VOL XXVIII JULY 29, 1920 No. 12

HUMPHREY CANDIDATE FOR JUDGE.

The announcement of the candidacy of Nicholas E. Humphrey for judge of the Second City Court to succeed Hon. Martin S. Mahoney has been received by the Algiers people with a considerable amount of satisfaction. Mr. Humphrey made such a phenomenal race in the last city election when he was a candidate for judge of the Juvenile Court that his friends prevailed upon him and insisted that he become a candidate for judge of our local civil court in the coming primary election to be held on September 14th. Mr. Humphrey's popularity among regulars and O. D. A. was thoroughly demonstrated by the fact that he ran ahead on his ticket.

Mr. Humphrey is a competent lawyer who has won before the bar some notable cases that have demonstrated his ability in his profession. His temperament and disposition are such that as judge of a court he would not allow his own prejudices or other influences to stand in the way of full justice. Mr. Humphrey was a staunch supporter of John M. Parker, he always has been a believer of political independence, and political independence is one of the principal planks in his platform. Mr. Humphrey goes to the polls on September 14th without political promises to any one, but with a guarantee of honest decision to those he will have to judge should he become the head of the Second City Court.

DO MOVIES HURT THE EYES?

The fact that millions of people go to motion picture shows throughout the United States daily without experiencing any discomfort to their eyes, or that such eye trouble that is found is not traceable to "over indulgence" in the movies, would seem to indicate that motion pictures are not injurious to the vision.

It is true, of course, that some people do experience a certain amount of eye strain at a motion picture, but in these cases the trouble appears to be due to an ocular defect rather than to the motion picture. Such persons should therefore have the eyes examined by a competent specialist, for it is quite certain that the same persons would find even more discomfort in the same period of concentrated reading.

In this connection it may be pointed out that employees of motion picture playhouses, who spend a large part of the day looking at the pictures, do not seem to be troubled with their eyes any more than the average individual. This, is largely a personal observation since no extensive investigations have been made of the eyes of motion picture theatre employees.

It is safe to say a person may witness a picture play lasting about an hour and a half each day without straining the eyes or experiencing any discomfort, provided the eyes are good and there are no hidden defects to the vision. In fact it is not likely that a motion picture show might be the means of advising one of a faulty vision.

In case of eye trouble coming on after concentrating the eyes on the printed pages of a book for a long period one does not blame the book, but thinks at once of the eyes and the probable need of glasses.

Eye discomfort in the movies should therefore be regarded as a danger signal and should lead the sufferer to the doctor's office for an examination.

PRINCE JOACHIM.

The suicide of the youngest son of the last kaiser takes from earth the most popular member of the house of Hohenzollern. Indeed, in the last days of the war it was generally believed that his father would abdicate in his favor.

Prince Joachim was modest, affable and brave. He fought on both Eastern and Western fronts with bravery—not one hundred and fifty miles in the rear, but on the firing line. The fact that he was severely wounded attests this fact.

His wound made him the idol of the people. It is to be regretted that he gave way to melancholy, for Germany has need of such as he. As a citizen he might have been of some use to the world—as a princeling, he could do nothing worth while, for he was too far from succession to the crown.

It is difficult for us to see the good in our enemies, but of all the sons of the kaiser, of all the great military clique which throttled Germany, Prince Joachim was nearer the stature of a real man than any of the rest.

MARKETS—NOT YIELDS.

The great need of this country in the farming section is to get goods to market promptly and at prices that will pay the producer, without too great absorption by middlemen. The waste in marketing is our most serious problem.

In some of the gardening sections of the country as high as 30 per cent, and in some cases almost 40 per cent, of a given crop may be left to rot in the field because it cannot be marketed at a profit, yet the people of the cities are in real need of that food. This is especially true of perishable fruits and vegetables.

Farmers take their produce to town where the buyers, usually in combination, offer what they choose, and the seller can take it or go home. In the latter case, of course, he loses all. If he sells at the buyer's price, the latter puts it on the market to the consumer, often at two hundred per cent, above the price paid.

Our State and National agricultural departments could not do better than to turn their attention to a practical solution of the problem, which is much more important than to produce more crops, when the producer cannot sell what is already produced. Another of the great causes for this loss is poor roads and New Orleans is seriously affected through this one cause. Give the farmer a good road and he will market his product.

"Demanding" replies from the opposing candidate is now the favorite occupation of many a self-sacrificing citizen who is permitting an office to seek him—for of course no man ever seeks an office.

Bankers now say that they are satisfied with the outlook, but that six months ago they were fearful, though they did not dare say so. If they kept their real feelings to themselves then, what assurance have we that they are opening their minds to us now?

Many a man wishes the "missus" would write something besides "please remit," and he's trying to remember all of the instructions she gave him when she started on her vacation.

Now if it had been the kaiser instead of Prince Joachim who committed suicide—and if it had occurred six years ago, what a lot of woe would have been spared the world.

Bismark proposed to leave France "Nothing but eyes to weep with," it was said. From the walls that are coming from Germany, she at least has that much left.

That signal from Mars hasn't come yet—not so you can notice it at least. We don't care. Maybe they are hungry up there and want another of our famous food commissions, who knows?

Church of the Holy Name of Mary

Personal.
Rev. Fr. Hayes, S. M., returned last Saturday from his vacation during which he had the pleasure of seeing his old friends in Atlanta, Ga. He was present at and took part in the first Mass of one of his class mates, Rev. W. Hanlon, S. M., who was ordained recently in Washington, D. C. Fr. Hayes was met at the L. & N. station by the Boy Scouts. The boys were glad to see him for many reasons but especially because he is about to organize a camping trip in the near future for them.

Very Rev. T. J. Larkin, S. M., is at Bay St. Louis to look over the St. Margaret's Daughters Home for Working Girls, in which he has taken such an interest. The idea was his and he kept working, as usual, until it was a success. The first big move was the big play staged at the Tulane two years ago, which netted nearly one thousand dollars. The Daughters under the able direction of Mrs. H. Valette have been able to make the dream come true, for now about twenty girls are being taken care of at the home at the Bay.

Rev. Fr. Quinn S. M., whom everybody calls as the president of Jefferson College, accompanied Fr. Larkin.

Fr. McGrath, S. M., who has not been well lately, is spending a few days with his brother at Opelika, Ala. He needs the rest before preaching another retreat to some community in New Orleans.

There is yet no definite news about the future pastor of the church, but the suspense will not last much longer, for the name of the one who will have this position will be announced in a very few days.

Very Rev. Fr. Cassagne, S. M., who is resting at the Bay is reported as improving very rapidly. His friends will be glad to hear this bit of good news.

Methodist Church Notes

C. C. Wier, Pastor, 236 Olivier st., Algiers, La. Phone Algiers 138.

Last Sunday at the morning hour the pulpit was filled by Bro. S. D. Roberts of McDonoghville. His subject was "The Power of an Endless Life." His remarks were very much appreciated and enjoyed by the congregation. The pastor occupied the McDonoghville pulpit. At night the pastor's text was Romans 8:16 "The Spirit Itself Beareth Witness with Our Spirit that we are the Children of God."

At night, Mr. Sanford Herbert rendered a much appreciated trombone solo. The congregation was very good notwithstanding the fact that so many of our people were out of town.

GOOD THINGS FOR ANY DAY.

A drink which is a full meal and one which is good for young or old is—
Chocolate Egg Nog.—Beat the white of one egg with two teaspoonsful of sugar and one teaspoonful of cocoa. Scald two cupfuls of milk and pour over the beaten yolk of egg. Beat half of the first mixture into the second, add a pinch of salt and pile the rest of the white on top of the glass. This makes two glasses.

Cornmeal Muffins.—Take one and one-half cupfuls of cornmeal, add three tablespoonsful of sugar and a teaspoonful of salt; add six cupfuls of boiling water and one and one-half table-spoonfuls of butter, cook in a double boiler an hour and a half. Turn into a mixing bowl, cover with a little water to keep the top from hardening and let stand over night. In the morning add one and three-fourths cupfuls of flour, three teaspoonfuls of baking powder and one egg well beaten. Bake in muffin pans in a hot oven.

Date Bars.—Take one cupful each of washed dates cut in halves, nut meats broken, sugar and flour, two eggs, half a teaspoonful of salt and one-half teaspoonful of baking powder. Beat the eggs, add the dates, nuts and sugar, then the flour sifted with the salt and baking powder. If more moisture is needed add a few drops of milk. Bake in a sheet and cut in strips.

Peas in Ramekins.—Take a can of peas or fresh cooked peas, rub through a sieve, add two table-spoonfuls of melted butter, one-fourth of a cupful of milk, one table-spoonful of flour, one teaspoonful of salt, two well-buttered ramekins. Set in a pan of hot water, cover with buttered paper and bake until firm.

Strawberry Whip.—Take one quart of July berries, stir in one cupful of sugar and fold in the stiffly beaten whites of three eggs. Heap in sherbet glasses and serve with a spoonful of whipped cream on top. This may be served on shortcake or hot baking powder biscuit.

WILL BOOST FOR NORMAN.

John R. Norman of Algiers, candidate for the Commission Council on the O. D. A. ticket, has an enthusiastic supporter in the person of J. J. Puncy of the Eleventh Ward, who is employed as one of the paymasters of the New Orleans Railway and Light Company. Mr. Puncy began his career as office boy in Mr. Norman's office while Mr. Norman was a member of the firm of Putnam & Norman, cotton factors, and it was through Mr. Norman's kindness and help that he got a start in business life. When he learned that his old employer had entered the race for Commission Council Mr. Puncy was among the first to offer support. Mr. Puncy has been employed by the New Orleans Railway and Light Company as a paymaster and every employee of that corporation knows him.

Has Love for Snakes.

Is there such a thing as a snake lover? Just ask the keeper of the reptile house who has been there for years, and he will tell you snakes are beautiful as kind. Of course, you can't expect too much intelligence, but he has one hog-nosed snake who was the pet of an old Quaker for years, and the reverend gentleman read the Bible to him every night, which he seemed to enjoy hearing. This sport has been denied him lately, since the gentleman died.—Exchange.
