CHURCH & CO'S SODA. BEST IN THE WORLD! ABSOLUTELY AND CHEMICALLY PURE. IMPURE SO-CALLED Soda is of a slightly dirty white color. It may appear white, examined by the eye, but a CHEMICAL ANALYSIS WITH CHURCH & CO'S "ARK AND HANOVER" BRAND will show the difference. See that your Baking Soda is white and should be ALL SIMILAR SUBSTANCES used for food. A simple but severe test of the comparative value of different brands of Soda is to dissolve a dessert spoonful of each kind with about a pint of water (hot preferred) in clear glasses, stirring well all is thoroughly dissolved. The deleterious insoluble matter in the inferior Soda will be shown after settling some twenty minutes or more, by the milky appearance of the solution and the quantity of floating frothy matter according to quality of each kind. Be sure and get for Church & Co's Soda and see that their name is on the package and you will get the purest and whitest made. The use of this with sour milk, in preference to Baking Powder, saves twenty times its cost. See also our package for valuable information and read carefully. SHOW THIS TO YOUR GROCER.
