and a free copy of large new premium catalogue.

**Hupmobile**

"In Its Class, the Best Car in the World."

After experimenting for two years with electric starters, the Hup Motor Car Co., of Detroit, Mich., announces that on and after Sept. 1st their "Hup 32" will be electrically started and lighted, and will be optional with the buyer. In other words, the Hup 32 can be bought with or without the starter and electric lights.

Carrying out their policy of a simplicity and accessibility, the starting device adopted by the Hupmobile factory, will be the most simple, yet efficient, ever put on any car, and will carry the same guarantee as the Hups and will help make the Hup 32 in its class, the best car in the world.

On crippled rims, with but a bare minute to spare, the second Hupmobile 32 entered in the 1913 Glidden Tour, dashed under the massive redwood arch that framed the picturesque finish of the tour. Twelve minutes before, the other Hupmobile entry, was brought in the final control by a safe margin, thus making for the Hups, perfect scores.

The 1913 Glidden Tour' though being but 1,300 miles, was one that put the cars to the most severe test, when for the first three days the going was awful from rain and mud.

Leaving Fargo, N. D. on the third day, they went through ninety miles of the worst gumbo ever found, and the crippled pace-maker caused every car to slow down to 10 miles per hour. Then it was that the Hupmobile made a showing that stood as a record for the trip. Every radiator, except those of the Hups, boiled from two to four times, but the Hup radiators never took on water anywhere during the trip out of control.

Hupmobile enthusiasm was manifested all along the route of the Glidden Tour extending from Minneapolis to Glacier National Park, but it remained for Williston, North Dakota to show exclusive organization of Hupmobile owners. Twenty five of them greeted the Hup teams at the station with a band of sixteen pieces, and afterwards turned over their Hupmobile for the entertainment of the entire Glidden party.

Another victory for the Hupmobile was the winning of the First Grand Prix held in Russia on June 8th, 1913.

A Hupmobile 20 entered in this tour was awarded first prize. The race was held on the outskirts of St. Petersburg, the distance being 200 miles, and in many places there was considerable rough going. No assistance being allowed a contestant whatsoever.

The Hupmobile was the only American car that participated in the race and was only a stock car which had been taken direct from the packing box in which it had been shipped from the factory.

The day following the Grand Prix was devoted to speed races. Two Hup 32 models were entered for the one mile time record. In the trial heats, more than two dozen cars were eliminated and for the final run 24 cars were entered, of which the only American cars, were Hupmobiles. They swept everything before them and took first and second prizes, time 45 and 48 seconds.

## Hold Your Corn!

Don't sell the corn too cheap.  
Corn is in great demand.  
Hold it for better prices.  
Take advantage of an opportunity.

Vermilion has a very large crop this year, and there are numerous people trying to buy it for \$1 a barrel, and less if they can. There are also many inquiries being received regarding Vermilion parish corn.

It is estimated that there will be a surplus of about 140,000 barrels in this parish. If this corn was sold for \$1 a barrel it would bring \$140,000 in the parish.

There is a good chance for us to hold it and get \$1.25 and upwards per barrel for it. Corn crops are short elsewhere and makes our corn in great demand.

Sell it for \$1.25 a barrel and thus make it bring an extra \$35,000 to this parish. Hold it for that price and you will get it. At \$1.25 a barrel it would bring \$175,000 instead of \$140,000 at a \$1 a barrel.

You Mr. Merchant should use your efforts, insist and see that we get a good price for our corn. Show your manhood, show your interest in your home parish. We can get a good price for our corn, and we should not for one minute sacrifice any of it

There are several corn shelling outfits that are trying to get our corn too cheap. We are robbing ourselves by sacrificing it. Hold to it and demand a good price. We look to the merchants to bring the extra money to our parish, and \$35,000 extra is a neat little sum.

### Miss Kate Gordon Makes Addresses

Miss Kate Gordon, of New Orleans, delivered an address at the Court House Wednesday afternoon at 4 o'clock, on the subject of Woman's Suffrage, and at 8 o'clock in the evening on the White Plague scourge, which resulted in the organization of Woman's Suffrage league Thursday morning with about twenty members, composing some of the best citizenship of our city. An Anti-Tuberculosis league was also organized.

Miss Gordon is a very logical reasoner, and delivered convincing addresses upon the subjects handled.

The anti-tuberculosis league was organized with Dr. C. A. Schilling as president and Miss E. Honold as secretary. Those joining were: J. T. Brooks, Dr. C. J. Edwards, A. J. Godard, Mrs. H. Broussard, Willie Durke, Jake Beer, Ernest Montagne, C. J. Conner, J. M. Moss, F. D. Lege, H. L. Gueydan, Mr. and Mrs. M. J. Meynier, Mr. and Mrs. Minos T. Gordy, L. Sokoloski S. F. White, Miss Virginia Bassett, Mrs. C. S. Steen, Miss Emma Eldredge, Louis Valle and Albert Lacasse.

The league adjourned, subject to the call of the president.

Prime white coal oil, 10c a gallon; 5 gallons for 45c.  
At Immergluck's.

## Wanted--- Farming Lands

We are receiving numerous inquiries for Vermilion Farming Lands.

If your property is For Sale, Rent or Exchange, list it with

**The Gulf Coast Realty Co.**  
F. W. Summers, Mgr.  
Telephone No. 279.

### Good Meeting of Board of Trade

The Abbeville Board of Trade met in regular session at the Library Hall Wednesday afternoon, and the following members were present: J. Immergluck, vice president; J. E. Nettles, secretary; O. Bourque, D. L. McPherson, Albert Stauffer, D. Silverman, W. S. Durke, L. Valle, O. A. Broussard. The new members taken in were J. T. Brooks, J. W. O'Bryan, F. W. Summers and Adolph Brasseur. The visitors present were M. T. Gordy and Ed Erath.

The report of the delegate to the Southwest Louisiana Development Bureau, Mr. J. E. Nettles, was read and accepted.

The letter from the Southern Pacific Co., pertaining to the placing of a corn sheller at Abbeville, was read.

A committee was appointed, and instructed to call on the district attorney and request him to notify the different road overseers, that have not attended to their duty, and to have said road overseers to attend at once to fixing the roads near Abbeville, and unless the said roads are fixed at once, the board will see that they are prosecuted.

The bad roads mentioned are between Abbeville and Coulee Kinney bridge, on the main road from Abbeville to Kaplan, also the main road leading down the bayou, Coulee Giag, and another bad place near Ave Guidry's place, another near the Roger Hartman place parrelling the Abbeville canal.

The secretary was requested to notify the Southern Pacific R. R. Co. to place lights in their passenger depot at Abbeville, also lights just outside the station, and to refer them to Act 35, 1912, pertaining to the lighting of railroad crossing.

It was decided to have the regular meetings in the Library building every first Wednesday of the month at 8 p. m.

The bill of J. E. Nettles, special delegate to Lafayette, of \$3.50 was allowed and ordered paid.

The membership dues of D. L. McPherson and J. E. Nettles, who joined the Southwestern Louisiana Development Bureau, to represent the board, was allowed and ordered paid, the amount being \$10 each.

There being no further business the board then adjourned subject to call.

The next regular meeting of the board will be Wednesday night at 8 o'clock at the library hall. All public spirited persons are most cordially invited to attend, and the board would appreciate any suggestions that would be offered.

The members of the board have decided to be a live wire, and it will be but a short time when their work will be very noticeable.

Enjoy a good nights' sleep by taking a vapor bath at the Abbeville Sanitarium.

### Fire Destroys a Boat.

Tuesday morning, just about 4 o'clock, the fire alarm was sounded; being for a fire in the boat of Mr. Otis Hoffpauir, which was just about to leave with a party for a days' outing to the bay. The boat was practically a complete loss. Mr. Hoffpauir stated that it had cost him about \$2,000, and had \$1,200 insurance on it. It seems as though the fire was started by a lamp, and before any one had time to do anything the boat was shoved into the bayou, so as to get it away from the nearby buildings.

The lunch baskets and bathing suits were lost, except one or two, and practically everything on the boat.

Chester Labit was hit on the eye, accidentally, as he approached the place where a gentleman was taking a rifle from the boat, the handle striking him.

Spend the hot afternoon at the Baths at the Abbeville Sanitarium.

### Death to White Fly.

St. Petersburg (Fla.) Gazette: George Mears the orange grower of St. Petersburg, has been experimenting along all lines to rid the peninsula of the white fly. Today he is ready to back it against anything that has been offered as yet and scores of his friends will attest that the Gold Dust has everything else faded to a frazzle.

The solution is one pound of Gold Dust to ten gallons of water. It has killed the white fly, the red spider, scale, in fact every parasite, and even the orange dog succumbs to the solution.

Besides all this, the solution is not poisonous--on the contrary it is known as a sanitary household commodity.

This is not an advertisement for Gold Dust. The publication of this story will be a surprise to the people who make the washing-powder. It is given to the orange growers as a remedy to rid them of the greatest curse they ever met up with--the white fly. Not alone is Florida in its throes--in California they are cutting down whole orchards to rid the state of the pest.

The Potter grove was sprayed a couple of weeks ago with the solution and Mr. Potter said it killed the white fly by the million.

destroying them as the solution hit them, and when they struck the leaves they fell to the ground. Those blackened by the black fly eggs--shed the larvae, and today every leaf is as green as that of a rubber.

For the canning of figs, peaches and pickles: White Crown Jar Seals, clean and sanitary, fits any Mason jar, at Immergluck's.
