SUFFER

no longer from Dyspepsia, Indigestion, want of Appetite, loss of Strength, lack of Energy, Malaria, Intermittent Fevers, &c.

BROWN'S IRON BITTERS never fails to cure all these diseases.

Boston, November 26, 1882.
Brown Chemical Co.
Gentlemen:—For years I have been a great sufferer from Dyspepsia, and could get no relief (having tried everything which was recommended) until, acting on the advice of a friend, who had been benefited by Brown's Iron Bitters, I tried a bottle, with most surprising results. Previous to taking Brown's Iron Bitters, everything I ate distressed me, and I suffered greatly from a burning sensation in the stomach, which was unbearable. Since taking Brown's Iron Bitters, all my troubles are at an end. Can eat any time without any disagreeable results. I am practically another person.
Mrs. W. J. FLYNN,
30 Maverick St., B. Boston.

BROWN'S IRON BITTERS acts like a charm on the digestive organs, removing all dyspeptic symptoms, such as tasting the food, Belching, Heat in the Stomach, Heartburn, etc. The only Iron Preparation that will not blacken the teeth or give headache.

Sold by all Druggists.
Brown Chemical Co.
Baltimore, Md.
See that all Iron Bitters are made by Brown Chemical Co., Baltimore, and have crossed red lines and trade-mark on wrapper.
Beware of Imitations.

SLIPPERY AS AN EEL.

The Vindicator comes at us this week, and says "you are another," when we accuse it of illogical and unfair reasoning, in charging "broken levees, bankrupt treasury, tax resistance, etc., as the result of Nicholls' administration." Well, neighbor, when you cite these things to prove that his administration was a failure, we can make no other deduction than that; to give them a particle of weight in the controversy they must necessarily be charged as the result of Nicholls' administration.

We have no desire to slander any of the good people of Natchitoches, and would have been pleased to receive a correct statement from the Vindicator as to Lene and his defalcation. If we are in error, we are entitled to proof of the fact.

But the enteness of our esteemed cotemporary in thus endeavoring to dodge its own reasoning, is scarcely less to upon our shoulders, is scarcely less to be admired that the activity it displays in dodging an issue. It first refers us to matters concerning its own parish, of which we know but little, and before the subject in hand is fairly discussed, it asks us to take a hunt up in Caddo parish, and then skip down to New Orleans by way of variety. Really, we must decline. If our confrere will give us a job nearer home, we may be induced to take the contract, but cannot think of discussing the affairs of a sister parish, of which we are in total ignorance. As to the appointments on the Board of Health, et al, they were the result of that policy which Gov. Nicholls had laid out for himself, and which he declared were repugnant to him and would render him unpopular with his people, but that he considered it was necessary to the successful solution of the vexed question at issue, and he was determined to make the sacrifice.

While on this subject we will take occasion to state our opinion of the great "to do" our neighbor is making over Nicholls' department toward the Natchitoches prisoners. As the executive of the State, on whom de-

The Postoffice-Letter War.

To supply certain omissions in the order recently issued by the Postmaster General, forbidding the delivery of registered letters to M. A. Dauphin, it has been amended to read as follows: "In pursuance of the findings of Postmaster General Key, which finding remains in full force, it is ordered that all postmasters be, and they are hereby forbidden to pay money orders drawn to the order of M. A. Dauphin, and are hereby directed to inform the remitters of said postal money orders that the payment thereof has been forbidden, and that the sum of such money orders will be returned upon the presentation of duplicate orders applied for and obtained under the regulations of the department; all postmasters are also forbidden to deliver registered letters arriving at their offices directed to the said M. A. Dauphin, and are instructed to return all such registered letters to the postmasters at the office at which they were originally mailed, with the word 'fraudulent' plainly written or stamped upon the outside of such letters." To avoid this order the lottery company had all their mail addressed to the New Orleans National Bank. The Postmaster General immediately ordered that the mail of the bank be treated in the summary way applied to matter addressed to the lottery company. The matter was referred to the State court and has been decided in favor of the bank and lottery. The postmaster at New Orleans has notified the postoffice authorities at Washington that he has been ordered by the State court to deliver mail matter addressed to the New Orleans National Bank intended for the Lottery Company, and has asked for instructions as to what he shall do. He has been directed to obey the order until it should be reversed or modified, and to consult with the United States District Attorney at New Orleans. The latter official has been directed to take the necessary steps for the removal of the case from the State Court to the Federal Court, and to move at once for a dissolution of the case.

There are now 28 Simon pure Democratic papers in the State that oppose the nomination of McEnery. This is exclusive of the six Independent and Republican papers, that the Vindicator says "don't count." After the convention meets we imagine brother Breasael will be rudely awakened from his Rip Van Winkle sleep.

All through the earlier history of the Government it was an unquestioned rule that if a party who stood a debtor on the Treasury books, either directly or indirectly, became entitled to any payment from the United States, the accounting officers would apply the sum first to the credit of the account on which he stood a debtor, and if there was a balance in his favor he would be paid that only. This rule was never broken until the present administration when Comptroller Lawrence ruled that a Republican Congressman who was a debtor on the Treasury books should receive his salary despite that fact. The rule once broken down, other claims would naturally arise to have it disregarded. The last question raised is whether a salary of an officer of the Interior Department, who is a judgment debtor of the United States as surety on the bond of defaulting postmaster, shall be paid to him or not. To pay him is of course to practically release him as surety on the bond and to give the other sureties equal claims as a cover for such malfeasance in office. This, and the farming out to Mahone of the Virginia patronage, shows the administration is claiming to be very anxious for civil service reform.—Telegram.

When you don't just know what ails you; when you feel aches and pains all over; when you feel tired and faint, use Brown's Iron Bitters. A wonderful reviver.

As there has been so much said about the disease now prevailing in the neighborhood of Lake, and having this morning had an interview with Dr. Stallings, I will say for the information of all concerned that Dr. Stallings says he visited the family of the late Dr. R. O. Kelly at their home yesterday, and found the entire family down with scarlet fever (the Doctor says the disease is scarlet fever). There was no one to wait upon the family; the family had nothing to eat, and no one to cook if they had it to cook. It was not known to him until he got there that the family was sick. Mrs. Bailey and Mrs. Dave Collins sent cooked victuals, milk etc. to the family immediately. He said that Mrs. Kelly's mother-in-law could not live long and one of the boys could not get well. It was 17 days from the time Dr. K took his bed until any other member of the family was attacked. He said that Mr. Bailey was to get word to the established hospital to have the family above mentioned conveyed to said hospital immediately. The Doctor says the report that he gave Dr. Kelly strong medicine is false.

Dr. Stallings says he was with Dr. Kelly the fourth day of his fever, and he was present when the rash first made its appearance (the 4th day) and in four hours it (the rash) had completely covered the whole body, eyes, mouth, throat as far down as he could see, and also in the nose, and the fever got higher after the rash appeared. The fever was high, very high, all the time, and the patient complained of the throat from first to last, and of aching all over, in flesh, muscles, bones, every where. Dr. S. took sick on the 15th day and did not see the patient again. Mrs. Kelly told him yesterday that Dr. K. mortified from his throat down and all on the bowels on the 15th inst., when he died. Dr. S. says Dr. K. had taken several doses of mercury before he was called to see him.

There is not, neither has there been any such sickness as small-pox or scarlet fever on Big Creek. Plenty rain here now, since Sept. 8th, and turpines are looking and growing fine. Lost.

Many who never complain are nevertheless seriously ill. Use Brown's Iron Bitters and there will be no cause of complaint.

MURDER IN CATAHOULA.—A report came to us by mail last night of a killing affray that took place last Thursday morning on Black river, Catahoula parish, ten miles below Trinity. The man killed was Jacob Garrett, his slayer Tom Fraser. Mr. Garrett was renting land to Fraser, and Fraser and he had some words together about paying rent, and Garrett took a halibut and nails to nail up his cotton house, until the rent was paid, when Fraser shot him with both barrels of his shot-gun, killing him instantly. Garrett was 78 years of age. Fraser escaped and has not yet been arrested.—Town Talk, 26th.

We know of no gentleman in the district who would be a more worthy successor to our present efficient District Attorney than Mr. Wickliffe. Well versed in law, fearless and outspoken in the prosecution of his duties, he would be an acceptable candidate. Besides, we believe that Grant parish is entitled to recognition at the hands of the party. Mr. Wickliffe has the inside track and is very apt to hold it to the end.—Marksville Bulletin.

Extensive preparations are being made for the approaching Mississippi State fair, to commence Oct. 25th and continue six days.

At the Colored Convention in Louisville on the 26th, Fred Douglas made a speech in which he declared for social as well as political equality for the negro race.

A special dispatch to the Times-Democrat says that the Backbone Land Grant matter will not be definitely settled for some time to come. At any rate the question will remain an open one until the meeting of the next Congress.

Minor M. Elmore, one of the proprietors of the N. O. States, and acting as one of the city editors, died on the 20th inst. He was a young man, only 25 years old, and gave promise of a brilliant future in the field of journalism.

Not Small-Pox.

CORONADO, La., Sept. 23, 1883.
Editor Colfax Chronicle

As there has been so much said about the disease now prevailing in the neighborhood of Lake, and having this morning had an interview with Dr. Stallings, I will say for the information of all concerned that Dr. Stallings says he visited the family of the late Dr. R.
