

Says Indigestion Is Entirely Ended

Victims of stomach trouble, indigestion, dyspepsia, and their allied complaints find Tanlac an ever-ready source of relief and comfort. Thousands of people have refound the joys of health by its use after everything else they tried had failed. Mr. Joseph Heckell, of West Oak St., South Bend, Ind., says:

"I couldn't eat a thing but what hurt me, I got to having from one to three fainting spells a day, and wasn't expected to live much longer. But now I eat anything, never have a fainting spell and can do as big a day's work as the best of them. I give Tanlac all the credit."

Tanlac helps the stomach digest the food properly and eliminate waste. Soon the whole system is built up, the blood is purified and the entire body takes on new tone, vitality and energy. Get a bottle today and start on the road to health. For sale by all good druggists.—Advertisement.

MOTHER!

Your Child's Bowels Need "California Fig Syrup"

Hurry, mother! Even a sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary.

Ask your druggist for genuine "California Fig Syrup," which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Advertisement.

Important to All Women Readers of This Paper

Thousands upon thousands of women have kidney or bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer pain in the back, headache and loss of ambition.

Poor health makes you nervous, irritable and maybe dependent; it makes you a slave.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine, will do for them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., you may receive sample size bottle by parcel post. You can purchase medium and large size bottles at all drug stores.—Advertisement.

AMERICAN SHIPS ARE TO BE DRY

ATTORNEY GENERAL MAKES DECISION SWEEPING BOOZE FROM THE SEA

LONG MOOTED QUESTION

18th Amendment Applied To American Ships Anywhere And Prohibits Foreign Ships in Our Ports With Whiskey.

Washington.—Attorney General Daugherty in a sweeping decision has ruled liquor off American ships throughout the world and prohibited the entrance into American waters of foreign ships carrying liquor, sealed or open.

The decision forces Chairman A. D. Lasker of the Shipping Board to discontinue the sale of liquor on all government ships, outside the territorial limits of the United States, prevents the carrying of liquor anywhere in the world by any privately owned ships flying the American flag, and bars American ports to the ships of any nation, unless their liquor stores are disposed of before they enter the territorial waters of this country.

The attorney general's decision, which has been hanging fire for many months, reverses the ruling of the former attorney for the United States Shipping Board, Elmer Schlessinger of Chicago.

No difficulty will be encountered with respect to enforcement of the law as it relates to American ships, but the decision is certain to precipitate international complications with the big maritime nations of the world.

Already, the attorney has been informed, foreign shipping interests are prepared to fight in the courts and will apply for a temporary federal injunction restraining the enforcement of the ruling against them until its validity can be tested in the courts.

That the ruling eventually will be upheld in its application to foreign ships is generally regarded here as certain. This will make it necessary for the big foreign lines to make some arrangements whereby they can dispose of liquor stores outside the territorial waters of this country or else cease to carry liquor stores.

Political leaders see in the ruling a boost for the pending ship subsidy legislation, inasmuch as it will have a tendency marine bill dry members of Congress, who have been threatening to vote against it, because of the government's attitude in permitting the sale of liquor on American ships.

The decision of the attorney general was rendered at the request of Secretary of the Treasury Mellon. It was followed by a conference at the White House this afternoon, in which the president, Secretary of State Hughes, Secretary of the Treasury Mellon, Attorney General Daugherty and A. D. Lasker, chairman of the Shipping Board participated.

Broke Airplane Record.

San Diego, Cal.—Lieuts. John A. MacReady and Oakley Kelly, who flew over San Diego in the great monoplane T-2, landed at Rockwell Field, having broken all known records for sustained flight in the heavier than air flying machine. They were in the air 35 hours, 18 minutes, 30 seconds.

Seven Killed At Crossing.

Valparaiso, Ind.—Mrs. Harriet Hargot of Chicago and six of her seven children were instantly killed on a railroad crossing near here, when a Pennsylvania train crashed through their stalled automobile in which they were sitting. The husband, Rene Hargot, his son, Rene, Jr., and a friend named Mishoulan were trying frantically to push the stalled car from the tracks.

MONTHLY STATE CROP REPORT

DRYEST WEATHER EVER KNOWN THROUGHOUT ALL PARTS OF THE STATE

COTTON SEASON EARLIEST

Boll Weevil Has Destroyed The Top Crop But Dry Weather Has Been Cause Of The Greatest Damage.

Baton Rouge, La.—The condition of the cotton crop in Louisiana on September 25 were seven points lower than one month ago and three points below the ten-year average, according to a report issued by Lionel L. Janes, agricultural statistician of the bureau of economics, Department of Agriculture.

The condition was 53 per cent of normal compared with 70 per cent on July 25 and 60 per cent on August 25. The September condition of 1921 was 41 per cent, that of 1920 was 47 per cent and that of 1919 was 38 per cent. The ten-year average of condition on September 25 was 56 per cent. The average deterioration between August and September 15 is five points, that of this year was seven points.

The September condition forecasts an average yield of approximately 148.4 pounds of lint cotton an acre. Total production for the state is forecast at 704,000 bales. The production, however, may be smaller or larger than the forecast, depending on conditions before picking.

The average yield, last year was 114 pounds an acre and the production was 278,858 bales. Two years ago production was 387,563 bales, three years ago it was 297,481 bales and four years ago it was 537,717 bales.

Deterioration since August was caused by army worms, premature development and boll weevils. The worms cut leaves from plants in many sections, opening the stands to direct sunlight which hastened maturity. General hot weather and drought also hastened maturity. The weevil has damaged the late crop materially and, generally speaking, there is no top crop because of its ravages.

A wet spring, late planting, especially on lands overflowed by the Mississippi and its tributaries, poor stands and a wet July also were causes of the low condition of the crop.

The crop apparently is two-thirds picked and a large percentage is ginned. From many sections come reports of sales as fast as the cotton is ginned.

Oak Grove, La.—At a regular meeting of Charles H. Catron Post, No. 53, of the American Legion, the following officers were elected: Post commander, Dr. J. L. Kelly; first vice-commander, C. B. Leesville, La.—The First State Bank of Leesville showed a gain of \$149,095 in one week. Its resources totaled \$1,515,862.11 September 22.

Monroe, La.—The United States district court for the western division of Louisiana has convened here with Judge George W. Jack on the bench. Numerous cases involving alleged violations of the Volstead act were before the court, many of which were not pressed.

New Orleans, La.—With the announcement of a \$2,000,000 bond issue of the state of Ceara, Brazil, which is to be handled through the Mortgage and Securities Company of New Orleans, with the Interstate Trust and Banking Company as trustees, fiscal agents and registrars, New Orleans entered into a new phase of its financial history. This is the first time a foreign bond issue has been handled in America by any city outside of New York.

Shreveport, La.—Records and maps that are valuable assets to the state and aid to citizens interested in oil and gas properties have been prepared and are on file in the bureau of minerals of the Louisiana Department of Conservation at Shreveport. These records and maps have been compiled under the supervision of M. L. Alexander, commissioner, and Ben K. Stroud, supervisor of minerals. The object in compiling them was to furnish useful and valuable information to all persons.

Hammond, La.—The racing program for the first days of the Florida Parishes Fair at Hammond from October 30 to November 4, has been announced by Manager A. A. Ormsby. It will include two fast races daily.

Monroe, La.—The cotton marketing associations of eight cotton-growing states, which make up the American Cotton Growers' Exchange, have been financed for the new season, according to A. E. Smith of Monroe, president of the Louisiana Farm Bureau Federation.

COFFEE RAISED IN LOUISIANA

Edgard, La.—On his farm at Edgard, Rudolph Blanchard has grown successfully a Mexican coffee which he expects to place on the market next year. If Mr. Blanchard can grow this plant in quantities a new industry will have been started in Louisiana which will not only mean a lower price for coffee in the United States but an unfailing source of revenue to Louisiana farmers, it was pointed out.

The pods contain four beans of a yellowish green color. One plant may produce three or four pounds of coffee, but most plants yield from one to two pounds. The beans are dried in the sun at first and must be baked and ground, and the ground product may be used to make good Louisiana grown drip coffee, Mr. Blanchard said in telling of his experiment.

The coffee plants require little cultivation and do not grow taller than a man, thus making it easy to pick the coffee pods. The expense of growing the plant is little more than that of sowing the seeds and cutting away the grass and draining the land. The plants appear to be immune from insects or plant diseases and all plants look healthy and produce well.

Mr. Blanchard had a demonstration booth at a fair conducted at Edgard recently, and all who tasted of his coffee pronounced it an excellent beverage. A demonstration booth for this coffee will be operated at the South Louisiana Fair in Donaldsonville so that persons from all parts of the state may test its good qualities. Growing plants also will be exhibited among the St. John parish exhibits at the fair.

GETTING READY FOR LEGION BOYS.

Canteen work, a motor corps service, and registration of the legionnaires who visit New Orleans for the convention will be among the activities of the Red Cross when the American Legion gathers here this month, according to plans formulated by the New Orleans Chapter yesterday.

Registration of all the convention visitors will be under the supervision of Mrs. Charles F. Buck, Jr., chairman of the volunteer service. She will have workers at all the railroad stations and hotels of the city, and the registration will continue from 8 a. m. to 10:30 p. m. October 15.

The original plan of having free canteen service has been discarded on receipt of word from national headquarters that nothing could be given away. The present plan is to operate a canteen at the main convention hall, where sandwiches, cold drinks and ice cream will be served at the lowest possible cost. Mrs. W. E. Weeks will be in charge.

Lake Charles, La.—The program for the first day of the National Rice Carnival and Calcasieu Parish Fair, November 16, 17 and 18, was announced today by the Association of Commerce. Featuring the first day's program will be a football game between Lake Charles high school eleven and the team from Franklin high school.

New Orleans, La.—One hundred thousand men and women in New Orleans are forgetting to pay their poll tax. Unless they pay the 1922 poll tax they will automatically disfranchise themselves and will be unable to vote in the big state and national elections to be held in 1924. How many thousand over the state are forgetting this important duty?

Opelousas, La.—One of the features of the work of the trade extension bureau this winter is the publication of a monthly paper outlining the advantages of this section of the state, especially for farmers seeking land for diversified crops, as well as industries of all kinds. The paper will be circulated free.

DeRidder, La.—The DeRidder high school enrollment at the end of the second week is nearly 1100. Principal H. A. Bule believes that by the first of the year the enrollment will go to 1200. The football team this year under Coach R. L. Browne is in better shape than ever.

Opelousas, La.—A baby show will be staged in connection with the Cotton Carnival here October 25. Entries are expected from all sections of the parish as a number of prizes are to be offered.

Washington.—Louisiana paid \$25,064,198 in federal income taxes for the calendar year of 1920, figures just compiled by the bureau of internal revenue show. The figures cover both personal and corporation returns. Mississippi's total was \$5,776,136. The returns show that the net incomes on which these taxes are based were \$394,400,784 for Louisiana and \$101,328,407 for Mississippi. There were \$45,595 corporation income tax returns in the entire country in the calendar year, 1920.

Monroe, La.—E. C. Colvin was elected moderator, J. M. Melton clerk and R. J. Tabor treasurer of the eighty-ninth annual session of the Concord Baptist Association at the Wine Grove Baptist Church, which closed its sessions recently.

Baton Rouge, La.—The yield of sugar cane is materially reduced when it is affected with the mosaic disease, according to investigations made by the specialists in the extension division of the Louisiana state university.

Original Chinese in Siam.

J. F. Iock, adventurous plant hunter, reports from Kengtung, Burma, to the Agricultural department that he has found a village of the original Chinese referred to in the oldest historical book of China, which dates back 2,000 years before Christ. "They are called Miao," he says, "and do not eat or grow any rice, but only corn. They cut down the forests and plant corn at an elevation of 3,500 to 4,000 feet on the elephant-shaped mountain of Doi Chang on which they live. They are the dirtiest people I ever saw, barring not even the Tibetans. Their naked children wallow in the mire with the pigs.
