Taste is a matter of tobacco quality

We state it as our honest belief that the tobaccos used in Chesterfield are of finer quality (and hence of better taste) than in any other cigarette at the price.

SCHOOL SPIRIT AND SUPPORT

The Glenmora high school opened its athletic season when it triumphed the strong Ville Platte five last Saturday to the tune of 21 to 12. This was really one of the very best games ever witnessed on the local court. The only sad feature of it all was to see just how few and what little support our school teams are getting, to think less than two dozen people there to see their own boys compete in wholesome and necessary sports?

Last year very little interest and support was given to our school teams, financially as well as good words. No team can expect to win unless it knows that it has some support. Why was our baseball team a success?

That can be easily answered because every one of us backed and pulled for it to our utmost. We are glad to know it was, and hope we have a stronger nine to represent Glenmora next year.

Now during the school term why not get behind and pull for our school and its teams? We need the old pep and every one of us must fall in line. Every time our school teams play a visiting five, we don't make enough to pay expenses. Last Saturday there was a deficit of \$30.00 to pay expenses for the Ville Platte five. Glenmora is your school! Its teams are yours! Throw away the hammer and get the horn!

Dr. and Mrs. W. E. Reid are visiting Mrs. Reid's parents the J. E. Doves.
