

It took a NAMELESS HOBO to unlock nature's Secret

A chance meeting between an unknown tramp and a sufferer from Bright's Disease, years ago—

A passing kindness, the plucking and brewing of a few strange forest herbs by the hobo—and then— Immediate relief for the sufferer! And, in time, a complete recovery.

This is the story, in a nutshell, of the discovery of

HOBO Kidney & Bladder Remedy

The unknown tramp went his way, little dreaming of the wonderful blessing he had bestowed upon the world. His "patient," however, determined to offer to the whole world the benefits of the secret which had so happily come to him.

The sufferer was Mr. G. D. Horton, of Singer, Louisiana, founder of the Hobo Medicine Manufacturing Company.

The wild herb of the piney woods of Louisiana is now under cultivation upon several farms. The fame of the medicine itself has spread to the ends of the nation. Thousands of bottles are sold every month.

Hundreds of unsolicited testimonials have been written by sufferers from kidney and bladder disorders, who have found new health in HOBO!

Read this one example:

To Whom This May Concern:

I have had kidney trouble nearly all my life. Have tried all kinds of kidney medicine and many good doctors have treated me, but never received any permanent relief.

In October, 1914, I was persuaded to take Hobo Kidney and Bladder Remedy. I took eight bottles and today I believe I am permanently cured. I will always keep "Hobo" in my home, as I consider it the best of all. This testimonial is given that thru it I may help some one who may be a sufferer as I was and would be glad to know of a relief. Respectfully,
Monroe, La. J. L. PUGH.

What HOBO did for Mr. Pugh it may do for YOU. It is for sale by all druggists at \$1.20 a bottle. Buy a bottle today.

GOTHAM TEACHER MARRIES CONVICT

PUBLIC SCHOOL PRINCIPAL FINDS HER IDEAL IN SING SING PRISON

New York.—Miss Mary Fairchild, principal of a public school on Long Island, and Henry Hoppe, released from Sing Sing prison in 1917, have been married, following an unusual romance in which Cupid again demonstrated that "stone walls do not a prison make nor iron bars a cage."

Miss Fairchild, according to the story she relates, met Hoppe, a German immigrant, when he was a convict in Sing Sing prison, serving time for robbery and carrying concealed and deadly weapons. She first obtained his freedom and then his promise to take her for better or worse.

Some four years ago Miss Fairchild, then principal of a school in New York City, decided to take up prison welfare work as a relief from the routine of the schoolroom. She selected Sing Sing as the field for her operations. On her very first visit she met Hoppe. She became interested in his case and felt certain he would make an excellent citizen, if he had a chance. She went before Judge Rosalsky, who had sentenced Hoppe, and then carried her plea to Governor Whitman. Hoppe was paroled.

Three years have elapsed since Miss

Fairchild won freedom for Hoppe. During that period the young man has engaged in the confectionery business in New York City and has more than demonstrated that the New York schoolteacher made no error in picking him for her ideal.

WRIGGLES WAY OUT OF JAIL FOR 180TH TIME IN LIFE

Roy Dickerson, charged with aiding in the robbery of a bank at Girard, Ala., made what is said to have been one hundred and eightieth escape from jail when he used a crude key on his cell lock in the city prison at Los Angeles, Cal., climbed up a ventilator shaft and fled.

Dickerson's wife, who was in jail with her husband, said he formerly was a vaudeville performer, making a specialty of freeing himself from handcuffs and other restraints. She told the police he had escaped 180 times and that he never had been imprisoned successfully longer than two months.

Dickerson's cell-mate was found asleep after the escape. He told the guards he had not heard Dickerson's movements.

9,000,000 People in Canada
Ottawa, Ont.—The population of Canada for 1920 is estimated at 9,000,000, as compared with 7,000,000 in 1911, in a report made public in the house of commons by Secretary of State Sifton.
The estimated total revenue for 1920 is \$325,000,000. Total revenue per capita for 1920 is estimated at \$36.11 and expenditures per capita at \$75.01.

COTTON ASSN. ACTIVE AT BATON ROUGE

Legislative matters of interest to cotton producers, are progressing favorably in Baton Rouge. The most important measure at this time is the pink boll worm control bill, which was drawn up by the legislative committee of the Louisiana division, and turned over to Governor Parker for his consideration before being introduced in the house. This measure creates a commission composed of the commissioners of agriculture, the dean of the state agricultural college, the director of extension, and two cotton producers to be named by the governor, who will have charge of the control work, and to compensate the farmers of Cameron parish who cannot produce any other crops. It provides for \$20,000 for the current year and \$250,000 for the following year.

Secretary of Agriculture Meredith being unable to attend the Texas legislative session, sent a message which was read to both houses by Dr. C. L. Marlett, chairman of the Federal Horticultural Board, in which he gave the history of the ravages of the pink worm, and strongly urged the Texans to carry out the agreement entered into in Washington. He warned them that a failure to apply the necessary measures to eradicate the pest, would result in the Federal government taking such steps as were deemed necessary to protect the remainder of the cotton crop of the South from the menace.

The Texas legislature has created two committees to handle the preliminary work, one to investigate the existence and ravages of the pink worm, and the other to meet with Federal Horticultural Board, which is in Austin in a body, and devise some measures of restriction. The farmers from South Texas are trying to prevent the establishment of non-cotton zone and have sent attorneys to Austin to urge that view.

The pink boll worm film prepared by the Department of Agriculture, has been received by the Louisiana Division, and will be shown to the members of the Legislature during the week. After that, it will be shown all over the state, in connection with a showing of the film of the dock board which portrays the cotton warehouse, grain elevator and other port facilities in action.

Chairman W. B. Thompson, national director, G. W. Hardy, and Campaign Director T. J. Appleyard, have gone to Atlanta to attend the meeting of the national executive committee and the national finance committee of the American Cotton Association. One of the important matters to be considered is the report of the special committee on co-operative marketing, headed by Dr. D. S. Murph, which framed a practical plan for this great work at the meeting in Memphis, May 17.

The following Louisiana members of standing committees of the American Cotton Association, have been named by Chairman Thompson:

1. Banking and legislation; Ben Johnson, president Louisiana Bankers Association; president Bank of Commerce, Mansfield, La.
2. Warehousing and insurance; N. C. Williamson, Lake Providence.
3. Marketing, tare and statistics; C. H. Teal, Coitax.
4. Organization and membership; T. J. Appleyard, Jr., New Orleans.
5. Seed improvement and diversification; W. M. Davidson, St. Joseph, La.
6. Transportation; Arthur W. Simpson, New Orleans.
7. Patents, inventions, processes, trade marks, etc.; Sim Parent, New Roads.
8. Cotton acreage, and price recommendation; Emile Regard, Mansura.
9. Enactment of legislation; Senator Jos. E. Ransdell, Washington, D. C.
10. Cost of production; W. W. Morrison, New Orleans.
11. Budget; R. K. Boney, Buckport.
12. Enactment; James F. Seip, Alexandria.
13. Auditing; S. J. Heard, Ruston.

Greek Prince Holds Rank
Geneva, Switzerland.—Prince Christopher of Greece and his wife, the latter formerly Mrs. W. P. Leeds, widow of the American tinplate magnate, have requested that reports recently published in America that the prince has renounced his rank in the sovereign house of Greece be denied. It has been said that he had given up his right to succession, and that he and his wife were content to become simply a Danish count and countess. Dissension between former King Constantine and the prince has been reported but Constantine and his wife recently spent a week with the prince and princess at Montreaux and the latter have been visiting the former sovereigns at St. Moritz.

Say He Used Marked Cards
New York.—During the trial in a New York court of Louis Krohnberg a shirt manufacturer, who is charged with obtaining money in a game of chance by fraud, a stud poker game with marked cards was reproduced. Two hands from a deck, which is alleged to have come from the Krohnberg home, were laid before the magistrate by one of the half-dozen complainants. These proved to have shadings on the design on the backs, which indicated the nature of the cards. The complainants say Krohnberg won \$5,700 with the marked deck.

HERONS CLING TO OLD HOMES

Their Dwelling in Rotterdam Invaded They Take Refuge in City's Zoological Gardens

The gray herons of Rotterdam, familiar to the city for centuries, have gradually, according to a correspondent of the Times of London, been pushed out of their old territories to make way for the growth of the port. The waters had been gathered into canals, the spaces began to dry and little by little new streets built on piles invaded the heron ground. Herons, unlike storks, do not take to the dwellings of men, but they cling desperately to their nesting places, the elms and the willows of the boulevards. Finally ousted, they preserved but one refuge and that the Zoological gardens, which in 1857 was established on one of the reclaimed areas. Some of the herons were put in an aviary and some of the wild ones, watching the proceeding set up house in the elms close by. And so it came about that Rotterdam Zoological gardens can proudly lay claim to a natural herony in their gardens. But since 1857 Rotterdam has grown, and the parent birds have now four miles to fly to reach the waters for food for their nestlings. They cover the distance by day and night over the tramways, railways, and the noise and smoke of a city, the return to the nest marked by the usual outburst of welcoming cries from the voracious young.

Laundry Marks in Europe

Laundry marks vary greatly in Europe. Those used in England consist of certain small letters or figures stitched in red thread. In some parts of France linen is defaced by having the whole name and address of the laundry stamped upon it, and an additional geometrical design to indicate the owner. In Batavia every piece has a number stamped on it in large letters. In other parts of Germany a small cotton label is attached by means of a hot water-proof adhesive. In Bulgaria each laundry has a large number of stamps engraved with designs, and in Russia the laundries mark linen with threads, worked in arrow shape. In some Russian towns the police periodically issue regulations for laundries, while in Odessa books of marks are furnished annually to the laundry proprietors, and these marks and no other may be used. By this system criminals and revolutionary agitators are often traced.

Law-Abiding Chinese

In China, the oldest, largest and most densely populated nation in the world, there are no policemen except in the foreign compounds of the Chinese cities. The head of a family is expected to keep order in that family and every inhabitant of a city is jointly responsible with every other citizen for its tranquility. The Chinese are essentially a law-abiding and law-observing people for that reason. If a younger son in a family should commit a crime the older son is likely to be taken into custody for the offense. For some crimes, such

as patriote, which is the worst crime known in Chinese criminology, a whole city might be destroyed, and thousands made to suffer and bear a disgrace that would last for generations.

Oldest Confection

The greater part of black licorice is derived from Spain, where it is made from the juice of the plant and mixed with starch to prevent it from melting in hot weather. The licorice plant is a shrub that attains a height of three feet and it grows wild where its roots reach the water. It flourishes especially on the banks of the Tigris and Euphrates rivers.

Since the valley of the Euphrates contained one of the earliest civilizations in the world, the probability is that licorice is about the oldest confection in the world, and the taste which the boys and girls of today like so well was enjoyed by the youngsters of three thousand years ago.

Birthplace of Famous Ships

Many famous warships were built and launched at Portsmouth, N. H. the first being the 54-gun ship Faulkland of the English navy, launched in 1690. It was followed by the Bed 1696, and by the America in 1749, all of the British navy. The first vessel of the continental navy launched there was the 32-gun Raleigh in 1775. The second was the immortal Ranger, from whose deck John Paul Jones received the first salute to the Stars and Stripes on February 14, 1778. The frigate Congress, sunk by the Confederate ironclad Merrimac, and the Kearsarge, which sank the Confederate steamer Alabama off Cherbourg, France were two other famous Yankee

The Quinine That Does Not Affect the Head
Because of its tonic and invigorative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the name and look for the signature of E. W. GROVES, Inc.

Terrible Fate

Visitor—One of your directors has become blind, I've heard.
Studio Manager—Yes, poor fellow. The star always wore too many disguises.—Film Fun.

R. F. Erwin Regarding His Troubles

"A year ago last winter I had an attack of indigestion followed by biliousness and constipation. See Chamberlain's Tablets so highly recommended for stomach troubles I bought a bottle of them and they helped me right away," writes R. F. Erwin, Peru, Ind. If you have any trouble with your digestion give these tablets a trial. They will do you good.

Dressing Up

Mrs. Lascry—My good man, is that outer garment you are wearing an exclusive design?
The Plumber—You mean my overalls, ma'am? No'm. Buy 'em any where.
Mrs. Lascry—Then you won't mind my copy the bodice for a new evening gown I'm having made?

AN OPELOUSAS INTERVIEW

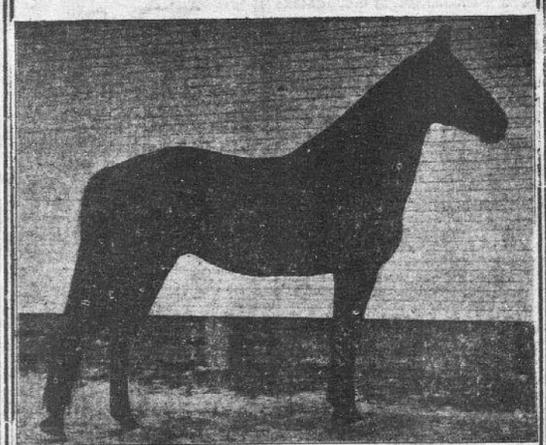

Mrs. St. Cyr Tells Her Experience
The following brief account of an interview with an Opelousas woman four years ago, and its sequel, will be read with keen interest by every citizen.
Mrs. A. St. Cyr, 220 N. Walnut St.,

Bring Your Trading Horses and Mules and Come to SEE ME

I will trade young horses and mules for old ones. What have you to trade? Come and SEE ME.

PRIVATE SALES EVERY DAY
I solicit orders for horses and mules. Every one guaranteed as represented. If you want to buy, come to see me. I guarantee to save you money. I sell for less.

L. L. PRESSBURG HORSE AND MULE EXCHANGE
Vine Street, Opelousas, La.

says: "I have great faith in Doan's Kidney Pills, for they have done me more good than any medicine I have ever taken. When my kidneys cause me any trouble, I get a box of Doan's Kidney Pills and a few doses always give me quick relief. At times, I am troubled with rheumatic twinges in my muscles and my kidneys don't act right. After using Doan's Kidney Pills the trouble passes away. I can't speak too highly in praise of this remedy, for it is just as represented."

Relies on Doan's
The above statement was given on April 25, 1914 and on March 18, 1918. Mrs. St. Cyr said: "Any time I need a kidney medicine, I use Doan's Kidney Pills and they never fail to bring me quick relief. I recommend Doan's Kidney Pills at every opportunity and can confirm the statement I gave in 1914."
