies. Mr. Johnson is more than 70 years of age, and as all his near relatives have died, he decided to take advantage of the chance for a refuge in his declining years.

The Home was formally dedicated Wednesday afternoon. With Mayor Behrman, members of the Bonner family, Judge W. B. Somerville, president of the Home, and many other friends and patrons of the institution on board, the tug Wilcox left the wharf at the head of Canal street about 2 o'clock. When the party reached the Home they found that it had been decorated with flowers and bunting, and every room was in shape for the reception of the inmates. The exercises were held in the living room and the speakers stood directly beneath a large portrait of the late Judge Bonner, to whose memory the Home was dedicated.

Mayor Behrman, who has not been in good health for several weeks, responded to an invitation to make an address. He said that he had always thought there were two classes of people who are overlooked—the little ones and the old people.

"There should be more playgrounds for the young and more havens like the Bonner Home for the old," he said. "This institution should be an influence in doing something for others who cannot do anything for themselves."

After speeches by Judge Somerville and a short musical program, W. Melancon and his wife were formally appointed superintendents of the Home. Joseph W. Lennox, the builder, also made an address.

DANCE AND PICNIC.

The Workmen's Union and Benevolent Association of Algiers held its regular meeting Wednesday night. A large number of members were present to hear the report of the Committee on Grand Dance and Picnic to be given by the Association for the benefit of its relief fund, on Saturday, July 17, at Suburban Park. The committee, which is showing unusual energy and aggressiveness, is doing all it can to make this affair the grandest in the history of the association, and expects to give the association's guests a splendid time on this occasion. Laine's "Original" Reliance Band has been engaged and other features are being arranged, including a stunt which will be unusual, and which will be sprung as a surprise. The members of the committee are S. A. Eross, chairman; John Schroder, ex-officio; H. E. Albrize, W. G. Andry, J. A. Barrett, Eug. Blass, J. E. Bays, E. E. Babin, A. C. Briel, Geo. Babin, A. F. Buchholz, Jos. Tallon, Geo. G. Brunnsann, T. V. Cassanova, N. Chestnut, John Dulcich, T. A. Guillot, Jy. Lecourt, E. J. Mothe, Gus Peterson, T. J. Rice and A. Swan.

Several new members were initiated, and as much important matter was disposed of, the meeting did not adjourn until close on to the midnight hour.

NAVAL STATION NOTES.

The U. S. A. dredge Galveston was undocked on June 11th by Chief Carpenter Alonzo Burke, U. S. N. This vessel is still at the Naval Station for the finishing of the repairs by the Stearns Foundry Company.

The U. S. S. Amphitrite and U. S. S. Stranger were docked on the 14th and will remain in dock about ten days to undergo the regular scraping and painting to outside underwater parts and minor other repairs. It is estimated that the entire work to be undertaken will amount to about \$3,000. When these vessels are completed they will be in fine trim for the summer cruise of the Louisiana Naval Militia.

The U. S. S. Petrel is expected to arrive at the Station about July 1st for her overhaul period. This is the second naval vessel in full commission to be overhauled since the reopening and the work will take probably two months, costing in the neighborhood of \$20,000. This vessel is a gunboat, built by the Columbian Iron Works, Baltimore, Md., 890 tons displacement and a length of 188 feet. She was accepted by the government in 1889 and has been in commission ever since. The Petrel is commanded by Lieutenant Commander D. M. Wood, U. S. N.

Captain Richard M. Cutts, U. S. M. C., is expected to arrive shortly to take command of the marine detachment at the Station, replacing Capt. Jesse F. Dyer, who has been ordered to Washington, D. C. Captain Cutts has been on duty at the Marine Barracks, Pearl Harbor, Hawaii.

Captain Jesse F. Dyer, U. S. M. C., commanding the marine detachment, has left for his new post of duty in the office of the Judge Advocate General, Navy Department, Washington, D. C.

Naval Constructor Wright recently requested the department to change the storekeeper at the New Orleans Navy Yard to his jurisdiction. He explained that owing to the present state of the work in the yard the storekeeper was engaged almost entirely in duties in his department. The department decided today, however, to leave the storekeeper under the commandant. It is not desirable to make a temporary change, it was stated.

Mrs. Jack Watkins and baby, Lucille, of Port Gibson, Miss., are visiting their grandmother, Mrs. Quinlan.

James Noonan, guest of Hotel de Gink, Gretna, attracted quite a bit of attention Friday evening while out for a promenade. Heretofore he has been known as "Cancer Jim" and "Greasy Jim," but the title "Gentleman Jim" would be more appropriate in view of his greatly changed appearance. And the best of it all is that he likes the experience.

Desire Braud, jailer in charge of the parish hostelry, escorted his charge on his little sight-seeing excursion, and to him Noonan has confided that he rather likes the outings and requested that he be allowed to take them frequently. Noonan has been favored by Mrs. Rowe of New Orleans with two suits of clothes, shoes and hats, collars, ties, etc., and his new costume was becoming to him, though it must be admitted he did look strange to those who had seen him before the brush and soap had been applied. He enjoyed smoking a cigar, too.

The next treat that Jailer Braud promises to give Noonan will be an auto ride, something that he has never dreamed of.

The ferry A. Baldwin has been laid up for a general overhauling and the ferry Alice is operating in her place at Jackson avenue.

The Tuesday Afternoon Five Hundred Club were entertained by Mrs. G. Bourgeois this week. The successful players were Mrs. Henry Brown and Mrs. R. E. Whitmore. The consolation fell to the lot of Mrs. Alonzo Burke. The club will be entertained by Mrs. Henry Brown on the 29th inst.
