We are pleased to learn that Mr. J. M. Rhorer, Sr. has been re-commissioned as postmaster at Fairmount.

BLACK-DRAUGHT tea cures Constipation.

Cheatham's Chill Tonic is acknowledged to be the best. Physicians use and prescribe it. Cure guaranteed.

We are glad to learn that Master Andrew LeSage, who has been quite sick, is beginning to improve.

Everybody turn out to the railroad mass meeting to be held in Colfax on Saturday, June 20th.

McBree's WINE OF CARDUI for female diseases.

"Love thy neighbor." You can never do this if you allow your neighbor to suffer with itch, tetter, ringworm, etc., without advising him to use Hunt's Cure. Cure guaranteed.

Twelve days of rainy weather has got to be rather monotonous, and now our farmers are wishing for dry weather as badly as they wanted rain a short time since.

IF YOUR BACK ACHES Or you are all worn out, really good for nothing is in general debility. BROWN'S IRON BITTERS. It will cure you, and give a good appetite. Sold by all dealers in medicine.

Mr. T. J. Pirtle, who has been in Pineville and Alexandria for the last three or four years, has been in Colfax for the last few days. We understand that he is an imputation, as it were, brought on by parties who feel interested in having him put in charge of the Colfax postoffice.

Bro. Hoffpauir writes us word that he has had a fine meeting at Holloway's; that there were 27 accessions to the church up to Thursday night, June 13th, and the meeting was to continue until Sunday night.

A Physician's Testimony. Dr. A. S. Gifford, physician and druggist of Laurel, Ind., writes: "C. C. C. Certain Cough Cure has a large sale here and gives universal satisfaction. I have found it to be a medicine of great merit, and cheerfully recommend it." Sold at Horse Shoe drug store.

Mr. Reub. Garrett is now installed as salesman at J. H. McNeely's brick store, and will be pleased to meet his many friends at the old stand where his face has been so long familiar. He boasts of being able to sell goods as cheap as the cheapest, and when it comes to being polite and agreeable he holds his own with the best.

FOR THE BLOOD. Weakness, Malaria, Indigestion and Biliousness, take BROWN'S IRON BITTERS. It cures quickly. For sale by all dealers in medicine. Get the genuine.

After plumping a pistol ball into the short ribs of Uncle Harry Shaddock, for laboring him over the head and body with a wagon standard, Wm. Milton went and swore out a warrant against himself and then brought it up himself and surrendered to the sheriff. The principals are colored, and live on Mr. T. K. Smith's place. The unique document of arrest and commitment was issued by Felix Boyd, the colored justice of the peace for the first ward of this parish.

Bucklen's Arnica Salve. The best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by C. C. Nash.

The exparte action of Postoffice Inspector Hancock, two weeks since, in forcing Mrs. Grow, postmistress at this place, to pay \$100 in return for money lost from a registered letter, appears to us to have been rather high-handed and unwarranted, unless further investigation and proof had been made by him. We don't believe there is any law authorizing a postoffice inspector or any other official in this country to exercise his own sweet will in fastening responsibility and blame, and we hope to see this matter given a more thorough investigation. While the Inspector may have satisfied himself, there are very few persons in this community who believe he had authority or warrant for his harsh action.

Mr. Robert H. Wynn, who lately graduated at the Centenary college, at Jackson, La., has received the most flattering testimonials as to his character and attainments. The president of the college, Rev. W. L. C. Hunnicutt, says of Mr. Wynn that he graduated with the highest honors of the college, and with the warmest appreciation of all his teachers. As a scholar, a gentleman and a Christian he is commended to the confidence of all. We are glad to know of the credit Mr. Wynn has done himself at school, and feel sure his many friends about Montgomery will join us in congratulating him. He will have charge of the Union Grove school, in the Patrick Smith neighborhood, during the summer, after which we learn he is to go to Alabama to take a position in one of the schools of that State.

Struck by Lightning.

While the heavy electric storm was in progress about dark last Tuesday evening the front of the brick building occupied by Mr. J. H. McNeely as a store was struck by lightning. At the time Mr. J. H. McNeely and Mr. J. M. Rhorer, Jr., were in the store, while Messrs. W. J. Duffy, John L. Hawkins, L. McNeely and Dr. P. Goode were on the front gallery. All of the parties were considerably shocked, Messrs. Duffy and L. McNeely being knocked senseless and supposed to be dead for several minutes, not reviving until after they were carried into the room at the side of the building. Mr. Duffy was the most severely hurt, not yet having recovered the use of himself entirely, his right side, hip, leg and foot being considerably bruised and partially paralyzed. The whole front of the shoe on his right foot, which was a nearly new brogan, was burst into strips, and the sole was ripped off half way back to the heel. The great wonder is that any of the parties escaped with their lives, and in Mr. Duffy's case it seems almost a miracle that he was not killed.

The lightning appears to have struck an iron rod on top of the brick wall, which forms the front of the building, and part of the current seems to have gone down the front of the wall, shocking those on the gallery, while the other part went on the inside of the store and spread itself around promiscuously over eight or ten shelves of canned goods, etc., and a portion of the floor. Several of the upright pieces between the shelves were splintered, two or three boxes of cigars were broken open and the cigars riddled, the labels on two or three dozen cans of oysters and lobsters were torn into ribbons, the tops of all the cans having the appearance of having been powder burnt, several bottles of pickles were broken, and a couple of dozen sacks of Durham tobacco were peculiarly riddled and puffed out, as though a load of bird shot had been fired through them. A can of powder sitting between a box of soap and starch was not injured, while the two boxes were burst into splinters.

Mr. J. H. McNeely, who was close to the counter on the side where all this damage was done, says he was only slightly shocked, while Mr. Rhorer seems to have been more affected by the lightning, which made him quite sick and caused him to vomit two or three times during the night and the next day. It is a little curious that those inside of the store should have been injured so little. Mr. McNeely says the noise in the room was terrific, and an odor resembling powder and brimstone pervaded the room for half an hour after the occurrence.

Try BLACK-DRAUGHT tea for Dyspepsia.

Fortune favors the wide-awake, and for this reason our people ought to turn out in force and show up in a live energetic railroad meeting in Colfax next Saturday.

The bridge across the Darro is to be 160 feet long, the ends of the abutments to be on top of the natural banks on each side of the bayou, benches not to be more than twenty feet apart, the two spans next to the abutments to each have a rise of one foot to the span, giving a level stretch across the center of the bridge two feet higher than the ends of the abutments. Mud sills to have not less than 12 inch a face, and to be of good heart cypress. Cap sills and bench timbers to be mortised and pinned and not less than 8x10 inches, and braces to have a slant of 3 inches to the foot. Sleepers to be not less than 4x12 inches, 22 feet long, with 1 inch jog on cap sills. The floor of the bridge shall be 12 feet wide and rest on five (5) sleepers for its entire length. Flooring to be 2x6 inches, 12 feet long, and spiked down, with one-half (1/2) inch space between each plank. Every eight (8) feet a plank 2x6 inches, 16 feet long, must be used, on which the banister stanchions and braces are to rest. Banisters to be four (4) feet high with 3x4 inch mill and standards and braces every 8 feet, and four plank 1x6 inches to be nailed between the railing and floor of the bridge.

The bridge across the Rizolet's is to be 216 feet long, and built out of same sized timbers, and in accordance with the specifications for the Darro bridge, except that the abutment at the east end of the Rigollet bridge should be on a level with the center spans of the bridge. All timbers to be of good heart pine or cypress, and the building to be done in substantial workmanlike manner. The contractor or builder to give a good and solvent bond for the completion of the work and guarantee the bridge for five years. Building Com. H. G. GOODWYN, J. H. McNEELY, W. J. TISON.
