LOCAL STOCK COMPANY FOR FERRIES

Joseph A. Blythe Suggests Profitable Solution Of Our Ferry System.

LETTERS FROM THE PEOPLE.

New Orleans, La., Feb. 6, 1917.

Dr. C. V. Kraft, Algiers Herald, Algiers, La.

Dear Sir:—

I have read that article in last week's Herald about the ferry.

Can you mail me one of your petitions and let me have my various buyers sign same when they come here to make their payments. I am heartily in favor of the object of your campaign but thus far have not seen any practical suggestion for the consummation of it.

I have sometimes thought that a popular stock company could be gotten up in Algiers for the bidding of the ferry, stock, lock and barrel when the present franchise period has expired. The stock holders might set forgo to the amount of their subscription, letting all others pay at the present rates, until the amount invested had been returned to the company in cash payments paid by outsiders, from which time a "Ferry at cost system" as you suggest, might go into operation. I do not see why people should pay taxes for the privilege of living on the other side of the river. I do not see any justice either in the prohibitive charges placed upon wagons, which charge does more than all things combined to keep certain industries from developing on the other side of the river.

I hope sincerely that you are successful in your object.

Yours very truly,
Joseph A. Blythe

AN OLD NEW CONTRACTOR.

Mr. Thomas B. Brown of 717 Opelousas Ave. who has been in the contracting and building business in Algiers for some time and who a few years ago became a dealer in roofing material exclusively, has recently disposed of his roofing business and will again enter the contracting business in our district.

Thomas B. Brown does not need any introduction to the Algiers people. He is a native here and has been in the building business for fifteen years. Besides the regular building and contracting business, Mr. Brown is going to make a specialty of furnishing plans and specifications and to also build houses on the monthly installment plan when the builder has a lot upon which to build a house. Mr. Brown has been contemplating this move for some time but only recently made up his mind to engage in this business in Algiers. It goes without saying that Mr. Brown will be equally successful now as he has been in the past.

Mr. John Couget, the popular butcher of the St. John's Market, has recently improved the appearance of his stall by building a canopy over the top and closing it in on both sides. The stall is such a great improvement over the others in the market that it does not look like it belongs to the same place. The improvement no doubt will be greatly appreciated by the many customers of Mr. Couget who will appreciate the fine sanitary arrangement which he has perfected. Mr. Couget is always up-to-date and is always ready and willing to serve his customers in the best possible way. Those who have not seen the stall since it is completed will be greatly surprised to notice the improvement.
