

FACTORY TO LOCATE IN ALGIERS

WANTS TWO HUNDRED MACHINE OPERATORS. Opportunity that Local Business Men Should Look After.

A large factory is to be established in Algiers, provided that a sufficient amount of labor can be obtained. In the Classified Section of the Herald this week, will be noticed an advertisement which reads as follows: "Wanted experienced white operators and beginners to operate power sewing machine in factory in Algiers; Good pay for experienced operators; Address reply stating whether experienced or beginner to R. L. S. care of the Herald."

This factory already is established in the city of New Orleans, but for many reasons desire to locate in Algiers where they can get a cheaper rental for their factory and at the same time employ also operators, who will be able to make the same wages as they are now making in the city with the additional convenience of getting their hot meals at home and who will be able to save carfare and ferrage. About two hundred machine operators are required to locate this plant in Algiers. We appeal to all those who are now employed in the different manufacturing establishments in the city, where machine operators are employed to send in their name and address giving their experience, and in this way they will help Algiers to establish an enterprise so essential to our commercial success.

If you know anyone who can operate a sewing machine, call their attention to the advertisement on our Classified page and have them send in their names and address. This is one boost for Algiers, let us put it over.

The name of the factory or firm desiring this location is being withheld from publication temporarily for the reason that it would not be to their advantage to let it be known that they desire to move from the city.

HURT IN AUTO ACCIDENT

Mr. Elmo Keenan of 627 Elmira Ave. was painfully hurt last Tuesday morning when an automobile in which he and a party of friends were riding was overturned at Jefferson and Decatur Streets.

The fatal trip started from 721 Poydras Street, where the plumbers and steamfitters' union held a meeting Monday night. As superintendent of the Crescent City Machine Works and member of the union, Mr. Bayhi attended the meeting, going there in his automobile. After the meeting several of the members asked to be driven to their homes, and Mr. Bayhi agreed to take them in his automobile.

Two of the men lived in the vicinity of Louisa and Rampart streets and Fitzgerald, who was at the wheel, was instructed to drive out and then the trip back was started. Fitzgerald came up Burgundy street, to Esplanade, and then turned in to Decatur.

On their way to Canal street the accident occurred. Just as the machine cleared the old French Market it began to skid from one side to the other, and then suddenly it swerved to the right, crashed into the curbing and turned over completely.

Geo. Dietrich of 215 Olivier St., was also in the machine, but was not hurt.
