It is now predicted that the Democratic majority for Foster will be between 40,000 to 50,000.

Walter C. Flower has been chosen by the Citizens League of New Orleans to make the race for mayor. Now let the Regulars put up a good man, with a clean record, and elect him.

His Excellency, Governor Foster, has appointed Mr. B. B. Parham of Concordia, a member of the Fifth District Levee Board, to succeed Mr. W. F. Ogden, who resigned sometime ago.

Pharr has been defined as a "conglomerated concatenation of combine, and a heterogeneous mass of fusion. With more whiskers than a mountainous billy goat, and less political common sense than a March rabbit."

The New Orleans Item thinks that it is making lots of votes for its Pharr when it says that Kellogg and Cane are helping to elect Foster. But this is about on the same truthful ground in which it states everything else.

Messrs. Garrett and Madden, who were beaten at the primaries for sheriff and clerk of Ouachita parish, and who announced last week that they would run independent, have quit. There is no doubt but that they found out what the people meant. Old Ouachita don't allow independents to be up in such manner.

Old Mad. Wells of Rapides parish is now a red hot supporter of Pharr and his bazzoo has been going off at a lively rate lately. If there ever was a more dishonest black-hearted villain than old Wells we have never heard of it. Phil Sheridan said that "he was a political trickster and a dishonest man." That he "had watched him, and his conduct was as sly as the mark left on the dust by the movements of a snake." Gen. Grant was no less denunciatory of Wells. This is the kind of men that are followers of Pharr.

SOUND DEMOCRATIC TALK.

The course pursued by the Republican candidate for governor is bearing its legitimate fruit in riots and bloodshed. He has not scrupled to advise his followers to resort to force to carry the election. When we consider that his followers are ignorant negroes chiefly, we cannot be surprised if they attempt to follow his advice. In such an event, it does not require a prophet to foretell the fearful results. For fifteen years the white and black people of this parish, and we may say of this State, have lived in the utmost harmony, and the races have prospered. The facilities for education extended to the colored people and paid for by the whites, have been unsurpassed under similar conditions. We have had disastrous overflows, and have been reduced almost to pauperism by low prices for our staple in which cases, both races have suffered alike. We cannot forget that in 1893, our gallant and wholehearted governor came promptly at our call for relief and liberally supplied the needs of the colored people, thrown upon the community without the means of living. The colored people left to themselves appreciate this treatment and cultivate the most friendly relations with the whites. Shall these relations be disturbed? The efforts of leading white Republicans, from the candidate for governor down, to arouse the negroes to try to grasp the reins and usurp control of our State and local affairs we apprehend is not entirely without success. There are those among the negroes who, like the "walking delegate" of the miners, are always ready to breed discontent in order that they may reap some private advantage through the ignorance and credulity of the honest and industrious laborer. We are not entirely free from such pests here, but fortunately they are but few and they are well known. To all such we say "beware." The white and colored people are friends. Their interests are identical. There is no cause for disagreement, and those who seek to come between and cause estrangement and race antagonism, are "sowing the wind" and will surely "reap the whirlwind."

We have not forgotten the times during the seventies when the Republicans dominated our State and parish politics, and we have not forgotten the load of debt they piled upon us and the heavy taxes they forced us to pay. The crimes and corruption that manifested themselves everywhere under their rule we have not forgotten, and we do not propose to retrace our steps and go back under such vile methods. The white people of this State will not abdicate in favor of the negroes and his white boss, all the Pharrs, the Warrens, the Kelloggs and the "Sugar Teats" to the contrary notwithstanding.

The benign rule of the Democratic party must and will continue in defiance of the unholy alliance of the Pharrs, the Adamses and the Gunbys. The white people of this parish are not less determined now than they were fifteen years ago to conduct their own affairs. We speak that which we do know; will the "walking delegate" please take notice.

Congressional Election in the Fifth District.

The Picayune says that "information received from Governor Foster, in regard to the action of the House of Representatives in declaring void the congressional election in the Fifth District of Louisiana, is to the effect that he will not order the new election to be held at the same time with the State election."

This is plainly in accordance with the provisions of law separating State and Federal elections. When elections for Congressmen were held at the same time that State officials were voted for, opportunity was given to the Federal officials to fill the polling places and dominate the elections with United States deputy marshals, while on some occasions Federal soldiers were on duty at the polling place under arms. So repugnant to the principles of a republican government was that sort of thing that laws were enacted carefully separating the State from the Federal elections.

In view of these facts, the Governor will not order the choosing of a Congressman in the Fifth District to be done at the time of the State election, but will issue a call for a special election to be held at some other time, and with as little delay as possible under the circumstances."

Nearly three million bushels of coal left Pittsburg last week for the South.

The Police Jury of East Baton Rouge appropriated \$500 to be used by the board of health in the suppression of small pox.

The white people of St. James, Iberville, Assumption, Ascension and St. John have effected a fusion on local issues and candidates, each side, Democrats and Republicans taking half of the offices and endorsing the State ticket headed by Murphy J. Foster.

STILL THE DEMOCRATIC CANDIDATE.

Immediately after the decision of the committee on the Boatner-Benoit contested election case, Col. Boatner announced that he was a candidate for re-election, and would canvass the district again. As the Democracy of the Fifth District is a unit in support of Mr. Boatner, he is still the Democratic nominee. The action of the committee in declaring his seat vacant does not rescind the action of the convention that nominated him. All that is necessary is for the Governor to issue a proclamation ordering a new election in the Fifth Congressional District to fill the vacancy caused by the decision of the elections committee.

It is useless to predict the final triumph of our distinguished and talented congressman. The people of the entire district, in fact, of the State, are up in arms against the high handed and partisan ruling of the elections committee, and are determined to re-elect their nominee again. A mere contrast of the two men is enough to cause any cultured man to turn against Benoit irrespective of affiliation. Col. Boatner is an educated, refined, high toned, brainy man, occupying the first rank in the councils of the nation, honored and respected by Congressmen and Senators of the entire Union. He reflects credit upon his native State, and Louisiana has high caste in the Congress of the United States because C. J. Boatner is there to represent her.

On the other hand, Benoit is an uneducated, unknown man, of very obscure birth and obscure surroundings. They say he lived for a long time in a small boat on the Ouachita river, or upon the banks of the river, and followed the most humble pursuits. These circumstances would not work against him, if he could rise above them, but the man has no force of character, none of that individuality and personal magnetism which often raises men from oblivion to fame. And it was the consideration of these circumstances that induced some Populists even of high standing to vote for Col. Boatner at the last election and against Benoit.

Uphold the honor of the Fifth District; send back a man to Congress who reflects in his person the high character of her citizens. Send back a man of education, caste, individuality—a man true to the principles of his party, and fearless in the expression of them, whatever may be the consequences to him personally. Vote for Boatner, the choice of the Democratic party. Let no insignificant reason or narrow prejudice bias your mind; for remember, you are not spitting Boatner by opposing him, you are working against your party and its interests.

There are thousands of men all over this great State who are supporting Foster because he is the nominee of the Democratic party. East Carroll has never been, until now, a supporter of Governor Foster; but as he is the duly nominated standard bearer of the Democratic party, it becomes the duty of every true Democrat who has the good of his party at heart to extend every effort in behalf, not of Foster personally, but of the great Democratic party.

The case of Col. Boatner's is a parallel one. There are Democrats in East Carroll who are opposed to him for some reasons; but whether their reasons are great or small, it is their duty to rally to his support, not because it is Mr. Boatner personally, but because Mr. Boatner is the choice of the Democrats for Congress. As you expect to do all in your power to elect Murphy J. Foster Governor of Louisiana, so do ye likewise by Col. Boatner. In doing so you uphold your party principles and those of your fathers; you stand by your faith, and you preserve those institutions which have been handed down to us even at the cost of human life.

Remember, when you vote against either Foster or Boatner merely for personal spite, you prostitute your individuality and turn your back upon the welfare of yourself and your party.

The compensation of U. S. district attorneys and U. S. marshals for Louisiana have been increased. No change is made in the pay of the district attorney of the eastern district, which remains at \$3000. In the western district the pay has been increased from \$2000 to \$2500. The marshal's salary of the eastern district is increased from \$2500 to \$3000, and in the western district from \$2000 to \$3000. Each are allowed one chief deputy at \$1200.

Some Views Regarding Senator N. C. Blanchard.

Some admirer of Hon. N. C. Blanchard, writing to the Vicksburg Commercial-Herald, says of this distinguished son of North Louisiana:

Dear Sir:—Knowing your friendship for Hon. N. C. Blanchard, our junior United States Senator, whose term of office will expire in a short time, and knowing full well you appreciate his value as a friend of the people, who are at the mercy of the waters of the Mississippi river, I am constrained to say our alluvial inhabitants and yours as well need his services as much or more in the upper house than they did for the twelve years he was chairman of the rivers and harbors committee of the lower house. The steamboat interest of the Mississippi river should take decided steps to show their appreciation of the efforts of this champion of their interests, and it is needless to recount to them how valiantly he has worked for the increase of appropriations for levee and harbor improvements, for there is not a river man who is not perfectly familiar with his record.

It might be claimed that a newspaper outside of the state has no concern with the election of senators and representatives from Louisiana. This is not the case in this instance, as our material interests are linked together so close that we pardon each other when either chooses to lend words of praise or condemnation, as the case may be, as our interest appears.

Mr. Blanchard has been too true to every trust reposed in him not to receive at your hands and those of every paper and citizen in the great Mississippi valley, the praise to which he is so justly entitled. The appropriations for levee work and the victories he has gained while battling for the lives and property of the inhabitants of the valley call for paeans of praise to be sung in his honor in our great state and out of it. Yours truly,

LOUISIANIAN.

Disclaiming all spirit of interference in the political affairs of Louisiana, the Commercial-Herald desires to express hearty concurrence in the communication signed Louisianian, published to-day. It will be an evil day for the dwellers of the Delta, when they permit any ism or issue to rise superior to or dwarf their important and always vital interest in the question of river improvement and overflow protection. And for this interest Mr. Blanchard stands pre-eminently. — Vicksburg Commercial-Herald.

Senator N. C. Blanchard, of Louisiana, is one of the true friends of the project to improve the navigation of the Ouachita river, and we earnestly hope that the legislature of the Pelican State will see proper to return this distinguished gentleman to the Senate of the United States. During all his long career in public life, the senator has ever proven himself to be a friend of the people's interests. He is a brilliant man and an ideal statesman. — Bearden (Ark.) Journal.

Mr. John H. Inman of New York was interviewed last week in regard to the price of cotton, and he expressed himself as follows:

On October 16th, just five months ago, March cotton sold in this market at 9.50. From that time there has practically been a continuance decline until March 5, when, contracts sold at 7.20, a decline 2-1-4 cents. My estimate of the crop is the same to-day as it was five months ago, when cotton sold at 9.50; that is 6,900,000 bales.

The above decline brought our market much below European parity and led to large purchases of contracts in New York against sales to Europe.

My experience is that after a steady decline of so long a time an upward movement is inevitable, a movement which will most likely recover half of the 2-1-4 cents decline and therefore carry us back to 8-1-4 @ 8-1-2 cent cotton before the season is over. With the rapidly declining stocks and the fact that it is 5-1-2 months before new cotton can be obtained, it occurs to me that the persistent sellers short of August may get into a very uncomfortable position before the season is over. Unless prices advance materially, I do not see how New York can avoid having a small stock by August 5. Trade in America is very bad, perhaps worse than at any time for thirty years; but against this, trade in Europe is good and Liverpool and the continent will take a large amount of cotton at the cheapest price they can get it, but will, in my judgment, pay 8-1-4 to 8-1-2 cents if necessary. Almost every cross road follower south is short of the crop, and therefore to my mind the extensive preparations and increased acreage and prospects of the new crop are greatly exaggerated. At any rate it is the season that makes the crop and not the acreage.

The Kentucky Legislature adjourned without appropriating money to carry on the State government, including the courts and benevolent and penal institutions. The Republican House passed the appropriation bills, but the Democratic Senate failed to do it. The present indebtedness of the State is only \$800,000, and the failure to pass the appropriation bills will cause a million dollar increase in its indebtedness.

Over in West Carroll, "the quietest parish in the State," was the scene of a double killing last week. A special from Floyd to the Picayune dated the 20th, says that "Ike Singer cut Jordan Lee's throat from ear to ear at Oak Grove yesterday. Singer was arrested, and, while on the way to this place in charge of deputy sheriff Shrock and posse, attempted to escape. The posse ran him about two miles. After killing his horse, he promised to surrender, but on coming up, he jumped at the deputy and attempted to get his pistol, and while scuffling, was shot six times by Mr. Shrock, the deputy, and one time by some one else, all taking effect."

Mr. and Mrs. G. A. Kilgore, Sr., of Farmerville, celebrated the 50th anniversary of their marriage day on Thursday last. The Gazette says that it was a grand and happy occasion—a general reunion of ante-bellum relatives and friends. It is estimated that there were present 500 persons, the oldest of whom who had passed his 90th milestone, and many were beyond 80 years, coming from four or five different parishes. Mr. and Mrs. Kilgore, in their generosity and goodness, did not forget their old negro slaves who had so faithfully served them before the war, and many of them were present. A bountiful and sumptuous repast was served to the vast crowd."

The Times-Herald of New York says that Thomas Edison has succeeded, with the aid of the X ray, in penetrating the human body with the naked eye, the successful experiment having been made last week. He looked into the lungs and heart and examined the arteries, muscles and blood vessels of one of his assistants. With the powerful cathode light behind the subject, he looked through a screen of prepared chemicals and is said to have plainly seen the workings of the various organs of the body.

Barney Barnato, the English mining stock speculator, who is said to be worth \$80,000,000, twenty years ago was a poor circus clown in the city of London. The Judge says that "this is more money than either Mr. Vanderbilt or Mr. Astor could scrape together without notices, and it would probably take a good accountant over 547 years, simply to count a billion dollar bills. Yet all this money will go to the three Barnato children if they live after their parents' death." At the rate he has made money in the past twelve months, he will have the almost fabulous sum of one billion dollars within another year.

"My friends," said the condemned, as he stepped forward for a few last words before the noose was adjusted, "I ain't no speechmaker and ain't got much to say. I've staid bossed, and drunk whisky, and played keeds, and been a rough man, and if I'd lived a year longer I should probably have been sent to the Legislature. How to Cure Rheumatism.

Arago, Coos Co., Oregon, Nov. 10, 1893.—I wish to inform you of the great good Chamberlain's Pain Balm has done my wife. She has been troubled with rheumatism of the arms and hands for six months, and has tried many remedies prescribed for that complaint but found no relief until she used this Pain Balm; one bottle of which has completely cured her. I take pleasure in recommending it for that trouble. Yours truly, C. A. Builford. 50 cent and \$1.00 bottles for sale by J. S. Guevard's drug store.

Proclamation of Election.

OFFICE OF BOARD OF SUPERVISORS OF ELECTIONS.
Lake Providence, La., March 18, 1896.
WHEREAS, By virtue of a Proclamation issued by His Excellency, Murphy J. Foster, Governor of Louisiana, bearing date of the 25th day of February, 1896, ordering a General Election for State and Parishal officers throughout the State, and to take the sense of voters upon various proposed amendments to the State Constitution, all in accordance with law, all the qualified voters of the parish of East Carroll, in said State, are hereby notified that an election will be held throughout East Carroll parish for said purpose, on

Tuesday, April 21, 1896.

It being the Tuesday next following the third Monday of said month, from 6 o'clock in the forenoon until 7 o'clock in the afternoon, for the purpose aforesaid, of electing Legislative, Judicial, Parishal and Ward Officers, and voting upon the said various amendments to the State Constitution. And for said purpose notice is hereby given that the polls throughout this parish will be opened in each Election Precinct or Ward, in said parish, as aforesaid, at the places hereinafter named, and under the supervision of the following named Commissioners and Clerks of Election, to-wit:
