For Constable.
WARD SEVEN.
 We are authorized to announce
T. L. DEAN
 as a candidate for First Constable of Ward Seven, Grant parish, subject to the will of the Democratic voters in the approaching Democratic primary election.

Good Government League Calls for a Rally of the Faithful.
 According to the dope being mailed out by E. S. D. Logan, secretary of the Good Government league, "the times are ripe for another great and lasting victory for good government." Now, that is a high sounding slogan with which to call upon the "unbossed Democrats," to whom it is addressed, but we very much doubt its effectiveness in the present campaign. The unbossed Democrats who took part in the last victory are most of them somewhat sore over the "fruits" of their victory. It is a case of hope long deferred making the heart sick.

Corn is King in Louisiana.
 The corn crop of Louisiana for 1915 is estimated at fifty million bushels. Valued at the low price of 70 cents a bushel it is worth \$35,000,000, which is several millions more than the State's entire crop of sugar—twice as much as the crop of sugar in some years.

In addition to the bumper corn crop, which is two per cent for the entire United States, Louisiana has raised 890,000 bushels of oats, valued at \$228,000. Other products which increased in yield during the year, besides corn and oats, were sweet potatoes, rice and watermelons. A decrease was noted in hay, Irish potatoes, sugar cane and stock hogs.

Discussing Saving Sweet Potatoes.
 The Alexandria Town Talk, in its issue of Sept. 22, speaks of Mr. R. R. Claridge, agricultural agent of the T. & P. railway, being in Alexandria for the purpose of getting information relative to the sweet potato crop. Note is made of the fact that Mr. Claridge says that unless there is some provision made to hold the crop for a few weeks or months that it will be almost a total failure. Town Talk then says:

"There is a company using a patented process with large storage warehouses at Longview, Texas, and other points, which is spoken of most favorably as being able to prepare sweet potatoes for keeping twelve months or more in perfect order. The government process, which is represented by Mr. Connolly of the United States Department of Agriculture, is also mentioned to our people. They must select for themselves. The main burden of this article, however, is to awaken the people to the necessity of doing something along this line. There is said to be little or no market now for the potatoes, but if held in good order a few months they will bring splendid returns."

Town Talk is perhaps mistaken in referring to the plant at Longview, Texas, as using a "patented process" to preserve potatoes. We are of the opinion it is the identical process used by Prof. Beeson, of the Meridian, Miss., college, where they have saved from 1500 to 2000 bushels of potatoes for several years past by the process of kiln drying the potatoes whole, big and little, by a process described in Farm and Ranch. We will print this article at an early date.

His Rest Was Broken.
 O. D. Wright, Rosemont, Nebraska, writes: "I was bothered with pains in the region of my kidneys. My rest was broken by frequent action of my kidneys. I was advised by my doctor to try Foley Kidney Pills, and one 50 cent bottle made a well man of me." They relieve rheumatism and backache. J. W. Duncan Co.—Adv.

The Greatest of All World Wars.
 The great European war drags its cruel way along and millions of men continue their fierce efforts to slay each other, with seemingly no end in sight. The seven big nations, England, Russia, France and Italy, opposed by Germany, Austria and Turkey, since the conflagration started by little Serbia, stand like so many gladiators glaring at each other with murderous intent, while Belgium and Poland lie bleeding between. Meanwhile Bulgaria is threatening to go into the war on the Kaiser's side, in which event it is very likely that Roumania, Greece, Montenegro and Bosnia will side with the English and French allies, in order to thwart Bulgaria's designs to acquire their territory.

C. J. Calhoun for Assessor.
 The name of Chas. J. Calhoun is presented to the Chronicle readers this week, as a candidate for the assessor's office, subject to the regular Democratic nomination by primary election. Mr. Calhoun is a native of Grant parish, was born Sept. 20, 1888, and has just completed his 27th year. He attended the Verda high school, the Baptist College at Pineville, and also took a business course at the Ruston Industrial Institute. His educational qualifications are ample in all particulars, he having taught in the public schools of Grant parish for five years.

Mr. Calhoun was reared an orphan, and the support of a numerous family was imposed upon him early in life. He is of the material that makes successful men, and made good and also attained his education under adverse circumstances. His neighbors respect him and have confidence in his business ability, and he has a wide circle of friends who will give him a hearty support for the office to which he aspires. If elected he can be relied upon to give a good account of himself both as to the duties of assessor and the satisfaction of the general public.

The Panic of the Majority.
 Inasmuch as the rural parishes—so-called—are in the majority, it strikes us that the expression of constant fear of the "city bosses" on the part of the balance of the State is a confession of weakness of which we should be ashamed.—Ruston Leader.
 The constant cant about city ward bosses indulged in by many country politicians and newspapers is both silly and hypocritical. The so-called "bosses" of the city are the exact counterpart of the political bosses in the country. A successful politician of the city maintains his position by making good in the eyes of the voters, just like the politician in the country. The city boss and the country boss are on an exact par with the country boss and the country voter. Put them in a sack and shake them up and you will find that one is neither worse nor better than the other.

The Colds of Mankind Cured by Pines.
 Have you ever gone through a typical pine forest when you had a cold? What a vigorous impulse it sent! How you opened wide your lungs to take in those invigorating and mysterious qualities. Yes, Dr. Bell's Pine-Tar-Honey possesses those stimulating qualities and overcomes hacking coughs. The inner lining of the throat is strengthened in its attack against cold germs. Every family needs a bottle constantly at hand. 25c.—Adv.

O. C. Watson for Police Juror of Ward Four.
 We announce the name of O. C. Watson as a candidate for reelection to the office of police juror for ward four. Mr. Watson has filled the position of police juror for the past four years with evident satisfaction, as the citizens of his ward at a meeting endorsed him and recommend his election. He is a good representative citizen, conservative and safe in his deliberations, prompt in his attendance on meetings, and if re-elected can be relied on to perform his duties satisfactorily.

South Carolina adopted State-wide prohibition on Sept. 14, to take effect Jan. 1, 1916. Of the thirty counties which were "dry" under the local option system, everyone of them are said to have voted for State-wide prohibition. Some of the counties operated under the dispensary system, but after trying both systems a big majority of the voters decided in favor of prohibition for the entire State.

The Lumber Business Looking Up.
 The Lake Charles district and other lumber centers report increased activities of all the mills, which are now running on full time. The same condition of things is noted at Colfax, Alexandria, and other centers, and with the price of lumber steadily increasing the mill folks have entirely recovered from the industrial depression that has prevailed for the past year.

Cotton ruled at 11 cents for middling in New Orleans on September 21, and the indications are that it will go still higher. A short crop is now assured, and the bulls have been walking over the bears unmercifully since they have the upper hand in the market.

Dixie Pharmacy Burglarized.
 A burglar broke the glass in the front door of the Dixie Pharmacy Tuesday night, through which he entered the building and appropriated a lot of opium and morphine tablets. He seems to have ransacked the premises thoroughly, as burnt matches were found in all parts of the store, where he had struck them to make light. While breaking the glass out of the front door he evidently cut his hand, as there was blood in a number of places in the store. Mr. Tooraen, proprietor of the pharmacy only missed one-sixteenth ounce of codine and about 25 codine tablets. Dr. Blackwood's drug satchel was found open, and he missed a lot of tablets prepared with opium and morphine.

The burglar seems to have been a "dope" fiend, and in his search for the drugs he wanted showed a pretty thorough knowledge of drugs. Mr. Goins, the jeweler, who has his bench at the front window, says he misses four cheap watches, which seems to be the only thing of value taken besides the drugs.
 We hear that Dr. J. L. Woodall's drug store and the apothecary shop of Dr. J. C. Chapman have also been broken into lately and a lot of morphine preparations stolen. This leads to the belief that all of the burglaries have been committed by some person addicted to the morphine habit.

JUVENILES GIVEN NUMEROUS AWARDS.

That there has been wonderful development in agricultural extension work in Louisiana, especially through the education of the boys and girls of the farms, will be demonstrated by numerous boys' and girls' club exhibits at this year's Louisiana State Fair, November 3 to 8 inclusive. The various reports reaching the association's headquarters indicate that the display by the juvenile farmers this year will surpass all previous displays. In order to encourage the continuation of this splendid activity, premiums aggregating \$2,500 in cash, besides a number of special awards, will be distributed.
 These premiums will be awarded to the best exhibitors in the boys' and girls' corn and pig clubs, the canning clubs, the domestic science clubs, the agricultural high schools, and in the corn, livestock and plowing contests, in which judging by boys and girls will be the features.
 Ever since the organization of the Louisiana State Fair interest among the boys and girls of the state has been growing. The rivalry shown through exhibits and contests at the fair at Shreveport this year promises to eclipse all former competitions of this nature.
 All possible conveniences for the accommodation of the boys and girls will be provided. Prof. E. S. Richardson of Baton Rouge has charge of all extension work for the juveniles.

Truck Work on Grant's Model Roads.
 The good roads truck and grader has now been at work on the model roads of Grant parish about a month, and an idea of its usefulness has been amply demonstrated during the month which has made the roads extra hard and greatly impeded work.
 Road Superintendent John D. Givens reports that he has gone over the road to Pollock, and is now at work on the road to Montgomery. The first seven miles of the Pollock road was worked in seventy hours, at an average cost to the parish of \$10 a mile. The last six miles next to Pollock were gone over in about forty hours. He says if the truck is kept in good order he can average from 1 1/4 to 1 1/2 miles a day, according to the character of the soil to be handled.

Nantachi Oil Well Drilling.
 The Nantachi Oil & Gas Co. got their drilling apparatus in position last Saturday evening, and on Sunday tried their rig to see that all was in good shape by boring to a depth of forty feet. On Monday Contractor W. F. Corley started drilling operations in earnest, his rotary working in fine order, and by Wednesday evening he had drilled to a depth of 300 feet, which has been materially increased since then. This well is located about six miles from Colfax, in a north-westerly direction, and the indications for oil at this point are said to be numerous.

A Slight Decrease in 1915 Assessment.
 The assessment of Grant parish as returned by Assessor Murrell was \$4,224,248. The State board of equalizers have reduced this assessment \$6,505, leaving the valuation \$4,217,743. The board increased the assessment of cattle 50 per cent, the former valuation of \$5 being raised to \$7.50. Class A pine lands were raised 14 per cent; class B lands raised 13 per cent; while lumber on the yards was decreased 20 per cent. Goats decreased 25 per cent.

WOMEN.
 The safest liver medicine which you often need is Po-Do-Lax. Headaches, biliousness and dizziness caused by constipation readily yield to this "May Apple" laxative. Remember that it is non-gripping and easy in action. It arouses the liver and increases the flow of bile without sickening effects. Get over that irritability by removing the cause—constipation. No gas, no fermentation, no pain. Po-Do-Lax, the perfect woman's laxative. 50c a bottle.—Adv. 3.

Let H. C. Faraldo order your fall and winter suit of clothes, and receive **QUALITY and SATISFACTION.**

Lost.
 One note for \$500.00 signed by J. W. Duncan, with \$300.00 stock certificate Colfax bank and \$1000.00 stock certificate J. W. Duncan Co., Ltd., attached thereto. The public is warned not to buy, sell or handle these papers in any way, as duplicates have been applied for.
 sept18-1f J. L. KEES.

Did the Old Man Good.
 Geo. W. Clough, of Prentiss, Miss., is seventy-seven years old and had trouble with his kidneys for many years. He writes that Foley Kidney Pills did him much good. He used many remedies, but this is the only one that ever helped him. No man young or old, can afford to neglect symptoms of kidney trouble. J. W. Duncan Co.—Adv.

Sheriff Sale.
 State of Louisiana, Parish of Rapides, City Court, Alexandria Ward, No. 2106.

G. W. Kees vs. Mrs. Emma Waddell.
 By virtue of a judgment issued out of the Honorable City Court of Alexandria Ward, Rapides Parish, La., and to me directed in the above numbered and entitled suit, directing and commanding me to seize and sell the property of defendant, I have seized and will offer for sale at the principal front door of the court house in Colfax, La., between the hours prescribed by law for judicial sales, on

SATURDAY, Oct. 30, 1915,

DIXIE

Pharmacy

50c. and \$1.00 All Druggists

Tired!

Are you tired? Run down? Nervous? Is everything you do an effort? No! It is not business. You are ill. Your system needs a tonic. Your stomach, kidneys and liver need stirring up. Nothing will do this better than

Electric Bitters

50c. and \$1.00 All Druggists

No. 666

This is a prescription prepared especially for **MALARIA or CHILLS & FEVER.** Five or six doses will break any case, and if taken then as a tonic the Fever will not return. It acts on the liver better than Calomel and does not gripe or sicken. 25c

A Traveling Man Cured

P. B. Counterman, a traveling man of Joplin, Mo., writes: "I twelve years ago I was a great sufferer from stomach trouble. I tried nearly every medicine I could hear of, among them I used fifteen bottles of one popular preparation, but never found anything that did me any permanent good until I took Chamberlain's Stomach and Liver Tablets, which have effected a permanent cure. It has not been five years since I took these Tablets, and I have had no more stomach trouble during that time. I have recommended Chamberlain's Tablets to a great many sufferers with stomach trouble, and have had many cured, and have had many cured of the stomach as they have to do with all kinds of half-cured stomach trouble, different country brands, and a host of other causes of it."
