COFAT A NEW PRODUCT.

Mr. Jos. Duffy, one of our local boys, is placing on the market a new cooking oil known as Cofat and has already made such a big success of his business in Algiers that it has required of him to place in his business two automobile trucks for the delivery of his product which is put up in half gallon, gallon and five-gallon glass containers. It is not our purpose to go into details here regarding this new product except to say that Cofat is much cheaper than lard or lard compound. That has been proven a long time ago and especially that the fact has been brought out that the cooking oils are far more economical than any lard now on the market. Mr. Duffy is delivering this Cofat to the consumer direct all over Algiers, McDonoghville and Gretna and has already built up a very large trade.

We all know Joe Duffy as a hustler. We know that he has always made good and now is our chance to give him a boost, so if it is all the same to you, buy Cofat instead of compound lard and help an Algerine to do business, besides when you buy a gallon of Cofat you get value received for every cent that you spend and you are saving some money by using a product that shows economy from the start. Joe Duffy will tell you about it.
