Speaking of the value of the State's cut-over lands, the Lumber Trade Journal points out the fact that the largest yield of corn per acre was grown on the cut-over hill lands of Washington parish. And it is noted by the same journal that a net profit of \$700 was realized from one acre planted in strawberries on the same kind of soil. LaSalle has thousands of acres of just such land, which can be made to yield handsome profits for any man who has the energy and will to go after it.—Jena Times.

Every family has need of a good, reliable liniment. For sprains, bruises, soreness of the muscles and rheumatic pains there is none better than Chamberlain's. Sold by all dealers.

### Mr. Payne Withdraws from Committee-man.

Montgomery, Nov. 26, 1911.

Editor Colfax Chronicle:

When the time had almost expired for the announcements of candidates, as no one from this parish had announced for State Central Committee I filed my nomination papers with Secretary Everett for same, at or about the same time Mr. R. S. Cameron filed his nomination papers also. I am glad of Mr. Cameron's announcement, for he is well qualified, and a more deserving man would be hard to find. Believing that the voters should and would take the same view of it, and act accordingly on election day, I have respectfully withdrawn, therefore my name will not appear on the ticket.

Yours truly,  
C. W. PAYNE.

### She Was Perfect in Grammar.

A school teacher instructed a pupil to purchase a grammar, and received next day this note from the child's mother:

"I do not desire for Lula Shall ingage in grammar, as I prefer her to ingage in useful studies and can learn her how to spoke and write proper myself. I have went through two grammars myself and can't say they did me no good. I prefer her ingage in german and drawing and vocal music on the pianer."

Parties visiting the city of New Orleans can find good accommodation for board and rooms with Mrs. Gertrude Knobloch, 3531 Prytanis Street.
