the playgrounds going until the first of September. Then a few might be maintained, but Mrs. Stallings, president of the commission, said it would not be fair to close some and maintain the others, and therefore all would have to close. The records of the commission show there are ten playgrounds being operated now, of which one is for negro children, and there are two that could be opened if funds for their equipment were available. The total appropriation of the city for the playgrounds is but \$4115. There is the manager, whose salary is \$1000 a year, and a director on each of the grounds who receives \$20 per month, and the physical instructor who receives \$10 per month. The manager also keeps the books and the general charge of equipment. The manager's salary could be saved if some public spirited citizen would volunteer to do the work without salary. It was reported at the meeting that the owners of the Alziers property on which the playground is situated have served notice that the grounds must be vacated July 17, and unless the city authorities can find another place or some citizens come forward and donate a plot of ground there will be no Alziers playground, and the apparatus will have to be stored.

BURGLARS AGAIN. The residence of Guy Domino, 1491 Teche street, was entered Friday night and jewelry and money amounting to \$125 were stolen. The intruder, it is believed, entered the rear of the residence by opening a door with a false key, going upstairs and securing \$300 in currency and jewelry valued at \$125. The occupants of the house were absent at the time. Effecting entrance by forcing open a screen door, thieves early Saturday morning entered the home of C. W. Eubank, of Atlantic avenue, and stole a suit case containing clothing, together with jewelry and \$20 in currency. The clothing and jewelry are valued at \$130.

Quick Way to Drive Posts. To drive posts quickly take a section of log about fifteen inches in diameter and two feet long, to which are attached two handles at an angle. Two men, one on each side, can use this hand power pile driver while a third man holds the post to be driven and keeps it in alignment. -Farm and Home.

Made Him Cross. "I made my husband cross this afternoon," said Mrs. Callier. "How was that?" queried Mrs. Homer. "He was on the opposite side of the street, and I beckoned him to come over," explained the other.

Cause For Thanks. Guest—Look here! This mirror is so fearfully dirty that I can't see my face in it. Hotel Servant—It strikes me you ought to be thankful for that instead of making trouble about it. -Exchange.

When to Bend Your Knees. Here is a hint for you. In case you should happen to be caught in a falling elevator bend your knees. One day an elevator in a sixteen story building became dislodged and fell from the seventh floor to the basement. There were seven passengers in the car. Alvin to the danger, the car operator shouted. "The car is going to fall. Turn your backs to the door and bend your knees!" Six of the seven passengers obeyed and escaped injury, although the car landed with a crash that sounded all through the building. The seventh rider failed to obey the order and suffered fractures of the right thigh bone and of the right knee and lacerations, because he was facing the door and the broken glass showered upon him when the car struck. -New York Letter in Parisian Dispatch.

Real Envy. A considerable mingling of social classes exists in our hill village, writes a correspondent, owing to the town-folk's practice of renting summer cottages in our midst and living there neighborly with the real working people for whom the places were built. In one such case the resident from town, was an unmarried lady; the "country" cottage next door had a husband who, to put it mildly, was notoriously no blessing to her. Making a friendly call one day the wife was greatly impressed by the pleasant air of comfort and well being which prevailed in a cottage otherwise the duplicate of her own. She looked round with a mildly envious air and earnestly remarked on a little sigh, "Oh, Miss N., you ought to be 'frightened' instead of not!" -Manchester Guardian.

The Portuguese Rebanadas. A dish as much eaten by the Portuguese as mince pie by Americans is the rebanadas. It is of Moorish origin and is easily and quickly prepared, as befitting the habits of a nomadic race. Thick slices of bread are soaked in new milk, tried in olive oil and then spread with honey and eaten hot. The result is something delicious, and those who have once tasted the rebanadas will want to taste it again. Time for Futurist Music. "I don't care much for that piece the orchestra is playing now." "Why, that's futurist music." "Oh, is that it? Why don't they play it some time in the future, then?"

GISICH RECEIVES REAPPOINTMENT. The many friends of Leonard F. Gisich were pleased to hear a few days ago that through the endorsement of Mayor Martin Behrman he has been reappointed as clerk of the Second City Court to fill the unexpired term of George Palmer. Mr. Gisich's first appointment came through Governor Hall, being a recess appointment, and the appointment now through Governor Pleasant makes the position permanent until the coming election. Mr. Gisich has already announced his candidacy for the position, and his many friends have warmly assured him of success in the coming contest should there be one.

CRAB FEAST. A jolly good crab supper, given Tuesday night at Chris. Thompson's place, corner Bony and Alx streets, was a decided success. Mr. L. Zine was host and others present as guests were: Messrs. C. Path, E. Schieb, E. Schwab, J. Zataran, Victor Assouze, Chris. Thompson and Master Leo Richards.

NEED MONEY. That all the playgrounds of the city must close by the end of August unless funds are obtained to maintain them, was the declaration made at the meeting of the Playgrounds Commission Tuesday. How this will affect the children who enjoy these recreations is indicated by the report of Manager Benedetto that the attendance at the playgrounds in June was 42,660. It was shown by the books that there is just sufficient money on hand and in sight to keep

the playgrounds going until the first of September. Then a few might be maintained, but Mrs. Stallings, president of the commission, said it would not be fair to close some and maintain the others, and therefore all would have to close.
