Many of our farmers are talking of getting better seed for the coming year, and while this may be a good idea, we would like to advise them that the very best seed will rapidly fall back to what they now have; and, that if they will choose from what they have, the best seed, they can, in this way, work their grade up to the best, and it is absolutely useless to think that they can have good products without planting chosen seed.

If Vermilion parish had a demonstration agent, it would actually have a valuable addition to its farming facilities. Why? Because he would know how to pick the best seed for the farmers, and show them how to choose the best. Teach them the better methods of cultivation; rotation; fertilizing, and drainage. This would be a great thing for us. We lost before. We can lose again. But why wait. Delaying in this respect is losing money and time.

Where in world is our health board? We never hear of anything they are doing, and we see some gutters that are now in such a state of condition that it would seem that the board would take the matter up. Yes, it has long since past the attention of the city authorities.

If a store is running on "half-speed" as to its advertising, the fact--and its full significance--will be apparent to the buying public.

The standpat delegation is usually the one that accomplishes the most good in town building.

Good roads are the ties that bind the farmer willingly to the farm as with a golden thread.

The man of moderate means has proved to be the better builder of cities.

Improved streets and sidewalks pave the way to future prosperity.

Sticking together is better than sticking the other fellow.

Factory smoke improves the eyesight of investors.

Commercial activity breeds prosperity.

Brief News Items of Local Interest

The parish school board met last Saturday.

Repair work is being done on the old Masonic building, on State street, and adds much to the looks of the building.

Mrs. Ejuse LeBlanc entertained at dinner Sunday Mr. and Mrs. P. J. Greene, Mr. and Mrs. J. F. Broussard, Miss Mattie Sechon and Mr. Sidney Lyons.

Many crossings are being put down now and it will be but a short time until practically all street crossing will be of concrete. It is sincerely hope that the streets will be kept in a correspondingly good condition.

Just think how nice a good demonstration agent would be for this parish. It would eliminate, to a great extent, the old style of having the "one crop a year" farming, and bring about a way to get two or three crops, where we now get one.

The Victor Theatre has been started up again, after a close of several days, and from now on it is expected that it will continue to give its many patrons the good pictures as it has in the past. The reason for closing was on account of the inclement weather and to do some repairing and also some finishing work.

The council made a strenuous effort to meet Monday night but ended up by adjourning until Wednesday. Latter--Haven't met yet.

Considerable damage was done to the different crops lately, and with the several days of real warm weather has caused much of the matured grain to sprout.

Mr. Maxie Sokoloski has received his nice new car, being a Paige, 32, five passenger. The car arrived Monday, and will soon be out among the many new ones recently arrived here.

This week the streets of the city have been in a condition that the owners of cars have been able to do some riding about, and when the city is properly drained we will no doubt have some very choice streets to entertain the new autos in. Of course, they won't try to get very far from the town.
