Iron In Log Strips Saw.

Vancouver, Wash.—Imbedded so deeply in a log that the bark had grown over it, a big horseshoe was found in a log at the Beer sawmill, near Manor, recently. The saw was stripped of teeth by the shoe when it struck. It is believed by the sawmill men that the shoe was nailed to a tree by someone more than a century ago and that the tree gradually grew around and covered it with wood and bark.

"SURE THING" BET ON WRESTLERS COST \$700

Crowley, La., Sept. 22.—Jack Fisher, lightweight wrestler, after several wrestling matches with local boys in which he downed every one, arranged for a match with one Doherty, at Jennings. Fisher gave out the tip that the match was a cinch and the Crowley sports could go the limit for a full bag of winnings, which they did. But the tip went wrong, and the Crowley bunch now claim it was "a frame-up," so that Fisher could make a final pile. Crowley sports, it is said, lost about \$700.

NEW SCHOOL OPENED ON COLUMBIA STREET MONDAY

If anyone has any doubts about the growth of the city of Bogalusa they can be removed by an investigation of the schools of the city for it has become necessary to open two additional schools in order to give the young Bogalusians the required amount of room or relieve the congestion that had been in the other schools. On Monday a new school was started in the Sherman building on Columbia street which is in charge of Miss Leta Shaw, of Lake Arthur, La. Miss Shaw is a graduate of the L. S. N. and was highly recommended to Prof. Peters. The attendance at the new school was large and promises to keep the high standard which has been set in all the city schools by Prof. Peters.

How About Ni Beer?

They say that beer produces Bright's disease; brandy ruins your kidneys; burgundy brings on gout and absinthe destroys the brain. Now we all know typhoid and malaria lurk in soft water and tuberculosis is in milk. What in the h—l is a man going to drink.—Natchitoches Times.
