

SCHOOL BELLS RINGING

McDONOUGH SCHOOL NO. 4.

Follow-Up Cards have been received in connection with the "Milk For Health" campaign.

The graduation exercises of Eighth A class of McDonogh No. 4, will be held at the Folly Theatre on Thursday, June 8, at 9:30 a. m.

One of the most enjoyable events of the past week was the miscellaneous shower given in honor of Miss Marion Morse, whose marriage to Mr. James W. Fannally will take place in July.

Miss L. Averill played a wedding march as Miss Morse, who was completely surprised, entered.

The spacious parlors were a profusion of hydrangea, daisies and fern. Delightful refreshments were served in the dining room around a flower bedecked table.

Fortune ribbons from the wedding cake were drawn. The ring was drawn by Miss Corinne Hughes.

As favors the guests received tiny wedding bell baskets filled with candy. Those who enjoyed surprising the bride-to-be were: Misses Annie Poncet, Louise Averill, S. E. Murphy, Corinne Hughes, Alfreda Voegtlin, Edna Winkler, Elda Lange, Nellie O'Donnell, Helen Barrett, Leah Davis, Mercedes Kenner, Hazel Marcy, Winona Lange, Mildred Morse, Salome and Aeola Acker, Mesdames L. Acker, M. Hopper, M. E. Fortier, A. Short, W. Short, William R. Lilly, B. F. Bradford, A. Delcazel, M. H. Morse and Mr. P. Bordenave.

ADOLPH MEYER SCHOOL.

As it is nearing the close of the session and record is taken of the year's work; the principal and teachers of this school may be proud of what has been accomplished.

The flower garden was begun this session; and its improvement has been remarkable; while the proceeds from the vegetable garden was sufficient to increase the school fund considerably.

Miss Nan Griffith, Supervisor of Physical Education, was at the School testing the boys in "Standing Broad Jump," and the girls in "Goal Throwing."

On Wednesday, the children of the Eighth Grade visited the respective High Schools. These trips have always been a source of pleasure to the children of this district; while it also encourages and inspires them. Often after one of these visits, children, who had not contemplated attending a high school, decide to do so.

If for any reason, children are unable to attend a high school, there are trade schools to look after their education—"The Nicholls Trade School" for girls, and "The Delgado Trade School" for boys.

So parents, whose children complete the Eighth Grade this year, should see that they attend some school as a grammar grade education is not sufficient in this era.

The following children have been perfect in the weekly tests of Spelling and rapid Arithmetic:

Spelling

Eighth Grade A—Marion Edgecombe, Elise Trudeau, Elmo Scott, Lawrence Stinger, Charles Corona.

Eighth Grade B—Elizabeth Corlis, Leola Umbach.

Seventh Grade A—Jennie Scott, Joseph Breitling, Thelma

Sixth Grade A—Arthemine Umbach, Mary Nepveux, Eleanor Steel, George Tierney.

Sixth Grade A—George Demarest, Irma Vallette, Angeline Chagnard.

Sixth Grade B—William Hynes, Marie Cantin.

Fifth Grade A—Lawrence Taget, Henrietta Baer, Henry Breitling, Leroy Cooper, Thelma Arsago, Lydia Campbell, Dorothy Bayliss, Nora Hingle, Arthur Danos, Stenman Fonseca.

Fifth Grade B—Iris Coleman.

Fourth Grade A—Althea Moffet, Loyd Collette, Mamie Trahan, Jackson Molaison.

Fourth Grade B—William May, Alan Edgecombe, Luana Dumessil, Alice Hynes, Virginia Geauthreaux, Verner Lejeune, Marguerite Robicheaux, Muriel Gallingshouse, Marie Hebert, Harold Wall.

Third Grade A—Ellen Sutherland, Mathilda Richards, Victor Priez.

Third Grade B—Maggie Malbrugh, Wilbert Edgecombe, William Whelan, Melba Campbell.

Second Grade—Mildred Hughes, Ada Fonseca, Myrtis Aschee, Esther Breaux, Bertha Collins, Florence Smith, Judith Plaisance, Mildred Baudean, Antoinette Esnard, Pauline Gebes, Opal Coleman, Helen Monaco, Louise Serpas, Adam Lauman.

HAYS MAY PROBE MOVIE TRIANGLE

Here is the first picture of Rodolph Valentino and his wife Natacha Rombova, in private life. Winifred Hudnut, daughter of the perfume manufacturer, while at his right may be seen Jean Acker, from whom it is said the movie actor is not divorced.

Arithmetic

Eighth Grade A—Marion Edgecombe, Elise Trudeau, Rhea Trudeau, Fred Collette, Anthony Pittare, Elmo Scott, Lorena Landry, Mazie Breitling, Lorentz Bellingier, Lawrence Stinger, Charles Corona.

Seventh Grade A—Jennie Scott, Joseph Breitling, Nicholas Corona, Earl Cooper.

Seventh Grade B—Mary Nepveux, George Tierney, Myrl Brechtel, Arthemine Umbach.

Sixth Grade A—Ben Cantin, Minnie Boudreaux, Irma Vallette, Angeline Chagnard.

Sixth Grade B—William Hynes, Marie Cantin.

Fifth Grade A—Joseph Bourg, Henrietta Baer, Henry Breitling, Nora Hingle, Leroy Cooper, Emile Trudeau.

Fifth Grade B—Floyd Guillot, Raymond Wattigney, Lucien Esnard, Harold Ernst, Hillery Malillos, Norestine Bieber, John Tierney, Herman Singleton.

Fourth Grade A—Roland Lassere, Lord Collette.

Fourth Grade B—Frank Hotard, Thelma Alonzo, Marguerite Robicheaux, Allan Edgecombe, Bernard LaCoste, Sidney Malborough, Muriel Gallingshouse, Marie Hebert, Luana Dumessil, Alvin Alonzo.

Third Grade A—Florence Eddy, Aldea Rogers, Rhea Simon, Jeanne Lassere, Leonide Serpas, Mathilda Richards, Leighton Bergeron, Isabel Hebert, Niel Maronge, Ellen Sutherland.

Third Grade B—Edward Tierney, Margie Malbrugh, Anatole Boudreaux.

Second Grade—Mildred Hughes, Ada Fonseca, Myrtis Aschee, Esther Breaux, Mildred Baudean, Florence Smith, Judith Plaisance, Antoinette Esnard, Pauline Gebes, Opal Coleman, Bertha M. Collins, Helen Monaco, Louise Serpas, Adam Lauman.

TROOP 32, BOY SCOUTS OF AMERICA

Every American Boy Should be a Boy Scout

On every hand we hear good things about the Boy Scouts. People are constantly expressing their appreciation of the principles taught by the Boy Scout movement, and of the character and services of the Boy Scouts themselves.

Every Scout should remember that people are constantly watching the members of our organization, and by the conduct and service of the Scouts themselves will the public be caused to retain its high opinion of Scouting.

Every Scout should remember that people are constantly watching the members of our organization, and by the conduct and service of the Scouts themselves will the public be caused to retain its high opinion of Scouting.

Every Scout has his part in this. Let every one see to it that his part is well done.

M. SCHWARZENBACH, Scribe.

TROOP 32, "THE PRIDE OF ALGIERS"

We feel proud of our Troop No. 32. Ever on the alert to do the "good turn" daily, our boys on Saturday last were called upon to do police duty at McDonogh No. 5 school, where a lawn party and dance was being held.

Parents, is your boy a member of Troop No. 32, the real live Boy Scout troop that is educating so many of our boys in character building, citizenship and training?

The main object of the Boy Scout organization is character building. Our regular weekly meeting will be held tonight at McDonogh No. 4 School.

Our dance given Wednesday night at Pythian Hall was a grand success, and the boys as well as those in charge of this fine group wish to express their thanks to all those who helped in any way.

M. SCHWARZENBACH, Scribe.

RAIN MARS GAME

Rain stopped the sport at Gretna Amusement Park Sunday afternoon, when the Gretna Athletics and the Algiers Tigers were in the midst of a hot contest. The Athletics were leading, 1 to 0, and prospects were that an interesting battle would be staged.

NOT REALLY WOMAN'S FAULT

Time-Honored Joke That She is Always Late for an Appointment is Explained.

"The Woman's Side of the Story" this should be called. From time in the beginning the haughty male has inveighed against the once so much weaker half, and above all for her habit of being late.

"Man's natural habitat," says Genevieve, "is the street corner, the curbstone club. Woman's is the home. Man stares. Woman is stared at. Man blunders. Woman blushes. A man can stand on the curb for an hour or more without embarrassment. But a woman is conspicuous, no matter where she is and a veritable cynosure when alone. In fact, I don't think it's too much to say that nothing is noticed so quickly as an attractive and unescorted woman. That is why, when she makes an engagement to meet you at a stated place, she is sure to be at least fifteen minutes late. It is all due to her dread of being compelled to wait—and be stared at. Oh, of course, we love to be admired. But that's different. And safer."

FEW WALKERS IN AUSTRALIA

In That Respect Country is Much Like Our Own West of Some Years Ago.

There was once a gay French humorist, Max O'Rell, who arrived in Australia on a hot day and straightway declared that the chief occupation of the people was holding up lamp posts. The abhorrence which pursued that Parisian would pale beside the indignation which would overwhelm the man who dared to declare that the Australian is conservative, and this in spite of the persistence of the galvanized iron roofs of early Queensland, the determination with which the black bowler hat still clings to progressive heads in Pitt or George street, Sydney, and the universal rule from Cooktown to Kalgoorlie of the good old roast beef.

All of which is intended to prepare us for the story retold in the Sydney Morning Herald, the widest read and most conservative journal in all Australasia, of the young Englishman in Rolf Bolderwood's novel who was invited to visit a New South Wales station seventy years ago, and innocently resolved to walk part of the way and see the country. After many unhappy misunderstandings reflecting on his right to be at large, the visitor borrows a horse and becomes respectable. That story would be in keeping today, with the exception that the motorcar and the airplane would have partly replaced the horse.

Sweet Odors. Sweet and aromatic odors have always been in request among mankind. Eastern nations especially have ever been noted for their intense love of perfumes. Some years ago Professor Tyndall showed that sweet and aromatic odors were cooling to rooms—in other words, their presence bars out heat-rays of the sun, allowing those of light chiefly to enter. An ether-spray of perfume, kept up for a few minutes in a summer room too hotly heated by the sun, has almost a magical effect in cooling its atmosphere, for the reason assigned by Doctor Tyndall. It has just been discovered that odors and perfumes are also an antiseptic—that is to say, protective against epidemic diseases in a very high degree.

Love laughs at locksmiths? Nonsense! Aren't nearly all the locksmiths married?

When men are sarcastic about women the women merely look at each other and smile.

World's Most Deadly Gun Stands Test

This machine gun weighs only 9 1/2 pounds. It will shoot single balls or shot, or will fire in bursts at the rate of 1,000 shots a minute. It will demolish an automobile in a few seconds. This new weapon of death is the invention of Gen. John T. Thompson, Director of Armaments during the war.

Fly Has Natural Trap.

A peculiar traplike appendage, called a mask, enables the young dragon fly to capture the mosquito wriggler on which it feeds. The mask consists of a jointed, articulated arm that is attached to the under side of the head. At the extremity of this arm is the mask proper, which consists of two folding parts like hands, each of which is provided with a row of small sharp teeth on its outer edge.

When a tiny insect passes within reach of the young dragon fly it suddenly thrusts out the mask, grasps the insect within it and backs it into the mouth. When this organ is not in use it folds back over the head, covering it like a mask.

The young dragon fly lives in ponds and streams; and as it is very slow-moving, this trap is its salvation.

Sweet Odors.

Sweet and aromatic odors have always been in request among mankind. Eastern nations especially have ever been noted for their intense love of perfumes. Some years ago Professor Tyndall showed that sweet and aromatic odors were cooling to rooms—in other words, their presence bars out heat-rays of the sun, allowing those of light chiefly to enter. An ether-spray of perfume, kept up for a few minutes in a summer room too hotly heated by the sun, has almost a magical effect in cooling its atmosphere, for the reason assigned by Doctor Tyndall. It has just been discovered that odors and perfumes are also an antiseptic—that is to say, protective against epidemic diseases in a very high degree.

TENTATIVE FRANCHISE BEING DRAWN.

(Continued from Page 1)

and substantiated by the petition you now have on file.

Trusting that your honored body will grant our request.

Respectfully, (Signed) F. W. BENNECKEL, SAM LEVY.

The Lure of Office.

"Senator Shortsworth says the greatest hardship of public life is the fact that it keeps him away from his home town and his old friends."

"Maybe so, but I notice when election time draws near the senator acts like a man who would be glad to make the separation permanent."—Birmingham Age-Herald.

BASEBALL. Rain halted the Zoro-Fisher game last Sunday in the ninth inning when Jupiter Pizarro was again next Sunday. The Lamana Jacks played the Pitar nine Sunday. Pitchers and Manager Lamana were Arthur King or Stanley Lamm. His pitching duties, with R. E. Breaux catching. The lineup will be: E. King, 1b; A. King, p; J. A. King, 2b; R. E. Breaux, 3b; A. King, 4b; J. A. King, 5b; H. Huff, lf; R. King, cf; J. A. King, rf; A. King, c. The Jacks would arrange a game with the Sadler Stars, and Sanchez and Phone Arthur King, Algiers.
