Social And Personal Items Of Much Interest

(By Mrs. M. F. Cook)

Mr. Kenneth Durham, who has been ill with dengue fever in Shreveport, was able to visit his father Saturday, but is again confined to his bed with fever. Mrs. Durham also has fever. Their friends wish them a speedy return to health.

Mrs. A. L. Harper, who has been visiting her mother in Birmingham, Alabama, for the past month returned to her home here Saturday.

Quite a number of Ringgold people are planning to visit Arcadia Saturday and enjoy the Armistice Day Celebration.

Mr. Brice of Arcadia, is visiting in the home of his daughter, Mrs. Eben Tomme, and family.

A number of the young people attended the Lyceum number at Hope Friday night.

Mr. Lamar Taylor of Arcadia, was a business visitor here, Friday.

Mrs. G. S. Study enjoyed a visit from her father, Mr. Tolar, and brother, Willie, of Jonesboro, Sunday.

Mr. Will Davis of Minden, visited friends and relatives here Sunday.

Miss Quick, the trained nurse, who has been with Mrs. Study for the past week, left Sunday for Shreveport, where she will take a position as nurse in the Schumpert Sanitarium.

Miss Lonie Mason and Mr. L. B. White were guests of Mrs. L. B. Cook, Thursday evening.

The Ringgold high school basketball team, boys and girls, played the Castor high school team, Friday afternoon. The score for the girls was 10 to 6 in favor of the Ringgold team. Prof. W. Caskey was referee for the girls. The score for the boys was 34 to 13 in favor of the Ringgold boys. It was a very interesting game.

Mrs. C. J. Frye visited her parents Mr. and Mrs. Trott, who live near here, recently.

The many friends of Mr. Clyde Grove are glad to know that he is rapidly improving from a bad spell of dengue fever.

COMRADES

Al Cox of Emporia died recently and left all his property to his partner, John Carrington, relates the Emporia (Kan.) Gazette. They had been partners here for 50 years. Since Al Cox's death, Carrington has been a broken-hearted man. He hasn't been able to sleep or to eat, and has just naturally lost his cud. These two men were ordinary, every-day, plain plug men. They would resent any claim that they were paragons of virtue. Probably they never exchanged a tender word in their lives. Very likely neither ever indicated what was in his heart to the other, or to anyone else. "Yet here they are parted by death, and like a dumb animal the survivor suffers. There are things in this world bigger than the things we touch and see and hear. But nothing on earth is so great as the secret things that lie in the human heart."

Happenings Of The Week From Lee Community

Mr. R. T. McGinty and family visited relatives in Hall Summit, last Sunday.

Mr. J. C. Hobson and family visited relatives in Crichton, Sunday.

Miss Vera Sledge entertained the young people of the community last Saturday night. Everyone reported a nice time.

Misses Bryan and Bullard of Bryce-land, were the charming guests of Miss Vera Sledge last week-end.

Mr. Johnny Lee Bryan visited relatives here last week-end.

Mr. Robert Hinton of Texas, is visiting relatives here.

Omar McKnight was thrown from a wagon last Saturday and bruised quite a bit. No bones were broken, however, and we are glad to know that he is able to get about again.

The teachers and pupils were very pleasantly surprised Wednesday when Mr. Fisher paid them a visit. Mr. Fisher did not make the usual "pop call" but gave us quite a bit of his valuable time which was enjoyed and appreciated.

Those of this place attending the singing convention in Ringgold last Sunday were Misses Sledge, Allen, Davis, Franky and Bernice McGinty and Messrs. Claud and Drew Hall, Donald McGinty and O. G. Moore.

We "kids" have organized the S. L. Society at school, which meets every two weeks, so come over Friday, November 17th, and we'll try to entertain you.

The Milwaukee Sentinel says it would take 58,833 days to reach Mars in an automobile traveling 30 miles an hour. Considering the condition of the roads, wouldn't it be better to make the trip in an airplane?

Here's a fine chance for the right man. The French Academy of Science offers 100,000 francs for the first communication with any planet except Mars. That one will presumably be left to Mr. Marconi.

Some of the girls say they will fight to the last ditch against the long skirts. Maybe they will, but if so it will mark a revolution in the female sex, which always meekly accepts the fashions that are handed out.

If you crave a position on the front page, do something noble of far-reaching consequence. Otherwise, you will have to accumulate a vast mass of seeds and either die or get into a nasty scandal.

Coal in Thirty States.
Coal is produced in 30 states in the Union.

R. H. S. NOTES OF INTEREST

Last Friday afternoon several members of the Ringgold Hi and the faculty accompanied the boys and girls to Castor. A very interesting game between the boys' first teams was witnessed. The score was 34 to 18 in favor of Ringgold. This was not all, for the girls first team had the pleasure of returning with a score of 10 to 6 in favor of Ringgold. Much credit is due our able coaches, Mr. Taylor and Miss Taylor for their interest and services in athletics. They have the hearty cooperation of the town and school in the support of the teams.

Indeed, we are glad to have Miss Talbert back in school after a week's illness. Her presence brings smiles and cheer to all who know her.

We regret very much that Vera Tooke and Shirley Tingle are out of school because of illness. We hope for them a speedy recovery.

Saturday night found a large crowd seeking "fun and frolic" at the school building. The Town and School Improvement League assisted by the R. H. S. faculty, including Mrs. Lexie Burkhalter furnished a most enjoyable carnival. Some of the interesting features consisted of good music furnished by the Ringgold orchestra and the Ringgold Brass Band, songs full of "pop" violin and piano duets, appropriate readings, a play and a minstrel which were enjoyed by everyone. An intermission of a few minutes was given when the good women served delicious eats on the outside. The clowns announced the side-shows and fish ponds which were enjoyed by great numbers. A sum of over a hundred dollars was realized and will be used to provide necessary equipment for the various rooms.

Very much interest is being manifested in the joint program to be given Friday night by the "Pop" and S. A. K. societies. Come and have a good time.

Civilizing the Eskimos.
The bureau of education for the natives of Alaska points out that in a single generation the reindeer industry has raised the Eskimos one entire stage in the scale of civilization—from nomadic hunters to pastoral people.

Rumored That Oil Is Found In Well West Of Here

A report is current that oil has been located in a well being drilled about 9 miles west of Ringgold on the west bank of Lake Bistineau. As to the quantity or whether or not the report can be verified, but is published here for what it is worth.

The report is to the effect that the slush pit is covered with oil. The well is in the vicinity of the Lakeside gas wells. The depth was not mentioned in the report, which however seems to come from a reliable source.

STRAYED OR STOLEN

One dark mouse colored mule, weight about 600 pounds, left my place 6 miles east of Dubberly, La., about October 19th, 1922. Anyone having information as to present whereabouts will please communicate with the undersigned.
