

## The 1916 Six—\$1145

Overland

WITH our production capacity increased to 600 cars per day we are in a position to offer the 1916 Overland Six at the remarkably low price of \$1145. You will, we believe, find that this car is considerably under the market price of other Sixes having equal or similar specifications.

Roomy seven-passenger touring car  
Quiet 45 horsepower six cylinder motor  
Efficiently lubricated—unusually economical  
35 x 4 1/2-inch tires all around; non-skids on rear  
125-inch wheelbase; high-tension magneto ignition  
Electric control buttons located on steering column

## Monarch Adding and Subtracting Typewriter

"The machine that THINKS," one user calls it. Better still, it's the machine that THINKS accurately. It thinks so accurately that it will detect errors, prevent errors, and stop the leaks in every branch of your accounting work.

And when it cuts the labor in half, how? By combining two operations in one (writing and computing). Consider your bills, your statements, your order work, every kind of work you do which involves writing and adding on the same page. Think what it will mean to you to cut this labor in half, and, in addition, stop all errors and all chance of errors.

A demonstration is yours for the asking. No obligation involved. Or, if you wish to read more about this latest Monarch development and its uses, send for our new illustrated booklet, "Writing, Adding, Subtracting. All on One Machine."
