

RICE FIELDS SHOW GOOD PROSPECTS

GROWERS CLAIM INCREASE OF 15 PER CENT OVER THAT OF LAST YEAR.

GOOD PRICE WAS OBTAINED

Association Is Engaged in Census of Acreage of Rice—Department of Agriculture Is Expected To Help.

New Orleans.—The Rice Growers' Association is engaged in two movements which have an important bearing on the coming crop. One is a census of the acreage devoted to the staple. The calculation will not be completed for a few days but it is safe to estimate an increase of 15 per cent over last year.

The growers' return is considered a problem even by the experts in the business. A good price was obtained last year, but some of the crop is still on hand. The greatest retarding factor was the amazing decrease in consumption. America had worked up to a per capita average of eight pounds, but the average was cut in half last year.

There is fear that the habit will not be fully revived in time and that this condition may affect the price and distribution of the oncoming crop. Rice is one of the few foods which will bear holding, but any plan along that line will require the organization of co-operation between a number of the interests involved.

The usual practice has been for the growers to begin the season by fixing a price for the staple which they believe will prevail during the season. It is said that, this year, a conference with the millers will be invited so as to make stabilization a matter of mutual agreement and arrangement. The millers already are working on an immense national advertising campaign to popularize the cereal and educate the public in its most palatable preparation.

TWO SPITBALL HURLERS STAND OUT QUITE PROMINENTLY THIS SEASON

Two pitchers who use the spitball stand out prominently with their clubs in the American league. They are Jack Quinn of the Yankees, and Stan Coveleskie of the Indians. In the Nationals no spitball pitcher shines particularly as a leading light. Report has it that the spitball pitchers are forming a little organization of their own and will at the meetings of the major leagues next year pray the magnates to lift the ban that is to go on beginning with the 1921 season.

ELIMINATE CHEATING PITCHERS FROM GAME

Brainy Moundsman With Good Arm Can Get By.

Jesse Tannehill, Former Red Sox Southpaw Hurler, Says 'Freak' Pitching Should Be Barred Forever From Baseball.

"Eliminate cheating pitchers from baseball and the game will not be any different than when I was with the Red Sox," declared Jess Tannehill, who was here with the Phillies as coach.

Ten pounds lighter than when he was with the Red Sox back in 1903 and 1904, Tannehill was in Boston for the first time in 11 years. He is now forty-five years old, feels as good as when he helped Jimmy Collins win the pennant in 1904.

Although now but a coach, this former star southpaw, who also could hit the ball some in the old days, has many views about the game of today which are interesting. Having been a great pitcher, he knows many angles, and there is no doubt but that he is going to help Gavy Cravath's pitching department.

"I think freak deliveries should have been barred from baseball before this season. They have handicapped the game considerably because pitchers who go into the box with resin in one pocket and talcum powder in the other, along with vaseline or paraffin on their pants are trying to get by with such methods.

"Without such methods to help them, the pitchers in the future will have to be better, as we were in the old days. Ability to pitch will have to be shown all the time and I am confident the game will be better.

"There is no doubt in my mind but that the freak pitchers of today can get along without their fixings.

"If they have a good arm and are smart they can get by. So far I have not been able to work with a freak delivery pitcher, because the Phillies do not boast of one. If there was one on the staff I would help him to develop into a real pitcher without the tricky stuff."

NATIONAL LEAGUE HAS MOST STAR TWIRLERS

Whatever may be the merit of the argument for or against the National league, it is reasonably apparent it has five or six clubs with four or more first-class proven pitchers, and that the American clubs are not so fortunately equipped.

In the National league, New York, Chicago, Brooklyn, Cincinnati, and possibly Pittsburgh, have each four or five hurlers able to pitch any club not too deficient in other respects, into a prominent position.

The American league can only show one or two teams whose pitching staffs are unimpeachable. While several clubs have two or three stars only one or two have four men of proven reliability to use in rotation.

a first motion, and the runners get a big lead on him, but he is being taught the movement. In Dubuque and Middletown Toledo has by far the two smartest pitchers in the association. They have control and know what to do with the ball."

You may have observed again how the war "ruined the effectiveness of Grover Cleveland Alexander." Isn't it a cussed shame?

The way Babe Ruth is pasting out homers these days is causing a large-sized smile to adorn the faces of the owners of the Yankees.

GERMANY AGREES TO DISARM ITS TROOPS

Threat of Occupation of Territory by Allied Forces Proves Effective.

Spa, Belgium.—Germany, in conformity with the unanimous decision of her cabinet, Friday signed the protocol for her speedy disarmament, insisted upon by the allies. Chancellor Fehrenbach and Dr. Walter Simons, foreign minister, affixed their signatures to the document, which was drawn in the exact form submitted by Marshal Foch and Field Marshal Wilson, the allied military chiefs.

The signature was preceded by a notification from Dr. Simons on behalf of his government that in signing the protocol Germany did not give her consent to further occupation of German territory, which could only be given by the reichstag. Premier Lloyd George said he quite understood that point of view. The question of further occupation in the event of Germany not observing the stipulations of the treaty and protocol, however, was one for the allies to determine and not the German parliament, he declared.

The protocol was signed in a small room, and Dr. Simons signed first. After laying down the pen they bowed to Mr. Lloyd George as though saying, "Well, that disagreeable business is finished."

Mr. Lloyd George bowed courteously in return. It is generally accepted that the council will proceed rapidly with other business on its program.

Asked by M. de La Croix, Belgian premier, at the opening of the session, what reply the German delegates had to make regarding the disarmament protocol, Dr. Simons declared:

"The German delegation has decided to sign."

The final decision of the allies set forth that Germany must:

1. Immediately disarm certain of its forces, including the security police.

2. Publish a proclamation asking for the immediate surrender of all weapons and firearms in the hands of the civilian population.

3. Abolish compulsory service.

4. Surrender to the allies all guns, arms and cannon which it possesses above the limit fixed by the treaty of Versailles.

The allied decision concerning disarmament reads:

"If on Oct. 1 the German army is not reduced to 100,000, the allies will proceed to occupy German territory in the Ruhr or any other part of German territory, and will not evacuate it until all conditions of the agreement have been fulfilled."

Last 65 Pounds in Weight and Had to Give Up Work. Has Been Well Since Using Doan's

"Being exposed to extreme heat while working as an engineer, and then coming outdoors to cool off, caused me kidney trouble," says Karl Goering, 8513 N. Orkney St., Philadelphia, Pa. "In cold weather and when it was damp, my joints and muscles would stiffen and I would ache, and often my limbs were so badly affected it was only with great misery I was able to get around. For a week I was laid up in bed, hardly able to move hand or foot.

"Another trouble was from irregular and scanty passages of the kidney secretions. I became dull and weak and had to give up my work. Headaches and dizzy spells nearly blinded me and I went from 265 to 230 in weight. Nothing helped me and I felt I was doomed to suffer.

"At last I had the good fortune to hear of Doan's Kidney Pills and began taking them. I soon got back my strength and weight and all the rheumatic pains and other kidney troubles left. I have remained cured."
