

Shoes Made for Service
For men—for women—for boys and girls
OUR FAMILY SHOES

☑ No better, all-round serviceable and satisfactory shoes can be bought for the money. We're enthusiastic about the "OUR FAMILY" Line because we know what value they represent. You will feel as we do when you see and test them.

☑ They've won their place on merit. Good-wearing, good-looking, good-fitting shoes made of nothing but good leather in specialty factories.

☑ Worthy of your complete confidence because they are "STAR BRAND" SHOES—and "STAR BRAND" sets the standard in good shoemaking today.

THE WONDERFUL AEROSCOPE. HIGHER THAN THE FERRIS WHEEL, GIVES VISITORS MARVELOUS VIEW OF THE WORLD'S GREATEST EXPOSITION

VISITORS ON THE AEROSCOPE 265 FEET ABOVE THE EARTH

THE GIANT FRAME OF THE AEROSCOPE AS IT APPEARED UNDER CONSTRUCTION

For the seeker of amusement there is opportunity a-plenty in the unique mechanical achievement, the Aeroscope, on "The Zone," at the Panama-Pacific International Exposition. The Aeroscope resembles a giant crane of a novel and intricate design, its steel construction recalling that of the Bascule bridge. At the extremity of the long arm of the crane is a two-story car with a seating capacity for 100 persons and standing room for 20 more. At the short end of the crane is a giant mass of concrete, which serves as a counter-balance for the long arm of the crane. Beneath the car are two great water tanks, which take on water or discharge it as passengers enter or leave the car, thus always preserving the balance to a nicety. When, for example, a man weighing 160 pounds enters the car an amount of water of equal weight is released from the tank, and when the passenger departs 160 pounds of water are automatically discharged into the tank below the car. The car ascends without perceptible motion, and perfect safety and a jarring ride of ten minutes is assured to passengers while enjoying this trip of 265 feet into the clouds, or four feet higher than the Ferris wheel. Two motors control the ascent and descent in conjunction with the counter-balance of the huge car, and when it reaches its extreme height it begins to swing slowly around on the wheels at its base, giving a magnificent view of the exposition, of San Francisco bay and of the city of San Francisco.

DEMONSTRATION EXHIBIT FOR FAIR.

One of the chief attractions in the Agricultural Building at the Louisiana State Fair this year, as heretofore, will be the exhibit by the Co-operative Farm Demonstration Bureau, United States Department of Agriculture, in charge of Mason Snowden, state agent, of Baton Rouge. The head office at Washington last summer gave permission for the demonstration agents to participate, and in various parishes they are working on exhibits to be placed in the demonstration department's booth.

This exhibit will be an evidence of the excellent work being carried on by the Farmers' Co-operative Demonstration Bureau, which is always striving to show the farmer how to save in the matter of expense and labor and at the same time produce better results. Improved methods of farming are emphasized. Products grown under these methods will feature the exhibit. Farmers placing exhibits in the Demonstration Bureau's booth may also use them to compete for individual premiums.

For catalogue, etc., write to Secretary L. N. Brunsgerhoff, Shreveport, and don't forget the date of the fair, November 3-8.

NOTICE.—All farmers that are going to plant wheat will please call on G. T. Martin and give him your order at once as the want to make order at once.
