

THE SMOOTHEST SMOKING TOBACCO

"WHEN I go fishin' I want fish that bite, and tobacco that don't."

Velvet Joe

"Bite" in tobacco comes either from poor leaf or wrong "ripening."

We use for VELVET only the finest Kentucky Burley. But we don't stop there.

We put millions of pounds of this tobacco away every year, in wooden hogsheads, for Nature to patiently ripen and mellow.

There are quicker ways, but they leave some teeth in.

The VELVET way makes the friendlier kind of tobacco. You can always go to it for comfort without a "come-back."

Get chummy with VELVET today.

VELVET'S nature-aged mildness and smoothness make it just right for cigarettes.

LOCAL AND PERSONAL HAPPENINGS FROM HOPE

Mr. C. T. Reeves has purchased a new Ford car. Mrs. J. J. Wall is on the sick list this week. Miss Lillie Holdman spent Friday with her sister, Mrs. H. Gantt. Miss Gertrude Rushing is spending the week-end with homefolks. Miss Dollie Wall is back home again having been on a visit to Lindall, Tex. Miss Lula Madden, of Shreveport, is at home this week. Miss Allie Bell Trott is making her home here now, her school being out. Miss Dollie Wall was a week-end guest of Miss Fannie Mai Taylor. Misses Lillie Todd and Maggie Frye spent Saturday with Miss Fannie M. Taylor. Messrs. Norman Ward and Charlie Wedgeworth attended church at Lawton Sunday. Mrs. C. T. Reeves spent the week at Yellow Pine with her daughter, Mrs. Bryant Lawhon. Mr. and Mrs. Thomas Evans and son, Darrell, of Mt. Olive, were visitors in the home of Mr. Sam Cook Friday. Roland Ward happened to a bad accident Sunday night. He and four other boys, Norman Ward, Charlie Wedgeworth, Arrealous Fields and Ed Nelson, on their way from church at Jamestown, catching the "Red Ball" at Lawton and getting off near Fryeburg, fell and cut his lip open. The doctor here stated that he would be unable to work for several days. Boys, take warning and stay off the trains.

BACKS MONROE DOCTRINE

Delegation at Paris Seeks to Explain Why Indorsement Is Unnecessary.

Paris.—The British delegation has issued a series of commentaries on the covenant of the League of Nations, expressing their definite views and making some changes from the official analysis. With regard to the section dealing with the Monroe Doctrine, the commentaries say: "Article 21 makes it clear that the covenant is not intended to abrogate or weaken any other agreements, so long as they are consistent with its own terms, into which members of the league may have entered or may hereafter enter for the assurance of peace. Such agreements would include special treaties for compulsory arbitration and military conventions that are genuinely defensive. "The Monroe Doctrine and similar understandings are put in the same category. They have shown themselves in history to be not instruments of national ambition, but guarantees of peace. The origin of the Monroe Doctrine is well known. It was proclaimed in 1823 to prevent America from becoming a theatre of intrigues of European absolutism. At first a principle of American foreign policy, it has become an international understanding and it is not illegitimate for the people of the United States to say that the covenant should recognize that fact."

MAY IS DESIGNATED AS "NO ACCIDENT" MONTH

The month of May has been designated by the Safety Section of the United States Railroad Administration as "No Accident" month on all federally controlled railroads in the entire Southwestern Region. The casualties on American railroads show an annual toll of approximately 10,000 persons killed and 200,000 injured, not including minor injuries, and as this loss of life and limb can, with the co-operation of the public and the employees of the railroads, be greatly reduced, the "No Accident" campaign during the month of May is merely one of the many steps that are being taken to eliminate the preventable accidents. Automobile road crossing accidents are growing more and more common, and the number of resulting deaths and injuries is appalling. The daily toll of deaths and injuries throughout the United States deserves more than a passing thought on the part of the public at large, the railroads and the various State Legislatures. One can scarcely pick up a newspaper without finding where there has been a fatal accident at some grade crossing. These accidents seem to be on the increase rather than decrease. Such accidents are not deliberately intended, yet they can all be charged to carelessness. Statistics prepared by the Interstate Commerce Commission from reports furnished by Class 1 railroads for the year ending December 31, 1917, show that there was a total of 3,673 grade crossing accidents involving non-travelers. Six thousand, one hundred thirty-three persons were involved in these accidents of which 1,777 were killed and 4,356 injured. In one State alone during the past twelve months, 1,189 automobiles were struck by trains, 169 persons were killed and 458 persons injured. Ten seconds for safety would have saved these persons. It is not safe to cross a railroad track on "high."

Railroads are public servants handling the commerce of the country, and their trains operate upon tracks which in themselves are silent warning of their dangerous traffic. Yet each day people take unwarranted chances in crossing railroad tracks without first looking to the right and left to see if the way is clear. It is always the occupants of the car who suffer, and in practically every case the accident could have been avoided by ten seconds' concentration of the senses of sight and hearing. It requires but a moment to look and listen, and in case of a dangerous crossing or at a point where there is an obstructed view, a complete stop of the car will avoid many accidents. Trespassing on railroad rights of way is another cause of numerous personal injuries and fatal accidents. During the past twenty-four years 225,266 persons have been killed and 117,257 injured. Fourteen per cent of these were children under eighteen years of age, sixty-six per cent were citizens of the localities in which the accidents occurred, and the remainder were tramps and hoboes. For the quarter ending March 31, 1918, 773 trespassers on railroad pro-

erty in the United States were killed and 645 injured. Public streets, highways and sidewalks are made for people to walk upon, but railroad rights of way are for an entirely different purpose. Persons who cross railroads at street crossings have the protection of the warnings of bell and whistle of an engine and often of the crossing watchmen and of crossing gates. When they leave the street to walk upon the railroad track they lose this protection and that is the reason that approximately six times as many people are killed on railroads in the United States away from street crossings as are killed at street crossings. This notwithstanding the fact that more people pass over railroads at street intersections than are found along railroad tracks away from the streets. This campaign will unquestionably appeal to every thinking person in the community, and all should lend their assistance and co-operation toward eliminating personal injuries which cause so much suffering and sorrow and which nearly always represent an economic loss. It is the desire of the Railroad Administration that the public co-operate with the railroads in making this a "No Accident" month in fact as well as name.

U. S. MAN MAY BE JUDGE

Washington.—Either Charles Evans Hughes or William Howard Taft may be the American judge in the international tribunal to try the former kaiser, it is believed here. The nomination probably will be made by President Wilson, and it may be submitted to congress for confirmation. Elihu Root also was mentioned as a possibility. Chief Justice White, it is believed, would not wish to make the long trip overseas. Lord Reading, chief justice of England, is regarded as the likeliest British candidate.

The scene of the trial probably will be Geneva, the seat of the League of Nations, according to belief here. Attorneys for Wilhelm Hohenzollern would have good grounds for protest against a trial in Brussels or Paris, it was pointed out. The five judges, representing the United States, Great Britain, Italy, Japan and France, working without legal precedents, will be required to rule on evidence and pass judgment and sentence on the arch-criminals of history, with a code of justice and morality as their only guides. A general course of procedure will be decided on before the trial by the five judges, it is believed. Several prominent judges of the old regime will probably be retained as counsel and advisers by Wilhelm. In this connection, former Ambassador von Bernstorff is mentioned. The staff of prosecuting attorneys probably will be representatives of the five great powers, and it is considered possible that the present government of Germany also might be permitted to name a prosecutor, as democratic Germany will be anxious to take this opportunity of fixing the war guilt. Exile already has been decided upon tentatively as the penalty in event of a conviction, Paris advices indicate. Between court sessions, Wilhelm would be kept under surveillance and confined to one house and grounds but not jailed. It is believed precedents established in his trial will serve for the trials of other German war criminals, which are to follow.

NOBODY CLAIMED THE MULES

Miss Josie Lippitt, up north of Roswell was in town last week proving up her claim. Miss Josie will be remembered as the homesteader whose claim in addition to much good grammar grass also gave her a span of valuable mules. It was this way: Miss Lippitt was working in the laundry in town and had been away from her claim several weeks; one day she went out home, was delayed on the road and only reached her cabin after dark. She went in and soon retired for the

night. Later after a sound sleep she was awakened by a feeling that the house was in motion, and looking on she discovered that her house was on rollers and was being whisked away by a span of big mules spurred on by a driver; she made an outcry, the driver fled leaving his mules, and though she advertised and did her best to learn who owned the mules, she could not, so they became hers by right of possession and discovery and some one who attempt to steal her claim house failed.—Roswell (N. M.) Weekly Star.

NEGRO TAKEN INTO CUSTODY BY LOCAL AUTHORITIES

Sheriff Currie received word from the Webster Parish authorities last week to pick-up Charley Johnson (colored), and a warrant was turned over to City Marshal Boddie, and the negro was taken up and placed in jail on Saturday evening, and on Monday was turned over to the sheriff of Webster parish. It is alleged that Johnson was guilty of obtaining money under false pretense, and he will be tried in the Webster parish courts. Our citizens will remember that he is the negro that has been doing furniture repair work in Arcadia for the past few weeks.

TRAINED NURSE NOW TESTIFIES Says She Feels Made Over Since Taking Tanlac—Gains Nine Pounds. Mrs. F. O. Forrester, a trained nurse residing at the Grand Central Hotel, Denver, Colo., is but one of this high profession who have testified to the merits of Tanlac. Mrs. Forrester recently said: "I had been in miserable health ever on years, suffering from indigestion. Everything I ate would sour and even cold water would cause me much distress. The pains in my chest and about my heart were almost unbearable at times and I suffered terribly from neuralgia. I would have vomited spells daily and for three months couldn't retain a thing on my stomach but oatmeal. Often at night I would wake up feeling like I was smothering to death and would have to get up out of bed and stand on my feet awhile to get my breath. "One of my friends who knew of my awful condition and who had been benefited by Tanlac advised me to try it. I did so and my relief has been remarkable. Really I feel like I have been made over again. I have already gained nine pounds in weight and intend to keep on taking Tanlac as long as it does me as much good as it is now." Tanlac is sold in Arcadia by the City Drug Store and by one reliable representative in every town. The government is selling a lot of gas masks. They may be useful during next year's campaign.—Pittsburgh Standard.
