## A Word of Help to Women of Middle Age From Mrs. Raney.

Morse, Okla.—"When I was 45 years old Lydia E. Pinkham's Vegetable Compound carried me through the critical period of the Change of Life in safety. I am over 60 and have raised a family of eight children and am in fine health. My daughter and daughters-in-law recommend your Vegetable Compound and I still take it occasionally myself. You are as liberally named if you wish."—Mrs. ALICE RANEY, Morse, Oklahoma.

Change of Life is one of the most critical periods of a woman's existence. This good old-fashioned root and herb remedy may be relied upon to overcome the distressing symptoms which accompany it and women everywhere should remember that there is no other remedy known to carry women so successfully through this trying period as Lydia E. Pinkham's Vegetable Compound.

If you want special advice write to Lydia E. Pinkham Medicine Co. (Confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

## THE POLICE HORSES.

"It's a hard job," said the police horse, named Jack, to the police horse, named Bill, "but all the same I like it."

"Do you mean our job?" asked Bill.

"That I do," said Jack.

"What do you mean by saying, 'That I do'?" asked Bill.

"I mean yes," said Jack, "but I thought I would say it in a fine way."

"Oh, I see," said Bill, "only it was such a fine way that I didn't quite understand it. Perhaps I am not so bright as I should be."

"Nonsense," said Jack. "I just talk sometimes to hear myself talk. I believe all of us do at times, even the best of us."

"Now, now," said Bill, "you are only trying to make me feel less stupid. You are very modest, really. You don't talk to hear yourself talk. If there ever was a modest horse, you're one."

"Well, I have nothing to be proud of," said Jack.

"Nonsense, you have. Think of the lives you've saved."

"Well, haven't you saved lives, too?" asked Jack.

"Well, who wouldn't save a life when I've done it? It's nothing so fine when I've done it, because it has just come my way. I mean the opportunity has just come my way when I save a life. I just couldn't help but do that. When you've saved lives you've gone out of your way to do so."

"So have you," said Jack, "and you are a very modest horse."

"Well," said Bill, "I think it is so foolish to be conceited. And I'll tell you something else, Jack," continued Bill.

"Pray, continue," said Jack.

"I've discovered that those creatures who were conceited had very little to be conceited about. So I don't want to be conceited for if I were conceited I would feel very foolish."

"I would think how absurd I was. I would think that I had nothing to be conceited about compared to lots and lots of people who save many more lives than I do. Take the firemen, for example. They're always saving lives, but they don't go around boasting about it."

"Yes, I've not much use for a conceited person. A conceited person is like a bossy person—both of them want to be the whole show. And no creature could be the whole show. No one creature at all, to my mind."

"If any one creature were the whole show, just think what a world it would be, everyone hob-nobbing and bowing to one person and not getting anything out of life at all."

"That's so," agreed Bill.

"But," he continued after a moment, "you were saying how much you liked your job."

"Oh, yes," said Jack. "It is so nice to be of help and to do one's part. Now, I will never disappoint the master. I am supposed to keep the crowds back at parades—those who crowd the streets and would get into a terrible crush and jam if we didn't keep or-

der. My master tells me where I should go and I go and push the crowd back ever so gently.

"But I never step on anyone's foot, though feet are all about me. The master wouldn't like it if I did, so I don't. And you do the same thing. But it is nice to have a job like this and to have a fine policeman riding one. I love my job."

"So do I," said Bill. "It's a job such as any horse would be glad to have and we are fortunate to be given these jobs. We feel that we trust us and have faith in us and so we never want to break that faith that is in us."

"We are loved and admired and when one is loved and admired one doesn't feel conceited about it. One just feels happy. At least that is the way I feel."

"So do I," said Jack. "Any other way to feel about it would not be worthy of police horses."

### Good Enough.

There is little hope of any girl who begins to make use of the formula, "Good enough." The surest way to fall short in achievement, in character, in success of every kind, is to introduce these two words to your life motto. When you feel like assuring yourself that the half-learned lesson, or the clumsily written letter, or the slightest household task is "Good enough," just take this thought to heart, that nothing is good enough as far as you are concerned, while it is possible to make it better.—Girls' Companion.

### What Jimmy's Sister Said.

Small Jimmy—"Say, Mr. Jones, what do you think my sister said about you this evening?"

Jones (sister's admirer)—Really, Jimmy, I'll have to give it up.

Jimmy—Yes, that's what she said. How did you guess it?

### Scratched With a Cat.

"Why, Edgar," exclaimed the anxious mother, "what is that long mark on the back of your hand?"

"Oh," replied Edgar indifferently, "I scratched it with a cat."

# If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments; corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer, 608 Broadway, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.—Adv.

# COUGHED FOR 2 YEARS ORDERED TO DENVER

Doctor said she couldn't get well in Illinois, but she did.

"I had a very bad cough for two years, all the time, day and night. Could sleep but little, and tried everything, but got no relief. Finally my doctor said he could do no more for me, that I had better go to Denver, as I couldn't live in Illinois. Then I tried Milk's Emulsion. From the very first it helped me. By the time I had taken 15 bottles my cough left me entirely. I have gained in strength and flesh and am now in perfect health."

—Mrs. Alice M. Huntley, 182 No. Pearl St., Galesburg, Ill.

Build up your system and give it a chance to fight off disease. Milk's Emulsion costs nothing to try and it has done the work for thousands of others.

Milk's Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and purgatives. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength Milk's Emulsion is strongly recommended to those whose weakness has weakened, and in a powerful aid in resisting and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. Truly wonderful for weak, sickly children.

No matter how severe your case, you are urged to try Milk's Emulsion under this guarantee—Take six bottles home with you, use it according to directions, and if not satisfied with the results your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milk's Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.—Adv.

# HOME TOWN HELPS

## FAVOR WELL-KEPT GROUNDS

### Real-Estate Buyers Will Invariably Give Preference to House With Attractive Surroundings.

It pays to add a few frills when making a home, writes Edward Irving Farrington, in the Philadelphia Ledger. This fact was illustrated when a certain man owning a small suburban property found it necessary to make a quick sale. Having a keen appreciation of the beautiful in nature, this man had surrounded his modest house with ornamental trees and flowering shrubs. They had been growing for only a few years, to be sure, but they had become so well established that all appearance of newness had disappeared. Now, this man was able to obtain for his property 25 per cent more than a neighbor who had a costlier house, but who had neglected its external embellishment. Moreover, he sold his property several months before his neighbor could find a purchaser.

Now, of course, the average man will not plant grounds for the prime purpose of making his place salable. It must be admitted, in passing, though, that real-estate men the country over are beginning to learn that they can get a much larger price for their new houses if they plant the grounds before offering them for sale. From this point of view of the house owner, however, the free use of trees and shrubs is desirable in two ways. It adds greatly to his enjoyment and comfort and to that of his agreeable knowledge that these same trees and shrubs are rapidly growing into money. If he has any doubt upon the latter point he has only to put up a "For Sale" sign on his front gate. It is always the house which has been given an inviting, homelike appearance that catches the eyes of a prospective buyer.

### FINE EFFECT AT SMALL COST

Concrete Front and Entrance Add Much to Attractiveness of Otherwise Unpretentious Home.

Viewed from the street, a residence in a middle-western city appears to be an expensive concrete building, though in reality the structure is made almost entirely of wood, and was erected at a very moderate cost. This effect is obtained by means of an artistic

Side View of the Dwelling: In This Picture Can Be Seen the Frame Portion of the Structure, Which is Scarcely Visible From the Street.

### A Well-Laid Garden.

A garden has this advantage, that it makes it indifferent where you live. A well-laid garden makes the face of the country of no account; let that be low or high, grand or mean, you have made a beautiful abode worthy of man. If the landscape is pleasing, the garden shows it—If time, it excludes a little grove, which any farmer can find or cause to grow near his house, will in a few years make cat-racts and chains of mountains quite unnecessary to his scenery; and he is so contented with his valleys, wood lands, orchards, and river, that Niagara, and the Notch of the White mountains, and Nantasket beach, are superfluous.—Emerson.

### Cut Cost of City Lighting.

City administrations anxious to cut down running expenses will find much of interest in the proposal recently advanced by two illuminating engineers. A duplex electric street light is their suggestion, the globe to contain two lamps instead of one as at present. These lamps are to be placed tip to tip; one is to be of 600 to 1,000 cp; the other of 100 to 250 cp. From sundown until midnight, according to this scheme, the stronger lamp would burn. At midnight the city current would be momentarily reduced, causing a small mercury cut-out in each globe to extinguish the big lamp and turn on the smaller.—Popular Mechanics Magazine.

### British Courts Bar Veils.

According to English law, a woman witness must raise her veil and expose her face, so that the jury may judge by her features as to her truthfulness.

If city boys could be brought to realize the attractiveness of country girls the shortage of farm labor might readily be overcome.

It is just as well to bear in mind that everybody who can spell or pronounce "proletariat" is not necessarily an economist or deep thinker.

Holland assures the world that the Hoozenollern person may be expected to take root there like one of its famous tulips, little as he resembles one.

### Catarrhal Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarrhal Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the Blood on the Mucous Surfaces of the System. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing may be destroyed forever. Many cases of Deafness are caused by Catarrh, which is an inflamed condition of the Mucous Surfaces. ONE HUNDRED DOLLARS for any case of Catarrhal Deafness that cannot be cured by HALL'S CATARRH MEDICINE. All Druggists 75c. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

### Real Proof.

"They say that Dobbs is madly in love with his wife, but I don't see any sign of it. He doesn't pay her any special attention, doesn't make any lover-like speeches or any particular fuss over her."

"Maybe not; but whenever she asks him for money he gives it to her without asking what she wants it for."

### Machine Handles Peanuts Properly.

The operation of blanching peanut kernels is now taken care of by a machine which has a capacity of 1,000 pounds per day. It requires the services of but one operator and heretofore this work has been done by hand and one worker could not do more than from 65 to 80 pounds in the course of a day's work.

That the use of high explosives in modern warfare has about reached the end of its development, is the opinion of a French inventor of one powerful compound of that nature. Neither can poisonous gases, it is in-
