

A new bank for new New Orleans

¶ It is our conviction that New Orleans and our tributary territory are now beginning an era of genuine growth and greatness. In that faith rests the foundation of this institution. To foster the prosperity and progress of our section through every channel consistent with sound banking principles, is the aim and purpose of the new MARINE BANK & TRUST CO.

Now Doing Business

¶ Monday morning this institution opened for business in its new quarters, 732-734 Gravier Street, forty days after its stock was first offered to the public, and 37 days after its entire stock had been fully subscribed--and paid. We are naturally proud and appreciative of the kindly support that made possible this somewhat unusual accomplishment; we are hopeful that this is the forerunner of a record of growth that will likewise set a new standard. We would indeed esteem it a pleasure to have you call--even if merely to "look around."
