NAVAL STATION NOTES

First Boat To Be Built.

Arrangements are being made at the Station for the construction of a sixty foot motor boat for the quarantine authorities. It is estimated that this boat will cost about twenty-five thousand dollars and will take six months to complete.

The U. S. S. Machias was undocked Monday and will tie up at the Station wharf to complete her repairs.

Admiral Harris, Chief of the Bureau of Yards and Docks, visited the Station Monday for the purpose of inspecting relative to the improvements contemplated in the segregation of the different machine shops, etc. The Admiral was much pleased with the conditions as found and will probably recommend the major part of the improvements.

The Army Dredge Sabine, usually on duty at Sabine Pass, has arrived at the Station for docking and minor repairs. This vessel will not be at the Station for very long as the repairs to be undertaken can be finished in a short time.

TO BUILD U. S. BOAT AT NAVAL STATION H R

A vessel to cost approximately \$25,000 will be constructed for the use of the public health service, and the work will be done at the New Orleans naval station. The vessel will be used for boarding purposes.

While the boat is small, its construction at New Orleans is regarded as important, since it will be the first vessel to be constructed at that yard. It is believed by many naval constructors that New Orleans is the logical point for building small naval and other vessels needed by the government. It is regarded as probable that considerable work of this class will be done in New Orleans in the near future.

ON DISPLAY AT BODENGER'S

Some of the teachers of the New Orleans Art Studio which is to be located in Algiers have made arrangements to display some of their wares and art in the show windows of Mr. Jules Bodenger on Delaronde street, beginning with Thursday morning. Miss Irene Brooks, who has charge of the class of basketry, will display her wares there and Miss McNorton, who will teach water colors and drawing, will also have some of her specimens there for examination. Those interested in this kind of work will no doubt find a great deal of interest there.

You Can Save Money Here on High Class Dentistry

Put your teeth in perfect condition. The winter months are rush months for dentists. If you wait until then to have your teeth troubles attended to, you may be compelled to make appointments far in advance, accept short sittings, and make many more trips than would be necessary now. Have your dental needs attended to right now—before the RUSH, before the cold rains set in—before those terrible nerve-racking pains and aches begin.

PRESENTED WATCH BY MARINERS

Captain Anderson of the Swedish bark Tana, was surprised Sunday morning when the tug Samson of the Dock Board and fifty mariners from the local port steamed alongside his vessel and tied up. The captain was off deck when the party arrived, and when he reached the forward deck he asked what was the trouble. He was told he was going to be presented with a gold watch and chain for his heroic work when he saved six members of the steamship Admiral Clark, which was sunk in the Caribbean sea during the hurricane of August 16.

Jael Firch, second mate, and William Rambeay, steward, were presented with silver pocket knives. Captain Anderson thanked those in the party and took them to the cabin, where refreshments were served.

The gifts were purchased through popular subscription among the mariners of the city.

Harry L. Macpherson was chairman of the arrangement committee and was assisted by the following: John Walker, J. A. Taylor, M. J. Welsh, Captain Dave Connor, Ed. Killian, James Talbot and R. McKinney. Mr. Wren and Cecil Bean of the United States local inspectors' office, served on the reception committee with Ed. Botner, T. Hayes, J. L. Covert, J. J. Brown, Captain Charles Daniels, John Fitzpatrick, Frances Richardson, Geo. Parry, R. W. Meyer, Ralph Nolan, John Laskey, Dave Rouland, M. M. Levy, George Pilarski, Thomas Roberts, Ed. McNair, Henry D. Stearns, Ed. Soler, J. J. Howard, Captain William Heuer, John Riggs, A. Delcazel, George Hull, J. Solaris, W. P. Lawrence, A. E. Wilson, L. A. Hartiens and William Wishart.

NEW FLOWER SHOP IS A THING OF BEAUTY

One of the prettiest and most refreshing spots on Canal street Saturday morning was the new flower shop opened by Frank J. Reyes, in the Gumbel building, at 537 Canal street.

The rare and abundant beauty of the artistically displayed stock of fresh flowers and shrubbery seemed to reflect the splendor of the newly opened store of natural beauties.

With the interior of the floral fairland a mass of gorgeous color and with graceful palms lining the sidewalk, the scene presented was most inviting, and many passers-by accepted invitation of the glowing flowers.

Special invitations were sent out by Mr. Reyes to all of his business friends, who responded unanimously with floral tokens of best wishes, and written messages of congratulation. Visitors crowded the new branch throughout the day.

PARADE IN HONOR OF JNO W. AIKMAN

Saturday night was "Aikman Night" and hundreds of friends of John W. Aikman honored him with a parade and reception.

The celebration was under the auspices of the Fifth District Carnival Club, with Louis Zinc as grand marshal. Other organizations represented were: Company H. Uniform Rank, Woodman of the World, various camps of the Woodmen of the World, Maccabees, Benevolent Knights of America, Zuzu Club, Southern Pacific Benevolent Association, Silver City Social and Pleasure Club, and the employes of Marks Isaacs. Several bands of music were in line. Fireworks and torchlights added to the display.

Ed. McClosky acted as master of ceremonies and introduced the several speakers, who included Rev. Father Petit, E. W. Burris, Tim Allingham, A. C. Harris and others. Mr. Aikman was presented with a diamond studded emblem of the Fire Department and a silver loving cup by Martin Behrman Tent No. 18 and with a cut glass punch bowl by the Benevolent Knights. Little Walter Bairnsfalter presented Mr. Aikman with a beautiful bouquet of flowers.

A joint celebration of the twentieth wedding anniversary of Mr. Aikman and his wife and the sixteenth birthday anniversary of his daughter, Eloise, marked the occasion, as well as the celebration of Mr. Aikman's victory in the recent popularity contest of the firemen's festival, when he won a gold watch and chain.

Moving pictures, dancing, music and other pastimes were enjoyed and there was an abundance of refreshments.

Good Style and Wearing Qualities Are Built Into Holmes Men's Suits

The three important points about men's suits are: The style of the cut, the quality of the fabric and the skill of the workmanship. From an outward appearance men are able to judge of the first two points. An examination shows these.

But it is "the part you cannot see"—the workmanship—which counts so much toward the shape-retaining and wearing qualities of the suit; and for which the man must accept the dealer's word. Men have full assurance in buying their clothes here that time will prove the superior quality of the workmanship.

They are the best clothes we can find, combining high quality fabrics, correctness of cut, and expert workmanship. They are up to the Holmes standard.
