W. V. Nicholson requests The Gazette to state that he has severed his connection with the Long Plantation.

Robert Robertson who came here some time ago from Eau Claire, Wis., informs The Gazette that he is so pleased with this country that he has decided to remain permanently in this parish.

The suspension of railway traffic will entail a great loss on the egg industry of this parish. We understand that eggs are selling at five cents a dozen at Carencro.

Chief of Yard Inspectors Oneil Baron has performed his duties with credit to himself and satisfaction to the town authorities. Mr. Baron says the town is now in a thoroughly clean condition.

The boys of the quarantine force have given names to the various roads leading into town. Among them are Despair Alley, Tin Can Alley, Shirt-tail Avenue, Hogan's Alley, Bums' Retreat, Cocktail Avenue, Cat fish Alley and Klondike Road.

The only mail received here this week was from Breaux Bridge.

The cotton buyers have been instructed to stop buying cotton until traffic is resumed.

Every citizen of this town should volunteer his services for quarantine duty. There is quite a number of able-bodied men in this town who have yet failed to respond to the call. It is unfair to compel a certain class of citizens to do all the work when the quarantine is for the protection of all.

Under the regulations recently adopted by the City Council, any known resident of an adjoining parish will be admitted into the town after establishing his identity to the satisfaction of the authorities. The old rule which kept out any one from an adjoining parish was unnecessarily severe.

It is strange but true that the "fizz" of the soda fountain at the Moss Pharmacy continues to be heard above all the "hubbub" occasioned by the yellow fever scare. The people are determined to have a little "soda water" in theirs, come what may—and the people are right.

The Fever.

The latest reports from the infected places are not of the most cheerful kind, but the disease has not spread very fast. The last bulletin received at Lafayette a few minutes after 12 o'clock yesterday, is as follows:

Past 24 hours—New Orleans, 9 new cases, four deaths; Mobile, 2 new cases, 1 death; Edwards, 16 new cases, no deaths; Biloxi, 3 new cases, no deaths; Ocean Springs, 2 new cases, no deaths; Atlanta, 1 new case brought from Mobile by refugee.

Watches repaired at Biossat's.

Running to New Iberia. The quarantine regulations of New Iberia not being as strict as those of this town and parish the railroad company is running a mixed train as far as that place.

Back Home.

Alfred Hebert arrived in Lafayette Thursday night from Grand Chenier. Mr. Hebert had several narrow escapes and he is to be congratulated for having successfully scaled the quarantine walls of Crowley, Rayne, Duson and Scott without sustaining any injury or getting locked up in some melancholy pest-house. Mr. Hebert says he was stopped seventeen times between Mermentau and Lafayette and had to use a great deal of diplomacy to get through the lines. At Crowley he was advised to leave town as the presence there of a stranger from any point would very likely cause much excitement. Even to enter Lafayette he was required to produce the regulation certificate and to give a satisfactory account of himself.

Mr. Hebert's wife and children are at Grand Chenier and will remain there some time.

It has been generally conceded that the mortuary column of the Baltimore Sun was the champion eastern dispenser of obituary poetry but the following beats all former efforts:

MYERS—In memory of Frank Myers, who died two years ago to-day. Just two short years ago to-day. The one we loved has passed away. Although a link has been broken from the chain, We hope to meet him in heaven again. He had just joined the Pioneer base ball club, His comrades to enjoy, But the fatal slide to second base Caused the death of our darling boy. BY HIS PARENTS.

Now's a good time to plant onion sets and shallots. Get them at the Moss Pharmacy.

The Daily American alleges that a certain hotel keeper in Lake Charles keeps health certificates signed in blank by the health officer and fills them out for his guests. The laxity of quarantine in Calcasieu parish has caused Alexandria to quarantine against Lake Charles and parish.—Crowley Signal.

President Diaz's Assassin.

Daily Picayune. The attempt to assassinate President Diaz, of Mexico, which was made on Thursday, was followed Friday by the lynching of the assassin by an infuriated mob. The whole affair is most extraordinary, and although it is to be regretted that a mob was permitted to take the law into its own hands in a populous city like the City of Mexico, still it must be admitted that the assassin's fate was well merited.

There appeared to exist no reason for the attempt on President Diaz's life, except the anarchist principles professed by the assassin. The attempt was a most foolhardy one in the extreme, and there was really no chance of its succeeding. The self-confessed anarchist who made the attempt possessed no weapon, and depended entirely on stunning the President by a blow and afterwards killings him with his own sword. The natural result of this insane plan was that the would-be assassin was promptly knocked down and arrested by President Diaz's suite.

The arrest of the anarchist was accomplished without difficulty, and he was promptly hurried away so as to escape the mob. Later, the prisoner was removed to a place where apparently an infuriated mob had no difficulty in getting at him, and he was mercilessly hacked to pieces with knives. The Mexican authorities no doubt heartily deplore this exhibition of mob violence, as it deprived them of the satisfaction of fully vindicating the

law in a proper and effective manner. Justice is sufficiently swift and unbending in the sister republic to render all resort to mob violence entirely superfluous. The action of the people can, therefore, only be attributed to the immense popularity which President Diaz enjoys.

The lynching of five men at Versailles, Indiana, will give the people of the North something to think about other than the lynching of negro rapists in the South, which they have been so quick to condemn and to preach long sermons about the lawlessness of this section of the country. It is quite evident that the North is acquiring the "Southern habit," consequently the holier-

than-thou element will find much to confuse them in the Versailles affair, and they will be compelled to go out of business for a time at least. The citizens of Versailles who took no part in lynching justify the action of the mob on the ground that the authorities seemed powerless to punish the crimes committed by the gang of desperadoes, and even Gov. Mount attributes the lynching to the lax enforcement of the law.—Daily States.
