CASTOR SPRINGS,  
(30 miles west of Columbia.)  
M. B. ANDERSON & SON respectfully announce  
to their numerous friends and all other  
enthusiasts of health, pleasure, and recreation  
that they have newly fitted up their establish-  
ment with the most improved and complete  
arrangement of buildings, and have to desire  
that they should give them a visit. The water  
possesses the most medicinal properties, as many  
persons afflicted with rheumatism, neuralgia,  
and other functional and organic diseases can  
testify.  
The Springs are situated in a pleasant, healthy,  
and fertile region, where the atmosphere is pure  
and airy, and will be adapted to those who delight  
in a visit to the river, and who wish to enjoy  
the most beautiful scenery in the State.  
There are two Railroads provided for those who

J. W. WEBB'S  
PATENT DOUBLE RIB GIN.  
I HAVE invented and obtained letters patent for  
a Double-chilled Reversing Rib for Cotton  
Gins, which I will manufacture at Cotton Valley,  
Macon county, Alabama.  
The advantage of my improvement in the Cotton  
Gin Rib, consists in making them reversible so as  
to do double service. Each half of my improved  
Rib is made with the same curve, and the two ends  
are of the same size and shape; so that when one  
end is worn out and becomes unfit for use, the  
farmer can take them off himself, reverse and re-  
place them again, and make them do double the  
service of those heretofore used. It will save the  
farmer the trouble and expense of transporting his  
Cotton gin to some factory and procuring a new  
set of Ribs. Any one can take them off and re-  
place them again. All that it requires is to take out  
the screws and run them back again, and they will  
have a new set of Ribs.  
My Improved Rib will not be very popular with  
gin-makers in general, for they say that the gins  
last too long. Some have acknowledged that it is  
superior to any Rib they have ever seen. It is the  
farmer that I want to please, and if he will give  
me a trial, I will certainly do it. With twenty  
years experience, I flatter myself that I can make  
as good a gin as any one; and with my improve-  
ment, I know that I can make them last one-third  
longer, without any expense for repairing. All  
that I ask is to give me a trial. Persons wishing  
to buy my Double Rib Gin, will please order them,  
for it will be impossible for agents to call on all.  
I will deliver Gins at our Factory, for Two Dollars  
per saw.  
Particular attention given to Repairing.

More to be admired than the  
RICHEST DIADEM  
Ever worn by King or Emperor  
What! Why by a beautiful Head of Hair.  
Because it is the ornament God himself  
provided for all our race. Reader, although the  
rose may bloom ever so brightly in the  
glowing cheek, the eye be ever so spark-  
ling, the teeth be those of pearls, if the  
head is bereft of its covering, or the hair be  
hard or unrivelled, harsh and dry, or  
worse still, if sprinkled with gray, nature  
will lose half her charms. Prof. Wood's  
Hair Restorative, if used two or three times  
a week, will restore and permanently se-  
cure to all, such an ornament. Read the  
following and judge. The writer is the  
celebrated Pianist, Thalberg;

New York, April 19, 1858.  
Dr. Wood—Dear Sir: Permit me to express to  
you the obligations I am under for the entire  
restoration of my hair to its original color; about  
the time of my arrival in the United States it was  
rapidly becoming gray, but upon the application  
of your "Hair Restorative" it recovered its origi-  
nal hue. I consider your Restorative as a very  
wonderful invention, quite efficacious as well as  
agreeable.  
I am, dear Sir, truly,  
S. THUSSON.  
"Drych at Gwyllidyt."  
Welsh Newspaper office, 13 Nassau  
street, April 13, 1858.

Prof. O. J. Wood—Dear Sir—Some month or  
six weeks ago I received a bottle of your Hair  
Restorative and gave it to my wife, who concluded  
to try it on her hair, thinking that at the time  
it would restore the gray hair to its original color,  
but to her surprise, after a few  
week's trial it has produced that wonderful  
effect of turning all the gray hairs to a dark brown  
at the same time, beautifying and thickening the  
hair; I strongly recommend the above Restorative  
to all persons in want of such a change of hair.  
CHARLES CARDEW.  
New York, July 25, 1857.

Prof. O. J. Wood—With confidence do I recom-  
mend your Hair Restorative, as being the most  
efficacious article I ever saw. Since using your  
Hair Restorative my hair and whiskers which were  
almost white have gradually grown dark; and I  
now feel confident that a few more applications  
will restore them to their natural color. It also  
has relieved me of all dandruff and unpleasant  
 itching, so common among persons who perspire  
freely.  
J. G. KILBY.  
Prof. Wood—About two years ago my hair  
commenced falling off and turning gray; I was  
fast becoming bald, and had tried many remedies  
to no effect. I commenced using your Restorative  
in January last. A few applications fastened my  
hair firmly. It began to grow again, and I  
turned back to its former color (black). At this  
time it is fully restored to its original color, health,  
and appearance, and I cheerfully recommend its  
use to all.  
J. D. ROSS.  
Chicago, May 7, 1857.

The Restorative is put up in bottles of 3  
sizes, viz: large, medium, and small; the  
small holds 1/4 a pint, and retails for 25 cents  
per bottle; the medium holds at least 20 per  
cent more in proportion to the small, retails  
for 50 cents per bottle; the large holds a quart,  
40 per cent more in proportion, and retails  
for \$3.

NEW AMERICAN CYCLOPEDIA:  
A Dictionary of General Knowledge  
edited by  
George Ripley and Charles A. Dana.  
To be completed in 15 volumes royal octavo, large  
size, double columns. Vol. I. is now ready,  
and a successive volume will be issued  
every 2 or 3 months.  
Price in Cloth, three dollars; Sheep, Library style,  
three dollars fifty cents; Half doze, four  
dollars; Half Russia, four dollars fifty cents.

The design of this work is to furnish a popular  
dictionary of Universal Knowledge. It will present  
accurate and copious information on Astronomy,  
Natural Philosophy, Mathematics, Mechanics, Engi-  
neering, the History and Description of Machines,  
Law, Political Economy, Music, &c., &c.  
In the Natural Sciences the work will give a com-  
plete record of the progress of Chemistry, Geology,  
Botany, Mineralogy, &c., during the last 50 years.  
The exposition of the principles of Physiology,  
Anatomy, Hygiene will be prepared by eminent  
writers of the medical profession.  
In History it will give a narrative of the principal  
events in the world's annals.  
In Geography and Ethnology the brilliant results  
of the original investigation of the present century  
will be embodied.  
In Biography it will not only record the lives of  
men eminent in the past, but will devote a large  
space to sketches of distinguished living persons,  
prepared by writers, who from locality, personal  
acquaintance, or special research, are most com-  
petent to do them complete and unbiased justice.  
Agriculture in all its branches will have careful  
attention.  
The Industrial Arts, and that Practical Science,  
which bears on the necessities of every-day life,  
such as Ventilation, the Heating of Houses, Food,  
&c., will be their importance, and a thorough propo-  
sition of their principles.  
The work is intended to be one of practical utility,  
for every-day consultation. It will contain  
doctrinal and sectional discussions, but the History  
of Religious Sects will be as far as possible written  
by distinguished members of the different denomina-  
tions respectively.  
It is the aim of the editors to produce an original  
work, so far as its nature will permit; one which  
shall contain all information of general interest to  
be found in the best modern Cyclopedias, yet which  
shall have a character of its own, giving an original  
and complete record of the progress of science, and  
treated of in other works, and will also present a  
great mass of subjects, which have never before  
been brought before the public in an accessible  
form.  
Subscribers to "Benton's Thirty Years' View,"  
of which more than 100,000 have been subscribed,  
are informed that the second volume, completing  
the work, is now ready, and will be supplied in  
the various styles to match the first. \$2.50, cloth.  
Orders for the above, or either of our Subscrip-  
tion Works, will meet with prompt attention.

214 and 248 Broadway.

LITTELL'S LIVING AGE. NEW SERIES.  
The long-established, and deservedly high re-  
putation which this esteemed book has enjoyed,  
and its superiority to all other works of the kind,  
claims as a most judicious and ably-conducted com-  
pendium of the best selected literature of the times.  
Comprising as it does, the creme de la creme of all  
the world-renowned Reviews and Periodicals of  
Europe, as well as occasional selections from the  
best fugitive literature of our own country, it will  
be at once apparent that it possesses a character  
altogether unique and unrivalled as a repository of  
good things, suitable for all classes of the reading com-  
munity—the statesman, student, and philosopher  
as well as the family circle. In addition to the  
intrinsic quality of its literary contents, the quantity  
of reading matter contained in a single year of this  
work, amounts to four thousand one hundred and  
sixty double pages, the subscription price of which  
is only six Dollars per annum, thus constituting it  
not only the best and the cheapest periodical in the  
world, LITTELL, SON & CO., Publishers Boston.

SINGER'S SEWING MACHINES.  
The great reputation of Singer's Sewing Ma-  
chines is founded on the fact, that they are per-  
fectly adapted to every variety of work, and that  
each one of them, kept properly, will earn not  
less than One Thousand Dollars a Year.  
Persons desiring to purchase a Sewing Machine,  
should be informed that the information about these  
machines—size, price, modes of purchasing, &c.—can  
be obtained by applying, by letter, or otherwise, for a  
copy of L. M. Singer's Catalogue, a beautiful pictorial  
work, entirely devoted to Sewing Machine interests. It  
will be sent gratis.

LOCAL AGENTS  
Wanted in every part of the United States, to

GREAT SOUTHERN REMEDY,  
JACOBS' GORDIAL.  
FOR ALL  
Bowel Diseases,  
Cholera, Dysentery, Diarrhoea, Cholera Morbus, Bil-  
ious Cholera, Cholera Infantum, &c., ad-  
mirably adapted to all cases.  
MANY DISEASES OF FEMALES,  
Most especially Painful Menstruation.  
The Virtues of Jacobs' Cordial are too well known to  
require description.  
1. It Cures the worst Cholera.  
2. It Cures the worst forms of Dysentery.  
3. It Cures Cholera or Mexican Diarrhoea.  
4. It Relieves the Severe Cholera.  
5. It Cures Cholera Morbus.  
6. It Cures Cholera Infantum.  
7. It Cures Painful Menstruation.  
8. It Relieves Pain in the Back and Loins.  
9. It Restores Nervousness and Despondency.  
10. It Restores Irregularities.  
11. It Dispels gloomy and hysterical feelings.  
12. It is an admirable Tonic.  
A few short Extracts from Letters, Testimonials, &c.,  
"I have used Jacobs' Cordial in my family, and  
have found it a most efficient, and in my judgment,  
a most valuable remedy."—Hon. Hiram Warner,  
Judge of Supreme Court, Ga.  
"It gives me pleasure in being able to recommend  
Jacobs' Cordial—my own personal experience, and  
the experience of my neighbors and friends around me,  
is a sufficient guarantee for me to believe it to be  
all that it purports to be, viz: a Sovereign Remedy."  
—Wm. H. Underwood, formerly Judge Superi-  
or Court, Cherokee Circuit.  
"I take great pleasure in recommending this in-  
valuable medicine to all afflicted with bowel diseases,  
for which I believe it to be a sovereign remedy—  
decidedly superior to anything else ever tried by me."  
—A. A. Goulding, Deputy G. M. of the Grand  
Jury of Georgia.  
"I have used Jacobs' Cordial in my family, and  
with all I have about it as a remedy for cholera,  
which I have tried it induces me to believe that it stands  
at the head of every preparation of the kind, and that  
I would recommend its use in the diseases for which  
it is compounded."—Wm. G. Bobbitt, Esq., Justice of  
the Peace of the State of Georgia, Griffin.  
"If there is any credibly human testimony, Jacobs'  
Cordial must stand pre-eminent above all  
other preparations for the cure of Bowel Diseases.  
From the mass of testimony in its favor, coming in  
from all quarters, it must be very far in advance, as  
a curative of cholera, of more than all other patent  
preparations."—Fleming, Cashier Marine and  
Fire Insurance Bank, Griffin.  
"This excellent remedy is travelling into celebrity  
as fast as Bonaparte pushed his columns into Rus-  
sia, and gaining consideration wherever used."

PURIFY THE BLOOD.  
Moffat's Life Pills and Phoenix Bitters.  
Free from all Mineral Poisons.  
THE great popularity which MOFFAT'S LIFE  
PILLS and PHOENIX BITTERS have attained  
in consequence of the extraordinary cures effected  
by their use renders it unnecessary for the proprie-  
tor to enter into a particular analysis of their medi-  
cal virtues or properties, and having the united tes-  
timony of more than THREE MILLION of persons  
who have been restored to the enjoyment of perfect  
health by them, it is believed that their reputation  
as the best vegetable medicine now before the pub-  
lic, admits of no dispute. In almost every city and  
village in the United States, there are many who are  
ready to testify to their efficacy in removing disease  
and giving to the whole system renewed vigor and  
health.  
In cases of Scrofula, Ulcers, Scars, or Eruptions  
of the skin, the operation of the Life Pills is  
often effected in removing in a few days every  
vestige of those loathsome diseases, by their puri-  
fying effects upon the blood. Fever and Ague, Dys-  
pepsia, Dropsy, Piles, and in short most all dis-  
eases, soon yield to their curative properties. No  
family should be without them, as by their timely  
use much suffering and expense may be saved.

EMERSON'S MAGAZINE.  
This Popular Magazine has now attained a cir-  
culation unequalled by any of its contemporaries. It  
is the only thoroughly original American Illustrat-  
ed Magazine, strictly speaking, now published in  
this country.  
It ranks among its contributors some of the finest  
minds on this continent; its wood engravings are  
acknowledged to be superior to any other; and its  
illustrations to subscribers are unequalled.  
Since its commencement, the number of its present  
proprietors, all sectional and party features have  
been removed, and it may now deservedly be classed  
as the highest exponent of American literature—neu-  
tral in Politics, and wholly National and impersonal  
in its general character.  
The publishers have determined to continue their  
efforts to make it the most valuable and interesting  
Magazine of the country.  
Magnificent Five Dollar Premium Engraving  
to every Three Dollar subscriber commencing  
with or at any time since January, 1858.  
The Engraving selected for the present year, and  
which will be PRESENTED to every Three Dollar  
subscriber, is  
THE LAST SUPPER.  
Well known to be the finest steel plate ever executed  
in this country, and well adapted to engraving. A  
full description of this beautiful work of art will  
be found on the third cover page of the Maga-  
zine.  
TERMS OF THE MAGAZINE:  
To Subscribers—Three dollars a year in advance,  
with Engraving of Last Supper, sent at 25 cents,  
Six Dollars—Twenty five cents.

No. 112 & 114 William Street, New York

CLAIBORNE'S SEA SHORE FARMER, FOR  
MISSISSIPPI AND LOUISIANA.  
On or before the first of December next—soon-  
er if arrangements be perfected—I will commence  
the publication of a Monthly Paper, under the  
above title, in the city of New Orleans.  
It will have no connection whatever with politics,  
religion, or party, but will be devoted to agricul-  
ture and its kindred branches; and the editor-  
ment of the great resources of the two States,  
open in interest, in geographical position, and in  
destiny.  
I have some experience in industry—and a  
thorough knowledge of the country—its  
highlands and alluvials—its cane-brakes and marshes  
—prairies and pine woods—and their respective  
capabilities. And my columns will be rendered  
valuable by the contributions of enlightened writ-  
ers in both common and practical planters, hor-  
ticulturists, mechanics and men of science. Under  
their auspices, indeed, and at their instance, I un-  
dertake this enterprise.  
The FARMER will endeavor to be worthy of its  
name—plain, straight-forward, well-meaning, in-  
dependent and practical; not middle-class and con-  
fused, but tending strictly to its own line of  
business at home.  
It will contain a monthly review of the markets,  
and of commercial transactions, and of wholesale  
and retail prices for all descriptions of country pro-  
duce, upon which planters may rely; with a busi-  
ness directory and many other items useful to our

IMPORTANT TO INVENTORS.  
American and Foreign Patent Solicitors.  
MESSRS. MUNN & CO. Proprietors of the Sel-  
entific American, continue to procure pat-  
ents for inventors in the United States and all  
foreign countries on the most liberal terms. Our  
experience is of thirteen years' standing, and our  
facilities are unequalled by any other agency in  
the world. The long experience we have had in  
preparing specifications and drawings has rendered  
us perfectly conversant with the mode of doing  
business at the United States Patent Office, and  
with most of the inventions which have been pa-  
tented. Information concerning the patentability  
of inventions is freely given, without charge, on  
sending a model or drawing and description to  
this office.  
Consultations may be held with the firm,  
between nine and four o'clock, daily, at their  
principal office, 37 Park Row, New York. We estab-  
lished, over a year ago, a Branch Office in the  
city of Washington, on the corner of F and Sev-  
enth streets, opposite the United States Patent  
Office. This office is under the personal superin-  
tendance of one of the firm, and is in daily com-  
munication with the principal office in New York,  
and personal attention will be given at the Patent  
Office to all such cases as may require it. In-  
ventors and others who may visit Washington, hav-  
ing business at the Patent Office, are cordially  
invited to call at our office.  
Inventors will do well to bear in mind  
that the English law does not limit the issue of  
patents to inventors. Any one can take out a pa-  
tent there.  
We are very extensively engaged in the  
preparation and securing of patents in the various  
European countries. For the transaction of this  
business we have offices at Nos. 66 Chancery  
Lane, London; 29 Boulevard St. Martin, Paris;  
and Rue des Eperonniers, Brussels. We think  
we may safely say that three-fourths of all the  
European patents secured to American citizens are  
secured through our Agency.  
Circulars of information containing the  
proper course to be pursued in obtaining patents  
through our Agency, the requirements of the Pa-  
tent Office, &c., may be had gratis upon applica-  
tion at the principal office or either of the branches.

The annexed letter from the Commissioner  
of Patents we commend to the perusal of all per-  
sons interested in obtaining patents:  
Messrs. MUNN & Co.—I take pleasure in  
stating that while I held the office of Commissioner  
of Patents, more than one-fourth of all the business  
of the office came through your hands. I have no  
doubt that the public confidence thus indicated has  
been fully deserved, as I have always observed,  
in all your intercourse with the Office, a marked  
degree of promptness, skill, and fidelity to the in-  
terests of your employers.  
Yours, very truly,  
CHAS. MARION.  
Communications and Remittances should  
be addressed to MUNN & COMPANY,
