Local and Parish News.

Col. Frank Taylor is with us. The planters are crying for rain. Services at the churches to-morrow. To-morrow Pentecost or Whitsunday.

Patronize Powell, the great merchant. Summer time is coming, Gentle Annie.

Washing a pig will not make it stop liking mud. The man who deliberately tells a lie will live one.

Guenard has several new drinks at his soda fountain. Services at the Catholic Church to-morrow at 10:30.

The biggest coward is the one who is afraid to do right. Representative C. S. Wyly left this morning for Baton Rouge.

Isn't the boys going to organize a baseball club for the summer? The sewing parlors of the Misses Le May are crowded every day.

It is hard to understand how a grateful man can be a stingy one. The man who succeeds as a hypocrite has to devote his whole time to it.

The delinquent tax sale takes place to-day at the Court House, as advertised. The criminal term of the 7th District Court will convene on Monday, May 21st.

Whitewash your premises. A little lime adds a great deal to the beauty of the town. Mrs. Belle Tompkins is spending a few days at the lovely home of Mrs. J. E. Ransdell.

Attend the Building and Loan Association on Monday evening, it will be very interesting. The river continues to fall at this point. It is 18 feet lower than same date last year.

The man whose head is in the clouds will often be found standing with his foot on his brother's neck. The city council met on Wednesday night and transacted a large amount of business. Proceedings in our next.

The Can't Get Away Club is adding new members every day; they are preparing to have a great deal of fun. Plow's celebrated candies, 75c per pound at Guenard's. It is the only pure candy ever sold in Providence. Go and try a 1-pound box.

Miss Mary Hamilton, after spending a few days with relatives and friends in town, returned to Vicksburg Monday evening by the Anchorline. Good many complain that the music was not very harmonious at the last ball; even one wanted to know if they did not keep a cow in the orchestra.

The Building Association has done one good thing in this town, it has brought down the rent of houses so that a poor man can afford to live in town. Our two enterprising citizens, Messrs. Hamley & Ransdell are thinking very strongly of moving their large saw mill plant from the swamp to town.

"If you want to be miserable, think about yourself, about what you want, what you like, what respects others ought to pay you, and what others think about you." It will soon be a year since the terribly Wylie crevasse occurred. The levee broke on Tuesday, May 28d, and the water quit running through the crevasse on July the 4th.

Col. E. W. Constant and Dr. W. E. Lopp were visitors to the burg on Thursday. We were pleased to greet them. They report crop prospects bright in the second ward. We were glad to see Miss Ethel Foster out on Tuesday last, slowly recovering from the painful accident she experienced a few days ago. We understand she suffered excruciating pains. Our friend Max Stockner has been quite sick for the past few days. We are glad to learn it is nothing serious, and he will be able to be out in a few days attending to his large planting interests.

The Right Reverend Davis Seamus, Bishop of the Diocese, will administer the Apostolic Rite of Confirmation in Grace Church on Tuesday, the 22nd instant. Morning service at 11 o'clock and evening at eight. The public are cordially invited.

RIVER GAUGE.

Table with columns for date, time, and water level. Includes entries for Friday, Saturday, Sunday, Monday, Tuesday, Wednesday, Thursday, and Friday (Fall of 3.75 feet for week ending Thursday, May 10, 1894).

Remarks: The river is 18 feet lower than May 10, 1893. Highest water 1893, was May 16, gauge read 41.80, and stood at 41.80 for seven days. Levee broke at Wylie's on Tuesday, May 23d. Highest water was June 1st, 1892, gauge read 41.90 feet.

CLARK N. HALL, Asst.

The Misses Stern of Maversville, Miss Rosalie Winters of Leota, Miss, and Mr. A. S. Cades of Perry, I. T., are the guests of the Stockner family of Longwood. We wish them a pleasant visit.

Dr. Stewart will only remain a week longer, and our citizens wishing dental work done should call immediately. The Doctor has been kept quite busy since his arrival in town. He would remain longer, but has appointments at other places to fill.

Hogs and pigs are rooting up again the sidewalk at the Cemetery; any one killing them will be rendering a service to the community, and, according to an ordinance passed last year by the Cemetery Commission, is entitled to a reward of \$1.00 which will be promptly paid to him by the Cemetery Commissioners.

Mr. C. S. Wyly went over to Floyd on business last Friday, returning on Sunday. He reports that the entire parish is a unit for Hon. C. J. Boatner for the U. S. Senate, and that a public meeting of the citizens of the parish was called to meet in Floyd last Monday to endorse him for the position and instruct the parish Representative, Hon. S. T. Jackson, to cast his vote accordingly.

Is your life worth 50 cents? Dumb Child! Ague!! Congestive Chill!!! Death!!!! This is the evolution of your chilly sensation. Plantation Chill Cure will cure you. Sold by Guenard drug store.

The white public school of Providence, closed yesterday evening for the session. The exhibition given last night at the Armory was well attended, and the children recited their speeches, dialogue, &c., magnificently. Quite a nice little sum was realized, which will go towards purchasing a dictionary and other things very much needed in the school.

Sales of Plantation Chill Cure exceeded all other chill preparations together. Every bottle guaranteed. Try!! Sold by J. S. Guenard drug store.

As far as heard from, the crops throughout the parish are doing nicely. The stands of cotton are good, and the corn looking well. More corn has been planted than ever before by the planters of East Carroll, which is one of the most essential things, and most expensive, when you have to purchase every ear of corn to make a crop, at the prevailing low prices of cotton. Make your own corn and raise your own meat, and you will find money in farming, otherwise it will be a failure.

When you feel tired, lazy and generally no account, cleanse your blood with Plantation Sarsaparilla and Iodide Potash, and start your liver with Plantation Pills. Sold by J. S. Guenard drug store.

Complaints have been made of late that the flowers are gathered on private lots at the Cemetery, and even pulled by the root. Visitors at the Cemetery should remember that each lot is private property, and that they have no more rights to gather flowers on them than they have to do it in the yard of private individuals. All property should be respected, and especially the abode of the dead. Let all offenders bear in mind that the Cemetery Commissioners are determined to prosecute as trespassers any one who will permit himself to cut flowers on the ground.

Have you tried Plantation Liver Pills for habitual constipation? They are perfectly splendid and a sure cure. Sold by J. S. Guenard drug store.

Mr. J. E. Ransdell and several gentlemen belonging to the Can't Get Away Club are building a boat and bath house on the lake in front of Mr. Ransdell's residence. It is intended to accommodate several boats, with mechanical appliances to lower them down in the water, and it will have besides a couple of rooms where the gentlemen and their guests can unrobe themselves, preparatory to a dip in the cool water of our beautiful lake. What need have we to go to a water resort, when Providence lake, with its clear and limpid water, is at our door? The Can't Get Away Club has enlisted this year more members than ever. That best of mechanics, Mr. Fousse, is building the club-house, and we know that he will make it nice, convenient and comfortable in every respect.

A reputable merchant cannot afford to urge and guarantee a worthless article. Plantation Chill Cure is sold and guaranteed by J. S. Guenard drug store.

A K. of P. charn was picked up on our street last week and left at our office. If the owner will call, he can get it by paying a small reward to the finder.

The meeting of the Fifth District Levee Board, which was called to meet at Delta on Monday last, was postponed to next Monday, the 14th, on account of the bad accident which befell its President, Hon. W. H. Ogden.

Plantation Sarsaparilla and Iodide Potash is simply wonderful in its effects, and small size only 50 cents. Sold by J. S. Guenard drug store.

THE MARSHAL'S SALARY.

The decision rendered by the Supreme Court on the Whitaker case in New Orleans virtually ends the Hamilton case against the corporation, and the Mayor and Board of Aldermen will have soon to order an election to elect a marshal. The Banner-Democrat would respectfully call the attention of the Board to the marshal's salary. As fixed several years ago, the salary of the marshal is now \$65 a month and perquisites, making in all about \$85 a month, and for these hard times it is entirely too much. We have never said anything in this matter before, because the incumbent of the office would surely have taken it as a personal attack on him, but now that the office is practically vacant, and we know not who will be the numerous candidates competing for it, we can well call the attention of the Board to this matter without injuring any one. In our estimation, if the Board do decide to change the salary of the marshal, it ought to be done before the election, so that a man running for the office would know exactly what salary he ought to expect, and would not be disappointed and maddened by having it reduced afterwards.

The Providence Lumber Company have been hard at work lately cleaning Tensas bayou, preparatory to moving their mill in town. They had a long and tedious job of it, on account of so many logs that had either fallen across the bayou, or had been felled into it, and tree-tops, branches and limbs, that had been thrown therein as a regular dumping hole. On Wednesday evening, however, they came out to the bridge and have now a channel for their mill to the Tensas bridge. By this time their dam-gate is down and by Monday morning, if it all goes well, they will begin moving logs. The proprietors of the mill evinced in this a great deal of enterprise and public spirit; of course, they will be the first ones benefited by it, for they will spare hauling, which is a considerable item; but our town will also derive a great deal of profit from it. The mill in town means that the 15 or 20 regular employed hands will live in town with their families; it means about \$150 or \$200 in cash money paid out at the mill every week to be spent in town. As the business increases, which it is bound to do, for situated on the bank of the river, they will solicit orders up and down, which they could not do before, and as they intend to add shortly a planer and a tongue and groove machine to their outfit, their forces will have necessarily to be more numerous. It will necessitate a few skilled mechanics who will have to settle among us. The Banner-Democrat hopes that their enterprise will be a success; they certainly deserve to succeed.

We were on Lake street on Wednesday evening abreast of the Firemen's Hall, when we heard some hallooing about the drugstore, and saw the negroes flying in that direction. For a moment, we thought it was fire, until we saw a jubilant crowd of merry young men, coming out of the store with laughing faces, surrounding Albert Brock. Why? He had won the big Firemen's cake at the drug-store, and his friends were giving him mighty congratulations. Albert's face was beaming, his eyes dilated, a broad smile on his lips; he shoved his hat on the back of his head, straightened his choker, struck a bee line down the street, then to the left down the little path that he knows so well, and the last we saw of him, he was on the common gesticulating like a crazy Frenchman, repeating to himself: My little heart! And I to be a corporal of his field. And wear her colors like a tumbler's hoop! What I love! I seek a wife!

Utterly forgotten, their lives unknown, their books unread, their struggles unappreciated. Did their devotion to knowledge repay them? Certainly, it did. James Payne has truly said that "Literature is its own exceeding great reward." The difference between it and worldliness is, that debarring all ends, there is pleasure in the means of one and misery in that of the other. The personally ambitious statesman speaking to a multitude whom he wishes to sway but of whom he is not certain, is anxious and irritated and alarmed. The real student bending over the book of his heart is for the time-being at least, most happy. And right here, it would be well to make the distinction between objects that are worthy of high prices and those that are not. Any aim noble in itself, as art, or oratory, or politics, or philanthropy, is worthy of a life of sacrifice, if it is followed only for itself; that is, disinterestedly.

The man that works for the good of his nation is a hero, whether he is successful or not; the man that sacrifices eternal principles of right to the gaining of transient power is short-sighted and foolish. He pays an exorbitant price for an utterly useless bauble. But to return to the fine arts. We all know that if they are equal in value to the prices people pay for them, there is yet another investment better still, because it yields abundant interest. Of course this other investment is advertised under many different names. Some people call it charity, some kindness, some humanitarianism, and some give it the broad, just name of Christianity, a name that comprises the meanings of all the others, and very much more besides. From childhood, we have heard the old, old theme, the lesson of the cup of water given to parched lips, of cool hands pressed on burning foreheads, of kind words spoken to hurt hearts,

and yet, God help and pity him to whom the lesson is true or stale. Christ standing calm and powerful on the storm-tossed waves of Galilee, or tenderly touching blinded eyes and bidding them to see, or bowing his sorrowful, thorn-wreathed head on the Cross of Calvary, is as wonderful and dear to us to-day, as He was to the sublime and simple fishermen twenty hundred years ago. Now surely, the life of the Nazarene solves for us this problem of prices. Character and helpfulness are the only attainments that do not, like Dead Sea apples, turn to ashes on the lips.

The cleaning of Tensas bayou by the Providence Lumber Company will contribute greatly to make the plantations lying along its sides more healthy than they were before. The old decaying logs having been removed from the bed of the bayou, the current is bound to be swifter, and to carry along more easily all the rubbish, dead leaves, etc., which lay there in a decaying condition. It would be a good thing, if the Police Jury would now pass a law forbidding people, living along its banks, to make it a dumping hole for every thing they have no use for. Brushes and trees should certainly not be permitted to be thrown in the current. This would apply not only to Tensas bayou, but to every water course and drain in the parish; some law or regulation should be enacted by the Police Jury, if they have a right to, by the Legislature if they have not, forbidding all persons to throw in the bayous anything that might obstruct their course and thereby diminish their draining capacity. We saw the other day the map of the New Providence, recently made by Mr. T. F. Montgomery, our parish surveyor. It's a model of precision and neatness as only Mr. Montgomery knows how to do. The map calls for 600 lots in the New Providence, located on the streets corresponding with our east and west streets from Lake to 6th street, and now Messrs. Milikin & Hamley are ready to sell a lot to any and every body. Before buying elsewhere, be sure to see them; they have lots from \$150 to \$50, 30, 25, 20, 15, 12.50, and even \$10 according to size and location, and if you have no money and are very anxious to move there, they will give you a lot. Mr. C. S. Wyly bought from them this week the lot next to his house, and several have been waiting for the map to be made in order to pick out their lot. We heard of two persons yesterday who are ready to buy, and they do not want a single lot either, they want a full square of ground. Messrs. Milikin & Hamley will open some of the streets right off. If the town has to be moved, it is bound to be moved there. The Crowley Social Club gave a reception in honor of the Louisiana Press Association on Wednesday evening. Our Sam danced to his heart's content we are very sure, and he'll tell us again as he did once before when we teased him about belonging to the church and dancing: "O, thou didst then ne'er love so heartily; if thou remember'st not the slightest folly That ever love did make thee run into, Thou hast not loved."

The Grip.

An experience with this disease during all its past epidemics, warrants the bold claim that Dr. King's New Discovery will positively cure each and every case if taken in time, and patient takes the ordinary care to avoid exposure. Another thing has been proven, that those who have used Dr. King's New Discovery, escape the many troublesomeness after results of this disease. By all means get a bottle and try it. It is guaranteed, and money will be refunded if no good results follow its use. Sold by J. S. Guenard.

Mrs. C. P. Ruple and family, Miss Lucile McCulloch and Miss J. B. Witkowski left last Tuesday on the New South, Mrs. Ruple and Miss Lucile en route for Cleveland, Ohio, to spend the summer, and Miss Witkowski to spend some time at Evansville, Indiana. Good many friends went out to see them off and regret their departure. The Banner-Democrat wishes them a bon voyage, and a speedy return. We shall miss them all while they are gone.

PRICES.

The nineteenth century is the age of achievement. No one will deny this statement. Our railroads, our innumerable electric machines, our ocean vessels, our great thriving cities and wonderful, daily press that surges with all the thought-currents of the world, are but crystallized dreams. They are the accomplished ends of many persons. They are the flags of victory that have been won, in honest, toilsome battles. The sheet of paper so smoothly folded and closely printed, which we call the "World," or the "Times-Democrat," or the "Picayune," represents the labor of hundreds of lives. When reading it, we can sometimes almost hear the incessant whirling of the intricate machinery that is used in its publication, and can almost see the tremendous offices where men sit night after night, eagerly waiting to catch the words of the last telegram, or to write the condensed editorial on the last political movement. The paper is smooth, and strong and bright; it gives much pleasure, it educates many minds—yes, and it costs a heavy price. Like all the great objects of the earth, it is made such by hard, unflagging work. Of course, we know this system of trade is as old as man. The pyramid of Cheops that has stood for forty centuries swathed by the burning sands of the desert, shows the price the ancients were willing to pay for perfect construction. Three hundred thousand men were for twenty years constantly employed in its building. Tens of thousands of them died from the intensity of the heat and the meagerness of the food; but the tomb of the Pharaohs still stands. We think it was not worth that mass of human life, any more than the anguish of the gladiators and the reckless blood of the arena. Ah! and that brings us to the point, the subject which each of us must decide for himself, in short, the subject of the real value of objects. For what in this life shall we spend our best hope and our best strength? Surely, not for worldliness. That is too cruel a contract. It asks such tremendous sacrifices and offers such miserly rewards. In imitation of Thackeray, we will sum it up as follows: A name much talked of, a bevy of men that flatter with their tongues, a little stir in the ball room or the Senator's army, a great desolation as it all fades away, and you hear the cry of "Le roi est mort," and again that other yell of "Vive le roi!" when lo! you are forgotten and your rival stands crowned! Ah, friends, it does not pay. The quivering lip that has been forced into a smile, the eyes that have been made to sparkle by holding back the tears, these efforts are worth more than the mean defeat that is sure to follow the fleeting triumph. Self-control deserves a greater prize. The price of worldliness is too high. Let us try and make a better bargain. Suppose we consider literature. Instantly, we think of the many lovers of books that have spent the most precious hours of their lives over the worn and yellowed volumes of a dusty library, and have afterwards written page after page of thoughts they hoped would cheer, and sustain, and elevate mankind. Where are they to-day? Utterly forgotten, their lives unknown, their books unread, their struggles unappreciated. Did their devotion to knowledge repay them? Certainly, it did. James Payne has truly said that "Literature is its own exceeding great reward." The difference between it and worldliness is, that debarring all ends, there is pleasure in the means of one and misery in that of the other. The personally ambitious statesman speaking to a multitude whom he wishes to sway but of whom he is not certain, is anxious and irritated and alarmed. If they rip you can get a new pair for nothing. "THE BUCKSKIN BREECHES," we mean—the best Jeans Pants on earth. It don't cost anything to look at them. Ask your dealer.

The Dramatic Performance to be given by the amateurs of Providence on Monday and Tuesday night will be the finest ever seen in Providence. We predict for them crowded houses. See programme in another column.

Contractor Hamley is getting through with Mrs. F. Ashbridge's house. We went out to see it the other day and found out that it is a good and comfortable house that will do honor to the New Providence. If you are thinking of building be sure to see Contractor Hamley.

Mr. J. E. Ransdell left at 4 o'clock a. m. on Tuesday morning for Hampton station, via Wilson's Point and Skipwith, to make the 9:30 train for Greenville, intending to attend the immigration convention that met at 12 o'clock on that day.

The stores in town are complaining of dull Saturdays, and nothing doing. The colored people are paying more attention to their crops than ever before.

Miss Mary A. Doker, our * * *, has been elected an honorary member of the State Press Association. A well-deserved recognition of her service in the cause of literature.

TRIBUTE OF RESPECT.

Whereas, It has pleased Almighty God, the Supreme Chancellor of the Universe in His divine wisdom to remove from this world our worthy brother Knight, FRASER T. WOOD, who was called away and buried in the little town of Marietta, in the Indian Territory, on the 20th of March, 1894—separated from his friends in a distant land, where he had gone in search of health and restoration of his somewhat shaken fortunes; and Whereas, It is incumbent on this Lodge to express its feelings and appreciation of the high esteem in which the deceased brother was held by this Lodge; therefore Be it resolved, That we deeply deplore the sad visitation which has produced death in our ranks, and while our feelings of regret cannot be expressed in words adequate to the occasion, we humbly bow in meek submission to our Heavenly Father, being painfully aware of the presence of that divine visitor, Death, none of whom can escape his remorseless grasp. "In the midst of life we are in death," as evidenced in the present instance, our brother little dreaming when he left this place that he would never return. "The young may die, the old must die." We are reminded of this in a forcible manner in this case, when we recall to our minds the uncertainty of being called to appear before our Maker at almost any time, as evidenced in the death of brother Wood, with whom we were all delighted to associate during his sojourn on earth and while in the midst of his brother Knights. "It is said that death loves a shining mark." He, whom his brother Knights were pleased to honor with the high and honorable position of Prelate of this Lodge, and upon whom doubtless higher honors would have been conferred, had he remained on earth and the grim reaper's death, not snatched him from our midst. We can only state that in the death of brother Wood, Providence Lodge No. 28 has lost a true and valiant Knight, Friend by Cautious and Brave in every respect, and we will miss his wise counsel in our deliberations, of which he always exhibited deep interest for the success and welfare of his lodge and brother Knights, and his place will be difficult to fill. While we mourn his death, we can only offer to his heart-broken father and orphan child the consolation that he has gone to a better world from where he will travel no more, and where the wicked cease to trouble and the weary are at rest; Be it further resolved, That a memorial page be set aside in this minute book of this Lodge, as a respect to the memory of our deceased brother; that his name, age and date of his degree be inscribed thereon, and that an engraved copy of these resolutions be transmitted to the father of the deceased, and the station of Prelate in this Lodge be draped in mourning for the period of thirty days. Fraternally submitted in F. C. and B. CHAS. R. EGELLY, W. H. SCHNEIDER, J. M. KENNEDY, April 30, 1894.
