The grand ball soon to be given for the benefit of the High School fund promises to be a rousing success in every particular. Alexander, whose application for the office of the railway mail service, 11th division, was, last week, filed by Senator Caffery, at the post-office department, has for the last four years filled the position of postal clerk between Lafayette and Cheneyville. The head of this curious animal cannot be distinguished from that of the domestic cat, and likewise the caudal appendage of this inhabitant of the water bears such strong resemblance to the tail of the common cat as to make it almost impossible to distinguish one from the other. Go and see it.

The Gazette has been noticing some improvements going on in the corner building next to Mrs. Cornay's and upon inquiry ascertained that the lady will shortly open an ice cream parlor, where during the season, will be found not only ice cream, but soda water, lemonades, sherbets, cakes, and all that pertains to a confectionary parlor. The Gazette feels confident that her venture will prove successful.

Discipline Saves Life. We unhesitatingly assert that railroad men are the best disciplined men on earth; and this fact was illustrated at the depot one night this week. When the night yardmen were "kicking" a car in a side track, Alcide Mouton was giving the signals, Ben Donald was at the throttle, and Swindler was to pull the coupling pin. The signal for the engineer to come back fast was given, and when under full headway, the signal to pull the pin was given, and had been obeyed, when the watchful eye of Mouton caught sight of three men crossing the track in a two-hour hurry. As quick as thought he signaled for the pin to be replaced, which was as quickly done, and in time to catch the coupling; and like a flash of lightning the red light sent its message to the engineer to stop quick, when, like a thought, went the reverse lever; out went the sand on the track, and in the effort to change her direction, the old yard engine shot her wheels around like a spinning wheel, while she rocked like a monster ship in a storm; and just in time for the young men to clear the track; and for a time, three mothers' hearts were spared that grief which only a mother knows how to feel when heretofore of a child.

A Fatal Accident. Information reaches The Gazette that a sadly deplorable accident happened to the wife of Mrs. Jules Servatte, in Duson, some nights since. It appeared that Mrs. Servatte had placed a lighted lamp near her bed, and by some unaccountable means the lamp was overturned, and the flames therefrom ignited her clothes, and burning her very severely. The unfortunate lady as soon as she perceived her clothes on fire, caught a quilt and enveloped herself in it, but too late to escape serious injury. Although given the best attention known to medical skill, the lady lingered until Wednesday, when death ended her sufferings. In his great misfortune and bereavement Mr. Servatte has deep felt sympathy of all.

The B. M. A. A fairly attended meeting of the Business Men's Association was held Wednesday night, with Mr. C. O. Mouton in the chair, and Secretary A. C. Ordway at his desk.

The reading of the minutes of the previous meeting was dispensed with.

Upon motion made and carried it was decided to have printed on the obverse side of the English circular letter, the same in French, for general circulation throughout the parish.

Upon further motion a committee was appointed composed of Messrs. Crow Girard, A. C. Ordway, Felix Demande, E. Constant, Dr. E. S. Mudd, Wm. Campbell, Julian Mouton and C. O. Mouton as a reception committee to receive Mr. Leslie and party of capitalists who are expected in Lafayette at an early day.

The President was authorized to appoint a committee of five to confer with a similar committee from Abbeville, to devise the best means to forward the acceptance of the tax.

After transacting some minor business the meeting adjourned.

Around the Depot. No. 516 of the Tap turns her wheels under the mastery touch of John Tierney, Esq., or as the boys call him "Our Jack." While the modest Thomas Rogers gracefully handles the shovel.

While working in his garden, Mr. Jacob Barker, fireman on the switch engine, was quite painfully bitten by a snake, and we are happy to note that no ill results followed.

A new cure for jaundice. We are informed by a brakeman on L. W. railroad that one of his brother brakemen on the Morgan had a very severe spell of jaundice and after trying all the doctors in town without any benefit was called on by an old colored man, D., who looked at his tongue and prescribed three buckets of white sand which, the brakeman ate and was cured.

In company with yard master, Henry Church, we paid a visit to the round house

this week, where we had the pleasure of meeting some of the boys. Mr. Johnnie Whelan handles No. 542 with Sidney Vallette fireman; John Donner, handsome and graceful like his papa, runs the No. 546, with the no less gallant Walter Ryan fireman; Mr. Thomas Finnegan pulls the throttle on No. 553 with Peter McGrath fireman. It was on this perfection of mechanism that we spent a few happy moments that carried us away back into the past, when a mother's ear listened for the signal whistle that told her "your boys are all right."

We also had the pleasure of meeting machinist Pat Tierney, Esq., and Mr. Charles Higgins, and as Charlie is a Virginian we had to shake hands with him twice.

Carencro News. Editor Lafayette Gazette: The time is coming when, our Police Jury, or the proper authorities will realize that public roads are highways, and not canals into which "every Tom, Dick, and Harry" can drain their fields, pastures, or plantations. When we reach that period, laws will be enacted and regulations established, that will make an easy matter to grade and maintain our roads in proper shape. Through constant wear and tear, the washing of the rain, and blowing of the wind, most of the public highways are several feet below the general level of the country through which they pass; now as long as the owners of property bordering such roads are permitted to cut large drains leading into them, just so long will we have impassable roads; and no road overseer, nor contractor, will be able to keep them in shape. There surely must be some means whereby this injurious custom could be stopped, and some remedial plan afforded.

Mr. Stokes, one of Sunset's leading business men, was in Carencro last Saturday.

Easter is coming, when the "small boys" with the variegated eggs will be in his glory.

In addition to a merchandise and millinery establishment, he will conduct a general commission business.

Carencro needs a good butcher shop, where the purchaser can get the meat that suits him and for which he is willing to pay. The present co-operative butchery plan, that has been in existence in this section for many years, has lived out its usefulness. It is a peculiar method, in lieu of which, anything would be an improvement.

Our popular and genial parish Supt. of Public Schools, Mr. H. E. Toll, went to Lafayette last Saturday to pay the teachers.

Mr. Chas. Lusted, and Mr. Daveryn, the "wide-awake" representative of A. Mackie, were in town last Saturday. We regret not having been on hand to entertain them.

One of our friends was seen buggy riding Sunday, and with him (from the corner of our eye) we caught a glimpse of his best girl. That's right "Dillon." Keep the ball a-rolling, and vindicate the "Old Dame's" rumor.

Your correspondent was informed that a telephone line would be the next move made by our citizens, which it is intended shall be built at an early date, thus placing Royville in direct communication with the other towns.

CHEROKEE. Broussardville Drizz lings. Editor Lafayette Gazette:

The operation performed last Saturday on Mr. Severe Boudreaux's leg proved quite successful. Mr. Boudreaux had been suffering for more than twenty years with a seemingly incurable sore. Some two months

ago he went to the Charity Hospital in New Orleans to undergo treatment, but failed to obtain a satisfactory one. On his return Mrs. Trahan, Seranton and Latiolais decided to attempt an operation, and it resulted in the cutting of his leg, saving the knee. Mr. Boudreaux is doing well, and is expected to recover shortly from the severe operation.

The sinking of the artesian well at Mr. Billaud's sugar mill was begun last Monday. Ninety feet were bored the first day.

A goodly number from our little town went to witness the hanging of Louis Michel, in St. Martinville last Friday.

None of the town boys are to be seen around on Sunday. All out calling on their cousins or more distant relatives. Get your wedding cards in shape, Mr. Editor.

A progressive euchre game was played at Mrs. J. A. Roy's last evening by Misses Nellie Bailey, Hayden Trahan, Lella Nickerson, and Messrs. Ed. L. Estiver, Henry Fournet, J. M. and J. P. Olivier. Mr. J. M. Olivier carried the honors of this game.

Our worthy agent, Mr. Gaudin, tells us that business is so dull that he has any amount of spare time.

The opening of the season; the grandest occasion of the year: Easter Sunday celebration: Fall in ranks, boys! Grand social gathering, balloon ascension, torch light procession, series of tableaux, all to conclude with a dance at St. Julien's Hall. A prize to be awarded to the best dancer and participant. Be sure to give your best girl a chance to win, don't be too heavy. Lots of fun to those who know how! Two or three bands will be in attendance to furnish dancing and "operatic music." Fail not to attend.
