Pay Your Poll Tax.

It would be well for you to call on the tax collector and buy a 1913 poll tax receipt, which only costs \$1. We are told positively that the poll tax receipts are the same as heretofore, and entitle the holder to participate in all elections.

Much Seed Cane Saved.

Considerable seed cane was put down this year, and it is very probable that the cane crop next year will be double or triple of what it was this year.

Whenever the city council decides it is best to dispose of the water and light plant, because it is a losing proposition, we would think that it is time for a change in the system somewhere.

More Farmers Farming Better.

Hauling diversified products, grown on government drained lands, over good roads to local cash markets where thrifty home labor in our factories may convert the raw into finished products.

When our legislators get "wise" they will, no doubt, make the law for paying property taxes more binding.

Next Tuesday the voters of this parish will be called upon to choose members for the police jury.

Newspaper Advertising Has Helped to Put Home-Making and Home-Management on a Business Basis!

Quietly, imperceptibly a great change has been going on in "the biggest business in the world"—that of home-making. Time was when a housewife's natural inclination to thrift, based upon a fair judgment of values in shopping, constituted her sole equipment as a "buyer" of household necessities. She depended upon her own observation of the stores, and upon hints of neighbors and acquaintances as to "special sales" or special buying opportunities in this or in that store. She rarely read the store "ads." Somehow she felt that they were a necessary part of the newspaper, but that they had no special significance or value to her, personally.
