**ST. MARTINVILLE TEAM WINS?**

The High School Foot Ball team went to Morgan City on Thanksgiving day to play the High School of that town. The score was 21 to 7 in favor of St. Martinville.—St. Martinville Messenger.

Now could it be possible that the Review reporter was mistaken? The Times-Picayune said the score was 32 to 0, in favor of St. Martinville. The way we counted five touchdowns and two goals from touch-down, following the scoring system as laid down in the official rule book, the score totaled for Morgan City thirty-two points, and as the opposing team was near the goal line once and never tried to kick a goal from field, we failed to observe that they scored.

**HOW TO CARE FOR A CONSUMPTIVE**

This must be done "in the right place, in the right way, and at the right time, until he is cured; instead of the wrong place, in the wrong way, and at the wrong time, until he is dead."

Leading physicians are of the opinion that every consumptive if possible should enter a sanatorium as the RIGHT PLACE for instruction and treatment. Statistics show that patients in sanatorium have twice the chance for recovery as have patients in hotels and boarding-houses in the same neighborhood.

It is the constant daily care and close observation of the sick consumptive and the attention given his manner of living, regulation of rest and exercise, by trained medical men that turns the balance so decidedly in favor of the patients in the sanatorium.
