No. 49

Allied Troops Have Thirty Hun Divisions On The Run

Gain of at Least Nine Miles Made Over Twenty Mile Front And Progress Continues—Allied Troops Well Beyond Cambrai

The Anglo-French troops have forced the Germans to a general retreat north and south of St. Quentin. The First Army, pursuing the enemy rear guard, has advanced about five miles to the east of St. Quentin and taken 2,000 prisoners. Recessive explosions have occurred in Cambrai, which, it is reported, have reduced the town to ruins.

The German troops on a twenty-mile front have been put to full flight and the British cavalry is reported to be pursuing them, the infantry marching in columns of four through villages hastily abandoned by the enemy.

Cambrai has fallen and the British are now well to the east.

The deepest gain some hours ago was at least nine miles on this sector, and there are no signs of the advance slowing up. On the contrary, it is going faster every hour, with clear ground ahead.

Everything that could be burned had been set afire by the enemy before he began what virtually amounted to the rout

of no less than thirty divisions, the smashing of which was continued furiously today.

North of Cambrai the Canadians attacked and penetrated deeply today.

The British marched through Bertry without opposition. They reached the outskirts of Troisvillers and held Maurois and Honnechy.

Large forces of the enemy have been seen from the air, fleeing well to the east of Le Cateau. Maretz fell early and the British reached Busigny and passed quickly through Bohain. These are only a few of more than a score of towns captured.

Many thousands of prisoners and quantities of field and machine guns were taken, as well as vast stores of other booty, which the enemy did not have time to blow up or set afire.

All this was the immediate effect of yesterday's victories which are being exploited to the fullest. The Germans may try to make a stand on their partly completed line at La Cateau, but they have been badly punished and they face an overwhelming disaster.

No Panic Here

President de Gravelles of the City Board of Health stated this afternoon that additional cases of influenza had been reported since yesterday.

Regardless of drastic orders issued by the Board of Health, which has closed schools, moving picture houses, churches, pool halls and all kinds of public gatherings, Morgan City folks are going about their daily business as if nothing had happened. As far as can be seen on the surface there is no disposition to become panicky over the present situation regarding the influenza epidemic or to what lengths it may develop. Morgan City is obeying the order without a murmur with the firm belief that the situation will become normal in a short time.

The local branch of the Red Cross is putting forth every effort to extend aid to those who are afflicted and unable to obtain the medical and nursing care needed. A recruiting campaign to secure volunteers for nursing work in Morgan City was started this afternoon. A relief committee will also be appointed some time today by Mrs. M. P. Palmer, chairman of the local branch.

The order has gone forth prohibiting congregating in saloons, but thus far they have not been ordered closed. Soda fountains, however, were discontinued

last night by official order. The management of Borah's drug store voluntarily closed their fountain before the order was received. Their public-spirited action prompted President de Gravelles of the Board of Health to close the remaining soft drink establishments as far as the sale of drinks is concerned.

Date Postponed

Owing to the prevalence of influenza in Morgan City the committee of the Elks who have charge of the Italian drive on Columbus Day, Saturday, Oct. 12, have postponed the event until some future time, this move being deemed advisable by Local Health Officer de Gravelles. Announcement as to when the affair will take place will be made through The Review and posters.

BUSINESS OPPORTUNITY— Splendid opportunity open to some enterprising man or young man in handling Circulation Department of the Daily Review. Circulation growing so rapidly that it must be turned over to some one able to put in at least one-half of every day. Circulation for sale outright, or will pay salary and commission. Apply to Managing Editor of the Daily Review. Morgan City.

NURSES

WANTED

Owing to the rapid spread of the present epidemic the safety of this country demands that all patriotic available nurses, nurses aids, or anyone with experience in nursing, place themselves at once at the disposal of the Government.

In order that the nursing resources of the country may be mobilized to assist in the control of the influenza epidemic practicing physicians in general and specialists in medicine in particular are urgently requested to release from attendance on chronic cases and all other cases

which are not critically ill every nurse working under their direction who can possibly be spared temporarily from such duty. Graduate nurses, undergraduate nurses, nurses aids, AND VOLUNTEERS are urged to TELEGRAPH, COLLECT, at once their names addresses qualifications and earliest possible date of availability to their Local Red Cross or Red Cross Headquarters, Washington, D. C. signed Rupert Blue, Surgeon General, United States, Public Health Service.

St. Mary Chapter, A. R. C. Will Extend Necessary Relief To Influenza Victims

Chairman Williams Suggests Isolation And An Urgent Call Is Made For Volunteer Nurses

The following letter has been received from Chairman C. S. Williams of St. Mary Chapter, A. R. C., and is self-explanatory:

Patterson, La., Oct. 9, 1918.

All Chairmen:

Owing to the epidemic of Spanish influenza, which is rapidly growing more serious each day, I judge it is not advisable to call a meeting of the executive committee until such time as all danger from contagion is past.

Just now it appears to me that all the workrooms should be closed, and I suggest that in as much as there is very little work to do, unless I hear from a majority of you to the contrary, that you do not open your workrooms after receipt of this notice.

We find in Patterson that there are a number of cases that need prompt attention and the care of some organized and well equipped body. We know of one family in which all ten members are sick at one time. The chairman of the Patterson branch has employed competent nurses—in this case they are graduate nurses—to attend to these people. If necessary, two nurses will be sent or one will preferably be a volunteer nurse—as a matter of fact, both may volunteer, and, of course, it is preferable, if it is possible to secure a trained volunteer nurse. It is my idea you should appoint a committee of three, who will have charge of relief work during this present epidemic. You should, yourself, be a member of this committee, unless you wish otherwise. This committee should arrange, if possible, for the use of a suitable building, which could be used for an isolation hospital if it becomes necessary. You should arrange the hospital in such manner that both colored and white can be taken care of. You should then secure as many nurses as possible, who are willing to serve either as volunteers or with a salary, which salary should not exceed \$75 per month with all expenses to a graduate nurse—\$30 to 50 per month may be paid for less experienced nurses.

Arrangements should be made with your local stores to furnish such supplies as may be needed, at cost—these supplies including bed linen, towels, medicine, etc., even food supplies, if required.

The importance of this work depends largely upon the seriousness of the epidemic and it appears at this moment that your work may be of great importance, and the real efficiency of the chapter and its benefit to the community may rest upon the work in this particular epidemic.

When the chest feels on fire and the throat burns, you have indigestion and you need HERBINE to get rid of the disagreeable feeling. It drives out badly digested food, strengthens the stomach and purifies the bowels. Sold by Belanger Drug Co.

Neuralgia of the face, shoulder, hands, or feet requires a powerful remedy that will penetrate the flesh. BALLARD'S SNOW LINIMENT possesses that power. Rubbed in where the pain is felt is all that is necessary to relieve suffering and restore normal conditions. Sold by Belanger's Drug Co.

"ARE THE FOLKS AT HOME
BEHIND US?"

The boys in France are asking this in their letters home.

Speaking for this community we will say: We are right behind you, all of us, all the time.

We are cutting out waste and learning cheerfully and gladly to do without that you may have.

And we are going to PROVE that we are behind you by going over the top for the fourth issue of Liberty Bonds just like you go over.

—every man crowding for a place in the first line!

You'll have no complaint to offer about the way this community came through with its quota.
