Methodist Church Notes

Rev. C. C. Wier, Pastor, Residence
236 Olivier, Phone Alg. 138.

Last Sunday we missed many of our members, but the services at both hours were well attended. The night congregation was the largest we have had for some time. The choir rendered good music, in spite of the fact that there were so many absent. At the morning hour, Dr. Browning, who has charge of our Spanish work in New Orleans, preached. It was his first visit to our church, but the congregation was delighted with his message.

At night, we had a patriotic service consisting of patriotic songs and special music by the choir for the occasion and a sermon by the pastor from Psalm 9:17. "The wicked shall be turned into hell, and all the nations that forget God." The average man or woman has already accepted it as just for a man to suffer for his individual sins, but we must go all the way and observe that the nations that forget God are punished, and that it is true today and has been true all through the history of man and nations; suffering for our sins is a fact and one of the most awful sins is to forget God. It is a mean compliment to pay any one to forget, and no one feels complimented by being forgotten, and yet men think that it is all right to forget their Creator, but His word says otherwise. Psalms, 50:22, "Now consider this ye that forget God, lest I tear you in pieces and there be none to deliver." God calls men to remember him and they forget him at their own peril. "The wicked shall be turned into hell, and all the nations that forget God." We have no right to forget God. He calls us to him in many ways. He will show mercy, but he will not always chide. We owe so much to him let us as a nation remember all his benefits toward us.

We have no right to forget God. We should not forget God as individuals nor as a nation. We have no state religion and should never have, but we should have a quickened spirit toward the things of God and do his holy will in all things. We, as a nation, have cause to remember his mercies. Our whole history is one that gives us cause to remember him. We need to take warning and get right with him and ever remember him. When we celebrate the glorious Fourth let us do so with grateful hearts that remember his mercies. We have not always done this. When the armistice was signed we were called to our knees and many mistook it for a call to their toes and got to tangoing instead of praying, and have never gotten into the right position. We got excited and have not got back to a live consciousness toward God. I wish to call attention to some facts. I quote from the Lord's Day Alliance as follows: Do you know that the Bible and the Sabbath are the pillars in the temple of our republic by which it stands or falls? That if the Christian Sabbath falls the church goes down with it?

That nearly 4,000,000 laborers are at work every Sunday, half or more of them should be released?
That 150,000 caddies are on the golf links every Sunday in season, tempted away from Sunday school by men (many of them church members), who for selfish Sunday pleasure are robbing the boys of moral and religious opportunity and training?
That Sunday automobilizing for pleasure, sports and similar activities are keeping hundreds of thousands of church members away from public worship on Sunday and furnishing an astoundingly bad example for the young people of the day. We see many signs that indicate that we are not remembering as we should, but we have other signs that show an awakening. All of the churches are aroused and most of them are crying out. Most of the churches are aroused to the call for Christian training. Again I see that there has gone a cry for the sanctity of the home and home praying. In our own church, and we are only a part of the kingdom, there is an awakening in the matter of home religion. The strength of this nation is not measured by the money she has, but by the stability of the home. I have not the records of any other church, but in our own Zion we have had pledged to daily family worship more than 25,000 homes. This is an appeal that means a stronger and better land. The goal is one family altar for every twenty members. Some pastors have far exceeded the goal. The Rev. Fred B. Faust, Pecos, Texas, has one family altar for every twelve members, and the Rev. Clyde C. Frazier, Bushnell, Florida, has a still better report—one for every seven members. This is a church wide movement to get people upon their knees as a family. Let us all take the warning of the Psalmist, who called on the nation to remember God. Every man is allowed to worship according to the dictates of his own conscience, but because of this blessing let us not forget God for that means ruin to us. Let every citizen say: As for me and my house we will serve the Lord and then we will have a nation back to God and his worship.

Fingerprints Without Camera.
Through a discovery made by a police sergeant in Washington, D. C., it is possible to take permanent fingerprints from a transparent object—such as a sheet of glass—without the use of a camera. On the fingerprint on the glass he sprinkles a covering of aluminum powder, and a contact print can then be made direct on to a piece of sensitized film or photographic paper.

World's Seed Garden.
According to a writer in the Mentor magazine, more seed is being grown in this country than in Europe. A single company in California sows more than three thousand acres to seed plants. One sweet pea bed is 300 acres broad. There is a seed market at Toledo, O., where brokers speculate in clover seed "futures" as wheat is gambled on in the Chicago pit.

The Story of Our States

By JONATHAN BRACE
XVII.—OHIO

THE North-west Territory, of which Ohio is a part, was a bone of contention between Spain, France and England. Spain's claim was based on the voyage of De Soto up the Mississippi river. France, through the explorations of La Salle from the north and the early entry of French priests from Canada, considered this territory theirs. As for England, she rested her claims on the discovery of North America by the Cabots, and in the charter granted to Virginia included all the country lying to the West.

The French were the first to get a foothold in Ohio, but the English pioneers, who shortly began to drift westward, firmly established their settlements in the fertile Ohio valley. After a long period of warfare, in which the Indians played a leading part, the Northwest Territory was finally ceded to the United States by the Treaty of Independence in 1783. And Virginia and other states, which had laid claim to portions of this region turned over their rights to the federal government.

The government of the Northwest Territory was formally created by the ordinance of 1787. People from the East migrated into this territory in such numbers that by 1803 Ohio was taken into the Union as the seventeenth state. The fourth largest state in size of population, Ohio has 24 electoral votes for President, while in area, with its 41,040 square miles, it ranks only thirty-fifth, which shows how densely it is populated. It is noted as the state of Presidents. President Harding makes the seventh Ohioan to fill the presidential office.

The name Ohio is derived from the Iroquois word O-hee-yo, meaning "beautiful river." It was first applied by the Indians of the Five Nations to what we now call the Allegheny river, one of the chief tributaries of the Ohio. Gradually the name came to include the whole river, sometimes even being applied to the Mississippi. Later it was confined to the river between Pittsburg and Cairo, and appropriately the first state formed on its northern bank was named after it. Ohio is often called the Buckeye State from its large number of horse-chestnut trees.
