

CITY TAX SALE OF IMMOVABLE PROPERTY, CITY OF HOUMA

The City of Houma vs. Delinquent Tax Debtors

By virtue of the authority vested in me by the Constitution and laws of the State of Louisiana, I will sell at the principal front door of the Court House in which the Civil District Court of the Parish of Terrebonne is held, within the legal hours for Judicial Sales beginning at 11 o'clock A. M. Saturday, October 13th, 1917, and continuing on each succeeding day till said sales are completed, all immovable property on which taxes are due the City of Houma to enforce collections of taxes assessed in the years 1915 and 1916, together with interest thereon from the 31st day of December, 1916 and 1917 respectively at the rate of 10 per cent per annum interest until paid, and all costs.

The names of said delinquent tax payers, the amount of taxes due by each on the assessment of said year and the immovable property assessed to each to be offered for sale as follows, to-wit:

No. 186—Eva Blanchard, E. 1-2 of Block No. 8 and part E. 1-2 No. 5, Block 11, Point Street, assessed at \$800.00. Taxes 1915-16 \$24.00

No. 244—Est. Mrs. F. Chanfreux, North part of Block 3, Lafayette St. Assessed at \$400.00. Taxes 1915 and 1916 \$12.00.

No. 440—F. Fabregas 99-100 Est. J. H. Hellier, 1-100 Lot No. 3, block 20, Barrow St. Assessed at \$400.00. Taxes 1915 and 1916 \$12.00.

No. 474—Harrison Gary, Lot No. 6, Block B. Georgetown. Assessed at \$100.00. Taxes 1916 \$1.50.

No. 496—Mrs. S. Gary, Lot 2, Block B. Naquin St. Assessed at \$250.00. Taxes 1916 \$3.75.

No. 598—Mrs. Mary Johnson, Lot No. 2, Block 107, Newtown. Assessed at \$60. Taxes 1916 .90.

No. 620—Louis King, lots 1 and 3, Block 83, Honduras St. Assessed at \$250. Taxes 1916 \$3.75.

No. 874—Est. L. F. Suthon 18 arpents between F. Gouaux et. als. and P. Cenac. Assessed at \$3000. Taxes 1915 and 1916 \$90.00.

No. 875—Est. L. F. Suthon, Lot 1, Block 27, Barrow and Wood Sts. Assessed at \$200. Taxes 1915 and 1916 \$6.00.

No. 876—Est. L. F. Suthon, Lot 1, Block 50, Grinage and High Sts.

Assessed at \$200. Taxes 1915 and 1916 \$6.00.
No. 877—Est. L. F. Suthon, 10 arpents between J. B. Bergeron and H. Ange's. Assessed at \$3000. Taxes 1915 and 1916 \$90.00.
No. 880—Est. Mrs. L. Saucede, North part Lot 1, Block 29, Rousset and Point Sts. Assessed at \$300.00. Taxes 1916 \$4.50.

No. 881—Est. Mrs. L. Saucede, Lot Block 13, Main and Barrow Sts. Assessed at \$1250.00. Taxes 1916 \$18.75.

No. 882—Est. Mrs. L. Saucede, 1-2 Lot 2, Block 22, Main Street. Assessed at \$400.00. Taxes for 1916 \$6.00.

No. 919—Mrs. Eliza Thomas, Lot 1, Block B. Naquin St. Assessed at \$100.00. Taxes 1916 \$1.50.

On said date of sale, I will sell such portion of said property as each debtor will point out, and in case the debtor will not point out sufficient property, I will, at once and without delay sell the last quantity of said property of each debtor, which any bidder will buy for amount of taxes, interest and cost due on same by each debtor. Said sale will be made and the property sold shall be for cash in United States Currency, and the property sold shall be redeemable at any time for the space of one year by paying the price given including costs and twenty per cent thereon; and in case there be no bidder for any of said property, the same shall be bid in for the City of Houma.

DREUX ANGERS,
Clerk and Ex-Officio Tax Collector,
City of Houma.

HERE IS THE MOST INTERESTING SUBJECT IN THE WORLD!

FOOD
FAIR AND SQUARE

Poets have sung of love. (Philosophers have delved into the why-ness of everything. But we can assure you that the most interesting subject in the world is food. We'd like to state that we have studied the food problem from the purity angle. Take advantage of our knowledge of the subject.

Agricultural Department

STORE WINTER SUPPLIES
Fruits and Vegetables Required During the Nongrowing Season For the Family.

A family of five, including two adults and three children under 12 years of age, under ordinary living conditions, should have stored for each month of the winter season the following food supplies: 1 bushel of Irish potatoes; 1-2 bushel of other root vegetables such as carrots, turnips, and parsnips; 25 quart cans of other vegetables; and 20 quarts of canned fruit and preserves. These figures are based on estimates by the United States Department of Agriculture, which add that most of this should come from the perishable products of the many home gardens this year.

With these figures as a basis, it is thought that almost any family may calculate its requirements, taking into consideration the length of the winter season in any given locality. Thus, in the South, where food crops may be grown in the fall, the winter allowance may be less than for the far North, where one must count on supplies for several months longer.

There is still time, says the department, for a final drive in canning, preserving, and drying. In undried vegetables, it may be assumed that a given quantity of dried vegetables is equal to four times its bulk of canned vegetables; that is, one-fourth of a quart of dry string beans when soaked over night is approximately equal to one quart canned.

POTATOES SAVE WHEAT
Irish and Sweet Furnish Starch and When Potatoes May Replace a Considerable Amount of Cereals.

Americans, if they would think of the humble potato as a "breadstuff" rather than merely as a "vegetable," would find that they could spare much bread from their diet without inconvenience, the dietetic specialists of the United States Department of Agriculture point out. The potato—Irish or sweet—differs from almost all other common vegetables in that it supplies important amounts of starch, and starch is the chief food element we get from potatoes. Green vegetables, with which potatoes often are classed, supply little or no starch and energy, and are valuable in the diet principally for the material substances and acids they supply and for giving bulk to the diet. Potatoes, of course, supply valuable mineral substances useful in the building up, repair, and regulation of the body, but they have won their great place in the diet of a large part of the world because they supply starch which would otherwise have to be obtained from cereals.

More Potatoes, Less Bread

The more potatoes you eat the less bread you need for the same meal. Potatoes, of course, contain a larger percentage of water than does bread, so that weight for weight they are not equivalent to bread as a source of starch and energy. As a general proposition, however, one medium-sized potato (5 ounces) five parts of potato are equal to one part of serial in a mixed diet. Therefore, those who make potatoes an important dish safely can cut down the amount of light or hot bread, wheat mushes, or macaroni they eat at that meal, and yet supply their bodies with this important food—starch. Wherever potatoes are locally plentiful or relatively cheap, especially in the case of the early or summer crop which does not store well, housewives are urged to use them plentifully at all meals as a substitute for wheat.

HUSK SOUTHERN CORN

Husked Corn is Freer from Insects and Can be Stored and Fumigated More Economically.

Southern farmers should husk their ear corn in the field and not store it with the husks on, according to specialists of the United States Department of Agriculture. The husks carry from the field to the crib the insect pests that attack corn, and the damage to the corn is thereby increased. It is possible to fumigate husked corn more effectively at less expense, and a much greater amount of husked corn can be stored in the same crib room.

This advice, which is contrary to the custom more or less general in the South of storing corn with the husks on, is based on recent investigations. It is found that cribbing corn with the husks on, insures carrying practically every insect from the field to the crib, and it practically doubles the volume of short-ear room required per bushel of corn. The amount of carbon disulphide needed to treat unhusked corn in open cribs is much larger than that required for husking corn in closed cribs. Husking in the field will leave at least three-fourths of the insects on the husks in the field. This will reduce subsequent injury during storage.

CHICHESTER PILLS

DIAMOND BRAND
Beware of Counterfeits. Refuse all Substitutions.

LADIES! Ask your Druggist for CHICHESTER'S DIAMOND BRAND PILLS in RED and GOLD metallic boxes, sealed with Blue Ribbon. TAKE NO OTHER. Buy of your Druggist and ask for CHICHESTER'S DIAMOND BRAND PILLS, for twenty-five years' proof as Best, Safest, Always Reliable. SOLD BY ALL DRUGGISTS. TRADE EVERYWHERE.

There is no need for an open crib in which to store the thoroughly well-matured corn of the South. Storage rooms must be made tight enough for fumigation. The dosage required for bare ears will be about 10 pounds of carbon disulphide per 1,000 cubic feet, or one-half the amount needed with the husks on. Store as soon as the corn is thoroughly matured and fumigate promptly for best results. If insect attack develops in the crib treat again, using a heavier dosage. Doing the work during the warmer weather will increase the effectiveness of the gas.

For Weak Women

In use for over 40 years! Thousands of voluntary letters from women, telling of the good Cardui has done them. This is the best proof of the value of Cardui. It proves that Cardui is a good medicine for women.

There are no harmful or habit-forming drugs in Cardui. It is composed only of mild, medicinal ingredients, with no bad after-effects.

TAKE
CARDUI
The Woman's Tonic

You can rely on Cardui. Surely it will do for you what it has done for so many thousands of other women! It should help. "I was taken sick, seemed to be . . ." writes Mrs. Mary E. Veste, of Madison Heights, Va. "I got down so weak, could hardly walk . . . just staggered around. . . I read of Cardui, and after taking one bottle, or before taking quite all, I felt much better. I took 3 or 4 bottles at that time, and was able to do my work. I take it in the spring when run-down. I had no appetite, and I commenced eating. It is the best tonic I ever saw." Try Cardui.
