

THE Morgan City Daily Review

MORGAN CITY, LA., TUESDAY, DECEMBER 5, 1916.

No. 103

A JOY FOREVER

If Your Menu Include Cakes, They Should However be the Best Such as

STONE'S DELICIOUS CAKES

Made of material of guaranteed purity. A plain package but a perfect cake six varieties, always deliciously good, always fresh. 10 cents each.

STONE'S "RICH FRUIT" CAKE

In 1 lb. Cartons and Handsome 4 lbs. Tins 40 CENTS PER POUND

It is absolutely impossible to give you any idea of the quality, flavor and richness of STONE'S "RICH FRUIT" CAKE through the medium of paper and ink. We could easily use a column in telling you about the materials that go into it—Pineapples from Hawaii, Almonds from Spain, Pecans from Texas, Cherries from California, and so on through the list of twelve fruits that are used—but what good does it do to name them over, when the deliciousness is only half in the materials, the other half being the art and skill with which they are combined to make the perfect FRUIT CAKE.

CITY COUNCIL MET MONDAY NIGHT

Proposed Amendments Discussed: Recess Taken Until Next Monday Night

The Morgan City Council met Monday night in the Council Room of the City Hall for their regular December meeting. A full attendance was present with Mayor Shannon presiding. After a reading of minutes of the previous meeting, which were approved and ordered spread on the records, the bills for the current month were read and referred to the Finance Committee. The report of the standing committees were read and accepted.

Petitions for saloon license were presented by Mr. S. Caro and Mr. B. Mula. Both petitions were held up for investigation and will probably be acted upon at the next meeting of the council.

The councilmen ratified the action of the Mayor in the steps taken by him to perfect the acquisition of the Ditch Annex property which is being utilized by the city for caring for the live stock and street implements belonging to the city.

A resolution was offered amending the ordinance fixing the exhibition license for street shows, street fairs or carnival companies and making the city licenses for a week of such exhibitions or shows to read \$500.00. The ordinance amended provided for a license fee of \$250.00. This amendment was favorably received by the council.

An ordinance proposed for the licensing and regulating of bill posting privileges was tabled.

Action on amendment to the ordinances governing the use and control of water provided by the municipal water works and providing that meters be installed on all new connections as made and on all old connections within one year from date of completion of the proposed amendment was deferred for further consideration. This proposed amendment provides for the payment of the meters by the property owners on an easy rent basis plan and is designed to adjust the expense of operating the waterworks on the equitable consumption plan. The meter rates mentioned in the proposed amendment call for a charge of 20 cents per thousand gallons for the first five thousand gallons used, 18 cents per thousand for the second five thousand gallons, 16 cents for the third five thousand gallons, and continuing on a decreasing cost basis for amounts used until the

price of 9 cents for 500,000 or more is used. Final action on this amendment will probably be made at the next regular meeting of the council.

Dr. C. C. DeGravelles, city health officer, came before the city council and called to their attention the existence of certain unsanitary conditions created by the existence of the present style of pit cesspools in use in section of the city not within the water and sewer districts. He suggested as a remedy for these conditions the adoption of sanitary fly-proof metal cesspools, a model of which he presented for their inspection with the strong recommendation that some steps be taken to safeguard the health of the city by adopting same. No plan of action was suggested and the matter remains in the hands of the health officer and the councilmen.

A report from City Engineer and Waterworks Inspector Thorgeson was presented showing the costs of operation for the water works and sewer system for the years 1914, 1915, and 1916, also the revenue returned from such operation.

Chief Thorgeson's report follows: 12-4-16.

Hon. Mayor and Council, City.

Gentlemen:—

Following find a report I have tabulated from the City Books and my records, on the cost of operation etc., of the waterworks plant and sewer system, for the years, 1914, 1915, 1916.

From this data you can get comparative information for the time that the plant has been in operation, and an estimate as to what it will do in the future.

I am quite certain that we can reduce the cost of operation considerably in 1917 as well as increase the revenues.

I have made arrangements to get alum at an exceedingly low figure and you will notice that our alum consumption has decreased this year and also that the wash water has been reduced from 7.1 per cent to 5.9 per cent and I believe that we can reduce it to 5 per cent which is the average of plants of our type.

I have experimented with an extra screen or strainer for the suction of the sewer lift pump and find that we can decrease the current consumption basis for amounts used until the

"STATE" MENTS TO PUZZLE OVER

"State" where there is no such word as fail? Kan.

"State" the best expression for students? Conn.

"State" the most unhealthy place? Ill.

"State" the best cure for illness? Md.

"State" of surprise? La.

"State" of exclamation? O.

"State" of decimals? Tenn.

"State" where Noah should have come from? Ark.

"State" where the farmers excel? Mo.

"State" of maidenly grace? Miss.

"State" where fathers thrive? Pa.

"State" for the untidy? Wash.

"State" for the religious? Mass.

"State" for the egotistical? Me.

"State" for the oldest American? Ind.—From "Fun and Frolic," in The People's Home Journal for November.

Our garden seeds have proved their germinating quality so well in the past, especially our onion sets, that our supply is going very fast, but some are left yet, and first come, first served at Belanger Drug Co.

Mr. J. E. Delas is spending the week in Thibodaux.

Did you see the Xmas packages, Nunnally's and Morris candy in refrigerator case in our window? Something swell—Better select early—Peoples Drug Co.

Mrs. Adam Lacoste is reported quite ill in New Orleans following an operation she underwent a few days ago.

UNITED STATES POST OFFICE

Newspaper articles, like sermons, do not always reach the subjects for whom they are intended. Nevertheless these words have reached you, and now that you have read this far, kindly continue. The Post Office will handle more parcels this year than ever before in its history. The responsibilities of the postal employees will be many; their energy and skill will be taxed to the utmost; their hours will be busy ones and their work tedious. These conditions cannot be escaped; they will face the music! But, you could greatly lessen the burden without any expense or self sacrifice, without an iota of unnecessary labor. You can ease the load by MAILING YOUR PARCELS EARLY.

Remember, he who hesitates is lost. It is better to be a happy winner than a good loser.

Julius P. Hebert, Postmaster.

Children take BALLARD'S HORE-HOUND SYRUP willingly because it tastes nice. There isn't a better remedy anywhere for children's coughs, hoarseness and bronchitis. It's a good medicine and easy to take. Price 25c, 50c, and \$1.00 per bottle. Sold by Belanger Drug Co.

NOTICE

Take notice that I am applying to the City Council of Morgan City for permit to open a bar-room, for white patrons, in what is known as the "Serville Building" on Block 1st north side of Railroad Avenue, for the year 1917.

Sam Caro.

THE RESCUE OF LIFE

In case of fire is accounted noble, but the rescue of property can only be partially attained after the onset of the flames. There is a way of rescue however. A way that discounts the damages of fire, smoke, and water. Protect yourself by a fire insurance policy from a company that has a financial reserve sufficiently large to assure you of indemnity.
