GEN. R. F. BUTLER is reported to be worth several million dollars. Besides possessing an abundance of real estate in Boston, Washington and Chicago, he owns the big Craig ranch near Pueblo, Col.—the largest ranch in the state—has 150,000 acres of coal and mineral lands in Virginia and controls part of the Mora grant of 900,000 acres in New Mexico.

Few people have of late years heard of Rev. W. H. Murray—'Aldronck' Murray, as he used to be called. But he is still in the flesh and is as buoyant as a twenty-year-old boy. He has regained his old homestead near Guilford, Conn., and much of his time is spent there with his books and his pipe.

His summers are passed in travel and fishing, and his winters in study and work.

REPRESENTATIVE BYNUM, of Indiana, said recently that there was a truth in the report that he was so disgusted with Speaker Crisp's committee appointments that he proposed to retire from congress and be a candidate for governor of Indiana. He said that while he was disappointed at Mr. Mills' defeat, he certainly had no cause to complain of his own committee assignments.

The Missouri Pacific, the Burlington and Wabash roads announce a rate of one fare for the round trip from points in the territory of the association to Minneapolis and return for the national republican convention. On application of the Chicago, St. Paul & Kansas City road these rates are not only made available over all lines between Chicago and St. Paul, but the advisory board of the blind passenger pool will be divested temporarily of its authority to divert business so that the competition will be unrestricted while those rates prevail.

MRS. CHARLES D. HAINES, of Kinderhook, N. Y., enjoys the distinction of being the first woman in the United States who is president of a railway. She is the executive head of the Hamilton & Kingston railroad, and was until recently president of the Haines Valley railroad in Texas. Mrs. Haines is only about 30 years old and is of very pleasing appearance. She attends personally to the managing of the road of which she is president, and understands the business thoroughly, even in its minor details. But, perhaps, some part of her success is due to the fact that her husband is a practical railroad builder.

The total number of murders committed in this country, as reported by mail and telegraph to the Chicago Tribune during the year was 5,900, as compared with 4,290 in 1890 and 3,567 in 1889. The list of murders during the last ten years shows a steady increase.

The total number of executions is startlingly small when compared with the number of murders, being only 131. "Judge Lynch" disposed of 105 people. Of these six were women. Louisiana had twenty-nine, Alabama twenty-six, Mississippi twenty-three, Missouri had two. Of the whole number lynched 121 were negroes. One hundred and sixties were lynched in the south. Forty-five negroes were lynched in the south for assaults on women. The eleven Italians mobbed in New Orleans are included in the Louisiana list.

The Chicago live stock exchange by a large majority have adopted a rule prohibiting members telegraphing to customers the market quotations. This does not prevent, however, particulars of a sale of a customer being wired to him by the member making the trade.

JACKSON DAY.

Celebration of the Anniversary of the Battle of New Orleans.

Honoring the Memory of "Old Hickory" By the New York Democratic Club—Hanging Words From Ex-President Cleveland.

New York, Jan. 9.—The seventy-seventh anniversary of the battle of New Orleans, which brought to a close the war of 1812 and was Gen. Jackson's great victory, was celebrated by the business men's democratic association last night by a banquet at the Hoffman house and was participated in by about 150 distinguished democrats.

In consequence of the recent death of his daughter, J. Edward Simmons, president of the club, was not in attendance. His place at the head of the festal board was filled by City Comptroller T. W. Myers, who presided, and on his right sat ex-President Grover Cleveland, Hon. Daniel S. Lamont, Hon. Joseph C. Hendrix, Gov. Abbott, of New Jersey, and others, while on his left were Congressman William M. Springer, Hon. Joseph J. Little, Senator Jacob A. Cantor and others.

Comptroller Myers referred to ex-President Cleveland in warmly complimentary terms and presented him as he arose to respond to the first toast of the night. He was greeted with vociferous cheers.

In opening Mr. Cleveland adverted to the purposes of the celebration and the reasons which impelled democrats to honor Gen. Jackson and continue the democratic party.

The democratic party has lately declared to the people that if it was trusted and invested with power, their burdens of taxation should be taken off and that a better mode of distribution of benefits should be assured to them. There is no doubt concerning our commission from the people to do this work, and there is no doubt that we have received their trust and confidence on the faith of our promises. In these circumstances there is no sign of Jacksonian democracy in the present administration. If we accept the trust and confidence of the people with any other design than to respond fully to their wishes, we are unworthy of the trust and confidence which they have placed in us. If we have undertaken this task, we will do it to the best of our ability, and we will not be deterred by any opposition.

At New Orleans Gen. Jackson attacked the enemy as he lay and fought against their making the least advance. It is a disgrace to the country that a man of his rank and position should have been so treated. We have no doubt that the people will support us in our efforts to restore the honor of our country.

President Jackson believed the United States was an institution dangerous to the liberties of the world. He was determined to destroy it, if he could, and he was determined to do so. He was determined to do so, and he was determined to do so.

Our promise was not merely to labor in the people's cause until we should tire of the effort or should discover a way which seemed to promise a more successful result. We have given pledges to the people and they have trusted us. Unless we have outgrown the trust which they have placed in us, we are bound to keep our promise.

TRADE REVIEW.

Both Dun and Bradstreet's Reviewers Flow a Good Beginning of the New Year.

New York, Jan. 9.—B. G. Dun & Co.'s weekly report of trade says: The first week of the new year has been marked by some striking events. These changes do not threaten, but promise to help the legitimate business of the country which over-confident speculation at this time might have embarrassed. The government issued this week its final statement of the yield of wheat, corn and oats. The yield of wheat now reported \$3 per bushel exceeds previous department estimates that the price has dropped sharply 3 1/2 cents for the week on sales of only 13,000,000 bushels. Oats also dropped 3 1/2 cents, but corn rose an eighth of a cent, large exports actually exceeding those of wheat for three days of the week sustaining the price. Pork products scarcely changed, oil rose 1/2 cent and beef rose 1/4 cent. Cotton has dropped to the lowest price since early in 1891 and this has affected business in the south.

In brief the business prospects of the country are remarkably favorable for the beginning of a new year excepting at the south, and while the depression in that section may considerably affect some trades and branches of manufacture, the uplifting influence of large northern crops and of unprecedented foreign demand for northern products gives substantial ground for the great confidence which prevails.

Bradstreet's weekly Wall street review says: To all appearances the favorable anticipations regard to the course of speculation during the first week of the year. The activity of the market has been remarkable, and advances of a striking character have occurred in many portions of the share list. At the same time that the transactions have increased in volume it is evident that the participation has broadened and that the January disbursements with the encouraging financial conditions and steady increase of railroad earnings have produced a great deal of fresh buying. It was noticeable that London and Europe generally took no part in the upward movement of prices which marked the early days of the week, there was selling from that quarter during the greater part of the week and speculative sentiment in the foreign markets is apparently not ready to respond to the bullish disposition which prevails here. At the same time our market though widening and improving in respect to the quality of steel, which is the early educational market, is still selling from that quarter during the greater part of the week and speculative sentiment in the foreign markets is apparently not ready to respond to the bullish disposition which prevails here.
