A STURDY SEVEN-ROOMER WHICH WILL PLEASE

The home, shown above, really should be classed as an eight-room abode. That big screened porch, opening off the living room to the left, with a few French windows could easily be made into a pleasing sun room or conservatory. With it all—this home is built to stand the stiff winters of the north, or so ventilated as to afford the coolness desired in the south. It is English in line, the floor plans showing an ideal arrangement of living room, dining room and kitchen. On the second floor are three large bed rooms, two balconies and a cozy little sewing room for mother. The bath and toilet are easily accessible to all rooms. This home should set deep on the lot. The entrance at the side affords a pretty sweep of lawn, incut by sidewalk.

Many different firms tell on this page in what way they can contribute to the building and furnishing of a house of this kind. You will find each and every one of them thoroughly reliable and leaders in the lines represented.

A HOME OWNER—A HAPPY AND CONTENTED CITIZEN.

Sanitary Washstands

We're just as willing to figure with you on the installation of a washstand as we would be if you wanted a complete new set of plumbing fixtures throughout your house. We know that if we ever do a small job for you that you surely will call on us when you have big work to be done. All fixtures carried by us are of the newest patterns and our work is all done in the latest approved manner.

STRIKING EFFECTS IN INTERIOR DECORATIONS

The use of new ideas in wall-paper designs results in some charming and striking effects. Above paneling in the dining-room, for example, a large figured paper will transform the room and give it character.

Molding and dados combine their artistry in adding distinction to other rooms.

We'll gladly furnish estimates without obligating you in any way.

Our new stocks include the accepted colorings and designs and will interest everyone who gives a thought to color-effect and color harmony. Very beautiful indeed are many of the new patterns.

And, of course, you want the best in that new home of yours.

GUTTERS!

Genuine American Ingot Galvanized Iron Gutters.

The only kind that will be put up by us—The only kind worth while putting up.

—will finish the walls attractively.

Carey Board is ideal for attic and third floor rooms. It is made of pure fibre in three layers and the layers are cemented with water-proof asphalt.

Asphalt is a wonderful insulating material—that's one reason why Carey Board applied to your unfinished attic will make the room itself and the whole house cooler in summer and warmer in winter.

Carey Board comes regularly in a cheerful buff color, also in five colors to match popular wood finishes. It can be painted or decorated if desired.

You can apply it yourself or with the aid of a single carpenter. No mess, no delays, no regrets. It is very inexpensive, it can never crack, it can be easily refinished at any time. We have it in stock in as many or as few sheets as you desire.

PLUMBING!

The health of your Family as well as your neighbor depends upon good Plumbing.

We will do first-class work--It is the only kind of work we do.
