THE 1914 Overland is the greatest self-seller in the industry. Few conceived, imagined or hoped that any factory could turn out for 1914 such a wonderful car at such a low cost.

And there was but one way to give the increased Overland value with decreased Overland price. Build more cars than competitors.

The 1914 Overland production is 50,000 cars—more cars of this type than are built by any factory in the world.

That is why the value is increased and the price decreased.
