

Bogalusa's Million Dollar Paper Mill

## BOGALUSA HAS REPUTATION OF BEING A CITY OF ORDER SUPREME

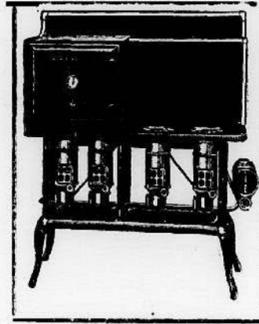

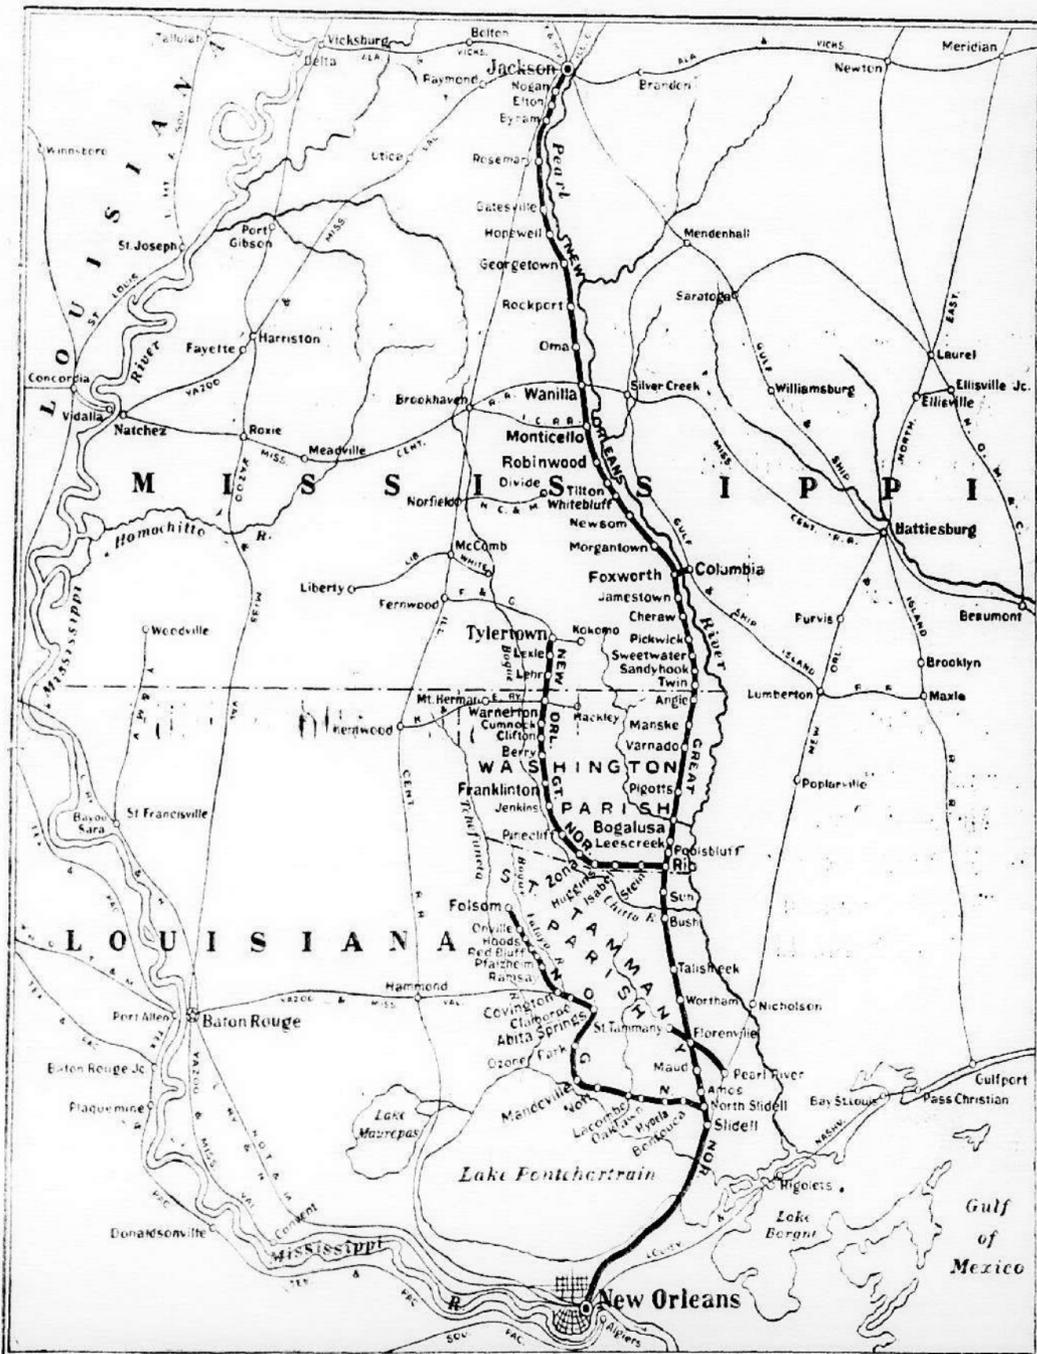

Officials And Citizens Co-operate And Drive Out All Undesirable Characters

Just eight short years ago, a cosmopolitan mass of humanity from every section of the Union, and some of the Foreign countries, constituted the great working camp known as Bogalusa. Wages, at that time, were extremely high, attracting to Bogalusa men of all classes. Men who had completely lost their right to be called real men, together with the highest type of man, all mingled in the mass of workmen building the city. Labor agents advertised in glowing terms Bogalusa and its marvelous possibilities, and, as a result, many were the curious, together with the honest citizens, that wended their way to our borders. Unfortunately the gambler, the shark, and other undesirables crept into our midst and became a part of our city. The city being practically without police protection in its earliest days, gave the people an opportunity to do almost as they pleased and during those early days of construction, numerous were the reports, both unkind and untrue, that found their way over the country about our city. Strange, too, the unkind reports were usually predicated upon the acts of some of her undesirable

citizens and the city as a whole, was made to bear the brunt of the acts committed by the undesirable element attracted here, to such an extent that the word Bogalusa became the synonym of a joke and misfortune. Slowly but surely, however, Police protection was organized, law was recognized and churches were built and the lawless, who were so wont to flash their ill gotten gains into the eyes of our people began to look for a happier hunting ground where the law was less rigorously enforced and, decency and honor less known. We recall, with a great deal of pleasure, a young life, present at that time in our midst. With a splendid physique, fair to look upon, genteel manners, and well liked by everyone. Though young, he would unconsciously stand for the right, and when found, in company, was always with good company. His young life, apparently just a happy, care free young man was having its influence upon his associates. Suddenly, and, without any warning whatever, he passed away, and, some may say forgotten. A calm observer, however, noticed several well defined moves for a

bigger, cleaner, and better Bogalusa, and, the big hearted man at the helm did not forget the clean young life. We have noted with great pleasure, step after step of good healthy growth in the moral and civic atmosphere of the city. Bogalusa, which used to be the synonym of laughable things, has become the synonym of energy, determination, clean municipal government and square dealing. Just one short year ago the Municipal authorities relieved the Sheriff of the responsibility of policing Bogalusa. Our statute books are replete with clean healthy ordinances. The excellent work of our Commission Council, Chief of Police and other officials, have cleaned our city of most all undesirable citizens. The gambler, who used to flourish, the shark, who used to grow fat, are now finding our city too hot for them. Disreputable houses cannot locate our city. Vagrants cannot loiter here. Our people do honest labor for their living and the business man is welcomed in our midst. We have six churches, six Sunday Schools, with four ministers stationed here. Taxation is low, and investment is good with us. Capital and labor are always on good terms. Our clean municipal government, honesty and industry coupled with the excellent co-operation between capital and labor gives us a happy, contented, prosperous, and, above all a healthy city. We have a city of about 11,000 people, and, there are only about 100 graves in our cemeteries.

Look at this Map-it shows Bogalusa in the Heart of the great Pine Forests

## New Perfection Oil Cook Stoves

For Comfort and Convenience. Full Heat the Moment After Lighting.

The stove is light and keeps the kitchen comfortable. All the heat being concentrated on the cooking. It is clean— no ashes or coal. It Roasts, Toasts, Broils and Bakes Perfectly. It can also be used for washing and ironing.
