Bogalusa, La., 10-4-16
TO THE CITIZENS OF BOGALUSA:

On behalf of the Commission Council and myself, I want to let you know how much we appreciate the great compliment you have shown us by voting for the aid to public schools and the bond issue almost unanimously.

It is our purpose to handle the expenditure of this money by commissions to take charge of each fund. Within a very short time either one general mass meeting will be held or perhaps meetings in different sections of the city, so that you may select representatives from your section to act on each of the commissions.

It is our purpose to see that the City of Bogalusa gets full value for every dollar that you have voted, and we certainly will try to show you, by the way in which the money is expended and the results we get, that we fully appreciate the great confidence you seem to have in your city Government.

Yours truly,
W. H. SULLIVAN,

ROAD TO ST. TAMMANY LINE IS PLACED IN GOOD CONDITION

Automobiles Can Now Go To Covington Without Fear of Being Stuck In Holes. Other Work To Follow Later

At last the automobile owners can go to Covington without fear of getting "stuck" in the mud a few miles below Bogalusa as a result of the fund raised by the Enterprise through the suggestion of Chas. Webster the well known real estate dealer. Only those who have been forced to remain in the holes for several hours can appreciate what it means to those who desire to make the trip to Covington. While the work which has been done is only temporary it will result in the road being passable until the entire road is placed in good condition.

The work was ordered in view of the fact that the Pathfinders of the Jackson Highway will pass through Bogalusa, enroute to New Orleans tomorrow or Saturday and if they were forced to cross this place in its past condition, Bogalusa would stand no chance of being on the great Jackson Highway.

A committee composed of Chas. Webster, Judge Ott, H. E. Rester and C. R. Howard were appointed to have work done and Monday morning a number of workmen and several teams and plenty of lumber were took to the worst parts of the roads, where culverts are being placed across the streams and part of the road graveled. It is expected that the work will be completed sometime today. Teams for part of the work were donated by P. Pierce Van Williams, B. J. Williams, Riley King, Jno. Williams, a Mr Mason and the G. S. L. Co.
