The Remington Cubs get them with the center of the load

REMINGTON-UMC
ARROW SHOT SHELLS

SPEED—SPEED—and again, SPEED

YOUR object in shooting is to get your bird with the center of your load. Of course! Then shoot these Steel Lined Speed Shells.

They are the fastest shells in the market. Their speed is demonstrated beyond question by the one sure test in all ballistic matters—the Electric Chronograph.

Then, too, there is the experience of thousands of seasoned gunners who have been shooting the Remington-UMC Steel Lined Shells ever since they came out.

The steel lining is the thing. It grips the powder—holds it in compression—puts all the drive of the explosion behind the shot.

Your load travels quicker—you shorten your lead. You cut down the guess work on lead and angles—you get more birds.

Your dealer carries these speed shells. Get them. Use them. Find the Red Ball mark on every box of shells and metallics you buy.

The Board of Aldermen passed an ordinance at its last meeting, authorizing the building of a plank walk from the business section of town to the depot. To assist in this work the Boosters' Club has contributed the amount of \$50. This is certainly a good move, and when completed, the walk will add materially to the convenience and appearance of this part of the town.

Pool Held Without Bond.

The preliminary trial of Dittimus Pool, charged with killing Monroe Warner of the Second Ward of this parish, was heard Saturday by Judge George Wear of the Thirtieth Judicial Court. The courtroom was crowded and special deputies were sworn in to preserve order. District Attorney Richey placed B. F. Howe and E. W. Radford on the stand. Both swore to having heard Pool say the Monday before the killing took place that he knew that Warner had been told several things that he had said about him, but that Warner had never tackled him about any of them. Witness Radford went so far as to say that Pool had said in substance that he would "get" Warner if he ever got the law on his side.

Both of these witnesses were within 150 yards of the scene when the shooting took place, both heard Pool and Warner talking and the shot fired, and were among the first to reach Warner's body after he was shot. They testified to the fact that they found Warner in a dying condition, and that he was lying upon his back with a hunting horn clasped in his right hand, and that his left hand was shot through the fingers, showing that he could not have been in the act of drawing a weapon when he was shot. The bridle which was worn by Warner's horse on the morning of the killing was produced in court, identified and offered in evidence. Its reins were punctured by bullet holes.

The only eyewitness to the deed was a little negro girl about six or seven years old. She said that she heard Warner curse Pool, and that she saw Pool shoot Warner. Other witnesses testified that Warner was unarmed when he was shot. The case was submitted without argument on either side, and the court immediately gave a decision refusing bail to the prisoner, remanding him to jail, and referring the case to the grand jury for action

at its next sitting here in December.

Paint or Not

Is a horse worth more or less after feed?

Hay and oats are high today; shall I wait today and feed tomorrow?

That's how men do about painting their houses and barns and fences. Paint has been high for several years; and so they have waited. Paint is high yet; they are still waiting; thousands of 'em are waiting for paint to fall.

Their property drops a trifle a year and the next job of paint creeps-up creeps-up creeps-up; it'll take more paint by a gallon a year; they don't save a cent, and the property goes on suffering.

China has solved a problem which is worrying American statesmen and politicians. Instead of recalling judges the lawmakers are put to death. As bad laws are made by incapable or indifferent lawmakers the Chinese remedy appears to be a good one.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

We have been especially pleased with the character and sources of the compliments recently paid our store.

Repeatedly has it been said by visitors unquestionably qualified to express themselves upon the subject, THAT NO other large collection of furniture in this section is of such uniform merit, or as widely representative of the really best sources, or offers more generous measures of VALUE at the prices asked.

An official tour of inspection and investigation, just completed through the principal stores and shops of the larger eastern cities, gives us the best of reasons for believing that these comments have been sincere and well founded. Careful comparisons make us more proud than ever of our store, and confirm our belief that nowhere can furniture and accessories be purchased to better advantage than here.

Our buyer has just returned from his Eastern trip, where he bought the largest stock we have ever had. These goods will be coming in from day to day, so our store will be full of bright new goods. We most cordially invite you to write us about your HOME wants and to look through our various exhibits, when you are in Monroe, whether or not you may desire to buy.
