

Alderman Stelly offered the following resolution:

A Resolution

Amending a resolution heretofore adopted on the 21st day of August, 1920, providing for the issuance of \$250,000, public improvement bonds of the City of Opelousas, Louisiana, by changing the form of said bonds, adopting a new schedule of maturities for said bonds, and adopting a new form of endorsement thereon.

Whereas, a resolution was heretofore adopted by the Mayor and Board of Aldermen of the City of Opelousas, Parish of St. Landry, Louisiana, on the 21st day of August, 1920, providing for the issuance of \$250,000 Public Improvement Bonds of said City, authorized at an election held on the 8th day of June, 1920; and,

Whereas, it is desired to amend said resolution, and the form of bond therein adopted, by changing the statement of the purpose of the issuance of said bonds, by adopting a new schedule of maturities for said bonds, and by adopting a new form of endorsement to be signed by the Secretary of State.

Section 1. Now, therefore, be it resolved, by the Mayor and Board of Aldermen of the City of Opelousas, Louisiana, that the maturities heretofore prescribed by a resolution adopted on the 21st day of August, 1920, providing for the issuance of \$250,000, Public Improvement Bonds, of the City of Opelousas, La., authorized by an election held on the 8th day of June, 1920, be and the same are hereby amended so as to read as follows:

Year:	Bonds Outstanding	Interest	Principal Payable	Total Principal and Interest	Bond Nos.
1921	\$250,000	\$12,500	\$2,500	\$15,000	1-5
1922	247,500	12,375	3,000	15,375	6-11
1923	244,500	12,225	3,000	15,225	12-17
1924	241,500	12,075	3,500	15,575	18-24
1925	238,000	11,900	3,500	15,400	25-31
1926	234,500	11,725	3,500	15,225	32-38
1927	231,000	11,550	3,500	15,050	39-45
1928	227,500	11,375	4,000	15,375	46-53
1929	223,500	11,175	4,000	15,175	54-61
1930	219,500	10,975	4,500	15,475	62-70
1931	215,500	10,775	4,500	15,250	71-79
1932	210,500	10,525	4,500	15,025	80-88
1933	206,000	10,300	5,000	15,300	89-98
1934	201,000	10,050	5,000	15,050	99-108
1935	196,000	9,800	5,500	15,300	109-119
1936	190,500	9,525	5,500	15,025	120-130
1937	185,000	9,250	5,500	14,750	131-142
1938	179,000	8,950	5,500	14,450	143-155
1939	172,500	8,625	5,500	14,125	156-168
1940	166,000	8,300	7,000	15,300	169-182
1941	159,000	7,950	7,500	15,450	183-197
1942	151,500	7,575	8,000	15,575	198-213
1943	143,500	7,175	8,000	15,175	214-229
1944	135,000	6,750	8,500	15,250	230-246
1945	127,000	6,350	9,000	15,350	247-264
1946	118,000	5,900	9,500	15,400	265-283
1947	108,500	5,425	10,000	15,425	284-303
1948	98,500	4,925	10,500	15,425	304-324
1949	88,000	4,400	11,000	15,400	325-346
1950	77,000	3,850	11,500	15,350	347-369
1951	65,500	3,275	12,000	15,275	370-393
1952	53,500	2,675	12,500	14,750	394-417
1953	41,500	2,075	13,000	15,575	418-444
1954	29,000	1,400	14,000	15,400	445-472
1955	14,000	700	14,000	14,700	473-500

Section 2. Be it further resolved, that the form of bond heretofore adopted by said resolution of the 21st day of August, 1920, be amended so as to read as follows:

UNITED STATES OF AMERICA,
STATE OF LOUISIANA,
Parish of St. Landry.

CITY OF OPELOUSAS, LA., PUBLIC IMPROVEMENTS BONDS
No. 1 \$500.00

Know all men by these presents, That the City of Opelousas, St. Landry parish, Louisiana, for value received, is indebted to and hereby promises to pay to bearer the sum of \$500.00 on the 1st day of July, 1921, with interest thereon from the date hereof at the rate of five per centum per annum, payable semi-annually on the 1st day of January and July in each and every year, on presentation and surrender of the proper coupons hereto attached, bearing a facsimile of the signature of the clerk of the board of aldermen of said city, as they severally become due. Both principal and interest of these bonds are payable in gold coin of the United States of America, of the present standard of weight and fineness, at the Chase National Bank, in the City of New York, State of New York, and the said City of Opelousas, St. Landry parish, La., is hereby held and firmly bound, and its faith, credit, revenue and property are hereby pledged for the payment of the principal and interest hereof at maturity.

This bond is one of the issue of 500 bonds of like date, tenor, and effect, except as to time of maturity, issued by the mayor and board of aldermen, as the governing authority of said municipality, for the purpose of purchasing and constructing water-works and light systems for said city, and paving and improving the streets of said city, under authority of Section 1, of Article 231 of the Constitution of Louisiana, and Act 256 of the year 1910, as amended, and a resolution duly and regularly adopted by the Mayor and Board of Aldermen of the City of Opelousas, St. Landry parish, La., on the 21st day of August, A. D. 1920.

It is hereby certified, recited and declared that the proposition to issue said bonds and incur said debt was voted for by the majority in number and amount of the property taxpayers, qualified as electors under the Constitution and laws of the State of Louisiana, voting at an election duly and regularly held for the purpose, on the 8th day of June, A. D. 1920; that provisions have been made for

the levying of an ad valorem tax to pay said bonds; that all acts, conditions and things required to be done precedent to and in the issuing of said bonds have been properly and legally done, and have been performed in regular and due form as required by law, and the said indebtedness does not exceed any statutory or constitutional limitation. In testimony whereof, we, the undersigned Mayor and Clerk of the Board of Aldermen, of the City of Opelousas, St. Landry parish, La., being duly authorized to execute this obligation on behalf of said city, have hereunto signed our names officially, and affixed hereto the corporate seal of said municipality, at the City of Opelousas, St. Landry parish, La., as of the 1st day of the month of July, A. D. 1920.

Mayor, Clerk.

(Interest Coupon) \$12.50

On January 1, 1921, the City of Opelousas, St. Landry parish, La., will pay to bearer \$12.50, gold coin of the United States of America of the present standard of weight and fineness, on presentation and surrender of this coupon at the Chase National Bank, in the City of New York, State of New York, being six (6) months interest then due on its Public Improvement Bond, dated July 1, 1920.

On the back of said bonds shall be printed the following endorsement: "This bond secured by a tax, registered on this _____ day of _____, 1920."

Secretary of State.

Section 3. Be it further resolved, because of the desirability of immediately preparing and disposing of the aforesaid bonds, that this resolution shall take effect immediately.

The above and foregoing resolution having been read in full in open session and having been duly considered section by section, was adopted as a whole by the following vote:

Yeas: Mouret, Dejean, Danel, Stelly and Clark.

Nays: None.

Absent: None.

Approved:

E. L. LOEB,

Mayor, City of Opelousas, La.

Attest: J. J. FERRODIN,

Clerk, Board of Aldermen, Opelousas, La.

PLANS FOR THE SECOND WORLD COTTON CONFERENCE

Members of the cotton trade in this country and abroad are looking forward to the second world cotton conference, which is to be held in England next June. This great trade congress will bring together representatives of every branch of the cotton industry, from the growers of the raw cotton to the finishers and distributors of the manufactured goods. It is to be held in accordance with the decision reached at the first world cotton conference at New Orleans in October, 1919, where it was voted that the cotton trade of the world should assemble in joint convention once every two years.

The conference next June will hold part of its sessions in Liverpool and part in Manchester. The decision to meet first in one city and then the other was made in deference to the friendly rivalry existing between these two great centers of the Lancashire cotton industry and in view of the strong claims which each could advance why it should be honored at the seat of the congress. The sessions in Liverpool will be held on Monday, June 13, Tuesday June 14, and Wednesday, June 15. The sessions at Manchester will be held from Thursday, June 16, to Wednesday, June 22, inclusive.

As at the first conference held in New Orleans this congress of the world's cotton trade will be divided into definite groups for voting purposes, but the number of these groups has been increased from eleven to thirteen,

as follows: growers, ginners, seed crushers and manufacturers of seed products, compressors and warehousemen cotton merchants, transportation, banking and insurance, research and statistics, spinners, manufacturers, finishers (including bleachers, dyers and printers), textile merchants and converters, and manufacturers of textile machinery.

To American readers, one of the interesting and perhaps puzzling points in connection with the foregoing list is the distinction drawn between spinners and manufacturers. In the American cotton trade the terms "spinner" and "manufacturer" are synonymous. In the English trade, however, a spinner is one who spins the raw cotton into yarn, while a manufacturer is one who weaves the yarn into fabrics. The distinction is more important in England than in this country because of the fact that in England the spinning and weaving branches of the trade are to the most part separate, while in this country they are largely combined.

The enormous size of the industry which will be represented at the meeting next summer was brought out forcibly at the New Orleans conference, where it was stated that the total value of the capital invested in the world's cotton trade, based on present values, is about \$30,000,000,000. The industry gives employment to 6,000,000 people, on whom are directly dependent 24,000,000 others. This enormous industry consumes annually from ten billion to fourteen billion pounds of raw material, from which is made the only kind of clothing used by hundreds of millions of the world's

GRAND COTEAU NOTES

Grand Coteau, La., Nov. 17.—The athletic program for the R. O. T. C. unit at St. Charles college has been announced and the first events have been run off.

The schedule of events is as follows: Thursday, November 4—Senior and junior inter-company football game. Thursday, December 2—Inter-company field meet.

Thursday, January 6—Senior and junior inter-company basketball game. Thursday, February 3—Inter-company rifle match.

Thursday, March 3—Inter-company competitive drill.

Thursday, April 7—Senior and junior inter-company baseball game.

Thursday, May 5—Inter-company swimming meet.

The company winning the greatest number of points in the competitions during the year will be presented with a silver loving cup suitably engraved. The student winning the greatest number of points for his company during the year will be presented a gold medal and the student winning the next highest number of points will receive a silver medal and the student winning the next highest number of points will receive a bronze medal.

Company "A" started right in by getting first blood in winning the senior inter-company football game by a score of 21 to 0 and secured a five-point lead in the race for the cup, but Company "B" came right back and won the junior game by a score of 13 to 0 thereby tying the score. Both companies are determined to win the field meet scheduled for December 2 and obtain the 25 points which go to the company amassing the greatest number of points in the field events.

The events scheduled for the field meet include the 100 and 220 yards dashes a relay race, standing and running broad and running high jumps, straddle ball race, centipede race company shuttle race tug-o-war, obstacle race and three-legged race. Company athletes are training hard for the events and each side is confident of victory.

STATE OF ILLINOIS NOW HAS MODEL PENITENTIARY

Illinois' big new, strictly modern state penitentiary, put under construction in 1913 and described in Popular Mechanics Magazine for April of that year, is now finished. Inclosing 64 acres of land within its concrete wall the new prison contains eight circular cell houses, each with 240 light and sanitary cells in four tiers all visible from a central watch tower, and the whole roofed with searchlights, says Popular Mechanic Magazine in an article with two full pages of illustrations in its December issue. Cell doors and lights may be operated by switches in the tower. The wall, 24-in. thick at the base and 14 in. at the top, is 33 1-2 ft. high above ground and extends 10 ft. below. The site of this model institution is at Statesville just northwest of Joliet on the west bank of the Desplaines River, and in the center of the state farm of 2,300 acres. Convicts themselves did most of the work on the big penal stronghold which includes workshops and other adjuncts as modern in their appointments as the cell houses.

population and the principal apparel of other hundreds of millions.

The cotton trade of this country took the lead in organizing the first world cotton conference last year, and it is to have a prominent part in the second conference. Fuller E. Calloway of La Grange, Ga., one of the best known manufacturers of the south, is chairman, and John T. Scott of Houston, Texas, a prominent banker is the vice chairman of the executive committee, which is in charge of the arrangements for the coming conference. It recently met and decided on the dates for the sessions and the organization into voting groups as outlined above, and the number and make-up of the standing committees.

There will be thirteen standing committees, each representing one of the thirteen voting groups. The make-up of these committees has been carefully planned so that they will equitably represent the various interests concerned. The committees on the production of cotton, seed crushing and manufacture of seed products and compressing and warehousing will be headed by American chairmen, in view of the fact that this country leads in those branches of the industry. The committees on the purchase and sale of cotton, banking and insurance merchandising of cotton products and manufacture of textile machinery, will have joint chairmen from this country and England, in recognition of the fact that both of these countries are equally concerned with these divisions of the trade. The committee on transportation, spinning and finishing of cotton goods will have English chairmen, in consideration of the vital importance of transportation problems to the Lancashire trade and because England leads the world in the production of cotton goods. The committee on research and statistics will be headed by a chairman from one of the nations of continental Europe. Mr. John Szv of Switzerland has already been asked to serve as chairman of the last named committee.

It is proposed that five sessions of the conference shall be devoted to discussions of papers, five sessions to the reports of committees, and the final session to the report of the executive

committee of the action taken by the several groups on matters brought before the conference and of the election of officers. The papers to be submitted to the conference will be written by world authorities on the subjects in question. These will be distributed to the delegates in advance of the opening of the conference. At the conference itself only brief summaries will be presented by the authors, these to be followed by discussions of the topics with which the papers deal. In this way, it is expected that the business of the convention will be transacted with the greatest economy of time.

Prior to the final sessions of the conference, the voting groups will meet to consider and vote upon the various propositions laid before them, and also to elect representatives on the executive committee. The transactions of

the conference will be embodied in a world cotton conference book, which is to be edited by John A. Todd of Balliol college, Oxford, who is a world authority on cotton trade statistics. This book will contain a section devoted to cotton statistics dealing with the broad fundamentals of the production and consumption of the staple from a world standpoint.

Those in charge of the coming conference have arranged a number of tours to various parts of Great Britain and Europe, which many of the delegates will undoubtedly take after the conclusion of the conference.

X-RAY MACHINE FITS SHOES CORRECTLY AND RAPIDLY

Radiography, the science to which the most opaque of substances reveal their inmost secrets, has scored another triumph; this time not in the field of pathology, but in that of the very common every-day service of selecting and correctly fitting proper shoes according to an illustrated article in the December Popular Mechanics Magazine. An X-Ray apparatus has been

brought out for use in shoe stores, by means of which the purchaser and the salesperson can see whether or not the bones of the foot are distorted or restricted by the shoe being tried on. The device will not only settle any controversy which may arise as to proper size it will also show, without leaving chance for argument, whether a shoe is of the correct design and shape.

LIGHTWEIGHT FOLDING DRUM PACKS IN SMALL SPACE

The trap drummer is, at last, to be relieved of the burden of a full-size bass drum while on his travels. A Pennsylvania drum manufacturer has evolved the collapsible bass drum which may be packed in two small carriers one of which may be an ordinary suitcase, the other being of a special shape, says an illustrated article in the December Popular Mechanics Magazine. The drum when assembled is 28 in. in diameter and weighs only 12 1-2 lb. The manufacturers claim that, despite the light weight and small size, the instrument gives forth tones of quite satisfactory value and volume.

Rub-My-Tism is a great pain reliever by Rheumatism, Neuritis, etc.—adv. sept 25.

PARTITION SALE

SIDONIE PRUDHOMME, widow, BERNADINE THIERRY, widow, No. 21,644, Civil District Court, Parish of St. Landry, Louisiana.

FELIX CHACHERE

Going home to turkey and trimmin's

THANKSGIVING DAY last year,
I ATE my chow.
ALONE in the big town.
AND THE TURKEY was all.
NEATLY VARNISHED and had
NICE LITTLE paper pants,
ON BOTH its legs.
AND TASTED strongly.
LIKE NOTHING at all.
BUT THIS year,
MAN ALIVE, I'm going home.
AND THERE will be.
A COUNTRY turkey.
DONE to a turn.
BROWN and savory.
CRISP AND flaky.
SENDING UP little clouds.
OF TANTALIZING steam.
MAKING NOSTRILS wrinkle.
AND PALATES quiver.
OH BOY, real turkey.
AND THEN afterwards,
ABLE to breathe.
BUT NOT to bend.
I'LL REACH for a smoke.
THAT'S THE real turkey, too.
COSTLY AROMATIC Turkish.
BLENDED WITH the best.
OF MELLOW Domestic leaf.
AND ONCE again—oh boy,
CAN'T YOU just hear me,
INFORMING THE world,
"THEY SATISFY."

IT'S real Turkish tobacco that goes into Chesterfields—really grown in Turkey and bought on the ground by our own buyers. To blend it with best Domestic, in the exclusive Chesterfield way—leave that to us: "They Satisfy?" We'll leave that to you.

They Satisfy
