ALFALFA AS A REFRIGERATOR

Planted Around Farm Houses It Has
Been Found to Reduce the Tem-
perature Materially.

Refrigerators indoors are common
enough, but it took the farmers in the
Southwest to devise one for outdoor
use.

A farmer who happened to plant a
large field of alfalfa south of the
farmhouse noticed during the hot sum-
mers that followed that his family
did not suffer from the heat as did the
neighbors. The thermometer showed a
temperature five to ten degrees in his
favor.

Someone suggested that it might be
due to the alfalfa, tried the tempera-
ture just north of other alfalfa fields
and found the same marked difference.
Now the farmers of that region are
planting alfalfa around their dwell-
ings and enjoy summer temperatures
that make a trip to the seashore need-
less, according to the Golden Age.

The cause of the coolness of winds
passing over alfalfa fields is that the
plant absorbs much moisture, the
evaporation of which reduces the tem-
perature of the air and lessens the
summer heat, in the adjoining land
over which it blows.

The suggestion now is for farmers
that wish to profit from the presence
and the board money of summer va-
cationists to combine the profit and
utility of alfalfa with higher rates
from hot-weather boarders attracted
by the coolness of the ten-acre refrig-
erator around the house.

Little by little men are beginning
to learn how to utilize the means pro-
vided by a good Creator for their com-
fort and well-being.

HE HAD LEARNED SOMETHING

Christmas Incident That Shows the
Way of a Modern Maid With
Her Victim.

He was a very nervous young man,
but he was rather nice, and Elsie
thought he was worth encouraging.

She allowed him to take her to tea,
she deliberately chuckled the slipper
in his eye at "Hunt the Slipper," and
she gave him a dance or two. Once
on twice she sat down under the mis-
tletoe, but he didn't seem to notice
that.

At last when they were alone in
a corner of a room, she stood long
and insistently under the mistletoe
hanging from a curtain pole of the
bay window.

Then, very nervously, he pecked her
face. She, of course, protested mild-
ly; but as they seated themselves once
more, most respectfully on a couple of
chairs, she kept the conversation on
mistletoe.

At length he ventured: "It is—er—
a nice Christmas custom, hanging up
mistletoe, but I wonder why they al-
ways hang it over doors, windows or
chandeliers?"

"Because it's not necessary to have
any out on the stairs or in any other
dark places," she murmured softly.

In Praise of Writings.

Books are our crowning privilege in
modern civilization. With a taste for
books and music, let every person
thank God, night and morning, that
he was not born earlier in history.—

Scents in Wood.

With the woods of the world to
choose from, one can easily arrange
a whole scale of scents from the
sweetest and most delicate of per-
fumes at one extreme, to rank and
overpowerful odors at the other, says
the American Forestry Magazine. The
scores of the perfumer's shop will not
yield a greater variety than one can
find in woods.

She States It Mildly.

While suffering with a severe attack
of the grip and threatened with pneu-
monia, Mrs. Annie H. Cooley, of Mid-
dlefield, Conn., began using Chamber-
lain's Cough Remedy and was very
much benefited by its use. The pains
in the chest soon disappeared, the
cough became loose, expectation easy
and in a short time she was as well as
ever. Mrs. Cooley says she cannot
speak too highly in praise of the remedy.

Says Troubles Are Over

"I Want All My Friends to know
What Tanlac Done for Me,"
Says Ennis.

"A gain of thirteen pounds in
weight and good health is what
Tanlac has meant to me, said
James Ennis of Miller, Miss.,
while in Memphis the other day.
Mr. Ennis is a well-known pump-
ing engineer for the Frisco rail-
road, and has a host of friends
and acquaintances throughout
this territory.

"Two years ago I was just
about as bad a sufferer as you
ever met with. Everything I ate
so nauseated me that it was the
hardest kind of a matter for me
to retain a thing on my stomach.
My appetite was so poor I could
only force myself to eat very lit-
tle, and even this soured and
caused me to suffer terribly from
indigestion. I was weak for the
want of nourishment, my blad-
der was all out of order and I
bad awful pains in my back. I
was also bothered a great deal
with constipation and became so
dizzy that at times I could hard-
ly stay on my feet.

I was located near Holly Spring
Miss., at this time, and got hold
of Tanlac, and by time I got
started good on the first bottle I
could tell it was bringing me
right up. Well, sir, two bottles
rid me of all my ailments, built
me up thirteen pounds in weight
and made a well man of me. I
have been enjoying fine health
ever since, and I want all my
friends to know what Tanlac will
do for a sick man like I was."

Tanlac is sold in Colfax by the
Dixie Pharmacy.

Why Suffer?

Cardui "Did
Wonders for Me,"
Declares This Lady.

"I suffered for a long
time with womanly weak-
ness," says Mrs. J. R.
Simpson, of 57 Spruce
St., Asheville, N. C. "I
finally got to the place
where it was an effort for
me to go. I would have
bearing-down pains in
my side and back—es-
pecially severe across my
back, and down in my
side there was a great
deal of soreness. I was
nervous and easily up-
set.

TAKE

CARDUI

The Woman's Tonic

"I heard of Cardui and
decided to use it," con-
tinues Mrs. Simpson. "I
saw shortly it was bene-
fiting me, so I kept it up
and it did wonders for
me. And since then I
have been glad to praise
Cardui. It is the best
woman's tonic made."
Weak women need a
tonic. Thousands and
thousands, like Mrs.
Simpson, have found
Cardui of benefit to them.

DYEING CLEANING PRESSING REPAIRING

Cannot Scorch or Burn
HOFFMAN
Steam Pressing Machine
Absolutely Sterilizes Your Garments

Did you ever stop to consider the fact, that in your daily walks around
town, thousands and thousands of disease germs are blown onto your
clothing?

The dust laden air contains millions of tiny micro-organisms which
are a deadly menace to the health of the community. These germs find
lodgment in your garments and are carried home to cause sickness and
distress in your household. Many serious epidemics start in this way.

The pressure of steam that we use will kill all germs, such as small
pox, etc., where the hand iron will not.

In our shop, all garments are pressed on a modern, up-to-date, Hoff-
man Steam Pressing Machine.

This machine is equipped with a powerful vacuum attachment which
draws all dust and dirt out of your clothing, leaving it fresh and clean;
then they are given a liberal application of hot, dry, steam, which
raises the nap of the cloth, removes unpleasant body odors, and gives
the garment a most pleasing appearance of newness.

Through the use of the Hoff-Man machine, it is possible to exert a
pressure of one thousand pounds on garments being pressed. This as-
sures sharp, lasting creases.
