THE BEST PLASTER

A piece of flannel dampened with Chamberlain's Liniment and bound on over the seat of pain is often more effectual for a lame back than a plaster and does not cost anything like as much.

Make the Best Use of It. It is useless to desire more time, if you are already wasting what little you have; for you would only grow more indolent and indifferent.—White's Class Advertising.

"I Didn't Know That My Eyes Were So Weak"

That's what most people say when they have been properly fitted in glasses, and see the big improvement in their vision. One's eyes weaken so gradually that they scarcely realize to what extent they have become impaired. If there is any indication that your eyes are not as strong as they were at one time—or if you are suffering from headaches or nervousness which is usually caused by weak eyes, you had better drop in and let W. N. WILLIAMSON, Doctor of Optometry, examine your eyes.
