## Methodist Church Notes

Rev. C. C. Wier, Pastor, Residence 236 Olivier, Phone Alg. 138.

Last Sunday the pastor and the Rev. J. A. Alford, pastor of Second Church, exchanged pulpits at the morning hour.

Brother Alford's visit to our pulpit is always a delight to our people. He has been appointed to his present work six years in succession. At night the pastor was in the pulpit himself and spoke and the second article of religion, "The Son of God who was made Man." The statement of this truth is as follows: "The Son, who is the Word of the Father, the very and eternal God, of one substance with the Father, took man's nature in the womb of the blessed Virgin; so that a whole and perfect nature—that is to say, the Godhead and manhood—were joined together in one person never to be divided, where of is one the Christ, very God and very man, who truly suffered, was crucified, dead and buried, to reconcile his Father to us, and to be a sacrifice, not only for original guilt, but also for the actual sins of men."

The choir had good music at both services, though some of our singers were absent. We hope every one has gotten home and will be on hand next Sunday.

Biography Of  
Robert E. O'Connor

LIFE-LONG RESIDENT OF WEST SIDE CANDIDATE FOR JUDGE.

Robert E. O'Connor was born in Algiers, October 15th, 1875, and has resided here all of his life.

He attended the public schools, Boys' High School, Soules' Commercial College.

His father died when he was quite young and notwithstanding his having to assist in the support of mother and sisters, he completed his education by hard study and graduated from Tulane University as a lawyer in 1899.

He was in business life and for several years connected with the customs service. He began to practice law actively in 1902, and by industry and careful attention to his clients' interests built up a large practice. He has been for some years attorney and is now notary for one of the large homestead associations of this city.

In 1908 and 1910, he served in the State Senate. As there were many prominent issues before the Legislature at that time, his work was overlooked by many of the people. During his entire public career, he was consistently the friend of the working man, assisted materially in the passage of bills for shorter hours and smaller trains for railroad men; ardently advocated the laws against child labor and was prominent in securing increased pay and vacations for the city firemen; he worked hard for the cause of education and to obtain money for schools and teachers. He refers proudly to his efforts in these matters and invites thorough examination of his record.

In his practice, Mr. O'Connor has always endeavored to avoid strife and tedious litigation, believing in the adjustment of differences by amicable arrangement and compromise on the principle of the "Golden Rule," rather than loss of time and vexatious delay and irritation in courts.

During the war he served on the committee to handle the questionnaires and whenever the parties could not appear because of age or physical disability he was always willing to go any distance in sun or rain to save people trouble. By reason of age, attainments, experience and fitness we believe him entitled to the position which he seeks, Judge of the Second City Court. Mr. O'Connor was married in 1916 to Miss Lillian Moss and has two children, both boys, a little less than 4 and 2 years.

He has been for many years a member of the Louisiana Bar Association. Robert O'Connor will make us a very just and creditable judge.

The feature of the game was the hitting of B. Perez who secured four singles and a three-base hit in as many times up, and also J. Caldwell, the Hornet pitcher, who pitched a fine game in the pinches, also securing four hits and a sacrifice fly out of five times up and hitting one of the longest home runs that ever was witnessed by any of the players. All of the Hornets players secured more than two hits each, and fielded a star game.

The Hornets will play the strong Alanzo Stars at Cleave Park Sunday morning, July 24th, at 9:30 a. m., and the Trupiano Stars in the afternoon.

## GUN TO SHOOT FIVE TON SHELLS 300 MILES

The German's "Big Bertha" gun which dropped shells on Paris at a distance of seventy miles, fades into insignificance before the new American gun which will shoot gas bombs or shells weighing five tons a distance of 300 miles. Such a gun has not been built as yet, but in a miniature demonstration before noted American inventors in the tower of the great Woolworth Building at New York the other day this little gun shot steel bullets through a three-quarter inch steel plate, as shown in the picture. Experts declare the big gun practical. It is smokeless and almost noiseless—the only sound coming with the impact of the bullet against the steel is to be followed in riveting machines for ship construction.
