A "special" passed through town Tuesday with a number of the big officials of the Frisco Railroad System. It is reported that the Frisco people have gotten control of the N. O. G. N. R. R. and that considerable improvement on this property is contemplated. It is said that the road will be extended from Jackson-

Miss, north to some point near Memphis, Tenn., where connection will be made with a R. R. Property of the Frisco extending from Memphis to Birmingham Ala., also the road will be extended from Slidel, to New Orleans via the Rigolet. This report is denied by the Good-yeats but from the maneuvers of the officials of both systems it seems more than probably true.

In Memorial.

On Friday morning Nov. 18th, at his residence, Mrs Emily Wood died after only a day's illness. Mrs Wood was 73 years old; was born in Louisiana and was a life long resident of Franklinton. She was the mother of a large family all of whom are settled in their own homes, and with her life's work ended this devoted mother seemed to gently fold the draperies of her couch about her and lie down to peaceful rest. The funeral services were conducted by Rev. L. C. Wilson from the Methodist Church where she had been a member for many years. The end was as peaceful as the close of a beautiful summer day, when daylight fades into night with increasing loveliness. "So He giveth His beloved sleep."

Good Common Sense Advice

READ THIS

We have already explained to you why our bank is perfectly safe, so now we want to change the subject a little.

SO LISTEN

If you happen to make a good fee, trade or commission, or obtain a raise in your salary, it isn't necessary to go right out and buy a horse and buggy; or if you happen to have had a successful year in business, you needn't put all your profits into a big house. Such a course may do for a man who is willing to trust to luck, or has a rich and kind hearted father in law; but you should reflect that one "swallow does not make a spring"—there may be some late frosts.

One of the most useful and difficult lessons to learn is to always keep your balance. Nothing steadies a man better than a savings account growing by regular deposits and quarterly or annual interest.
