Is Your Blood Starving For Want of Iron?

Iron is Red-Blood Food—Nuxated Iron Helps Put Roses into the Cheeks of Women and Strength and Energy into the Veins of Men.

If you were to go without eating until you became weak, thin and emaciated, you could not do a more serious harm to yourself than when you let your blood literally starve for want of iron—iron that gives you the power to change food into living tissue, muscle and brain. Without plenty of iron in the blood, no matter how much or what you eat, your food simply passes through you without doing you any good—you don't get the strength out of it and instead of being filled with youthful serene energy you are weak, nervous and all run-down. If you are not strong or well you owe it to yourself to take the following test: See how long you can walk or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary Nuxated Iron three times a day after meals for two weeks, then test your strength again and see how much you have gained. Numbers of nervous, weak and run-down people have testified while have most astonishingly increased their strength and endurance simply by taking iron in the proper form. Don't take the kind of iron from any store, but take Nuxated Iron in a form that can be easily absorbed and assimilated like Nuxated Iron. If you are not a good, otherwise it may prove worse than any good. You can procure Nuxated Iron from your druggist on an absolute guarantee of satisfaction or your money will be refunded.
